

How To Attach a Crimp Cover

Step 1. Take your secured crimp that you would like to cover and a Crimp Cover.

Step 2. Slid Crimp Cover over crimp and make sure it is sitting neatly over the crimp and tigertail. You may find it easier to hold the crimp cover in your pliers to slid over crimp.

Step 3. With your pliers, gently squeeze the crimp cover closed over the secure crimp and Tigertail. Make sure you close the cover evenly, to create a neat round bead shape.
