

## 5 Minute Invitation Card

You will need:

[2 x Sheets Ginger Pearlescent Card](#)

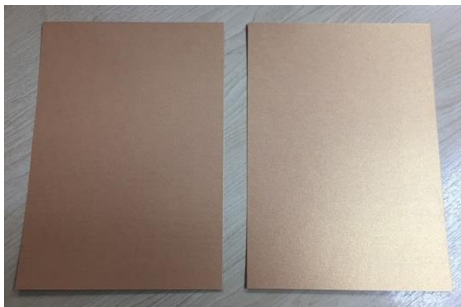

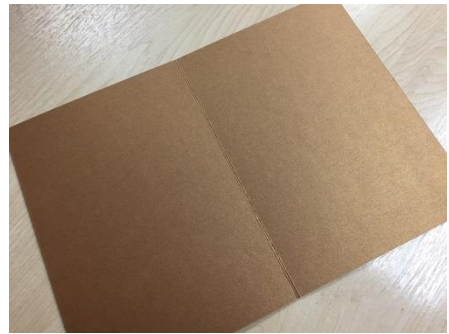

[1 x Sheet Rose Gold Pearlescent Card](#)

[Double Sided Tape](#)

[Scissors](#)

[Bone Folder](#)

Take a sheet of Ginger Pearlescent Card score and fold in half using a bone folder.

Take a piece of Rose Gold Pearlescent card and cut in to two pieces of A5.

Take 1 of the pieces of A5 Rose Gold Card and remove 10mm from 2 sides leaving you with a piece of card measuring 138mm x 95mm.

Apply some double side tape to the piece of rose gold and stick it to the front of your folded piece of Ginger Pearlescent Card so that there is an even border all the way around.

Take another piece of Ginger Pearlescent card and cut a strip from the short edge that is approximately 40mm wide. The resulting piece should measure 40mm x 210mm.

Take the remaining piece of A5 Rose Gold card from earlier and cut a 30mm wide strip from the long edge. When you have done this, trim 10mm from the end of the strip so that it measures 30mm x 138mm.

Take your strip of Rose Gold Pearlescent card and stick it to the strip of Ginger Pearlescent card using double sided tape. At this point you can decorate this piece with ribbon or decoration of your choosing.

When you have finished decorating the strip you can stick it to the rest of the card using more double sided tape.

Hopefully by now you should have a great looking two-tone card that is perfect for invites or wedding invitations.
