

Design Cord Necklace

Step 1. Cut a long length of thread, approx 1.5 metres, thread it onto your needle and fasten the thread about 1cm from one end of the Design Cord.(Image A) Wrap the thread around the end of the cord a few times and then push your needle through the middle of the cord.(Image B)

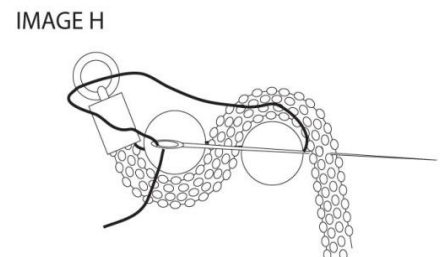

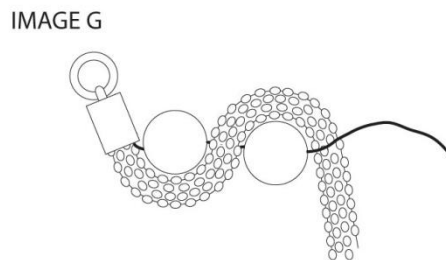

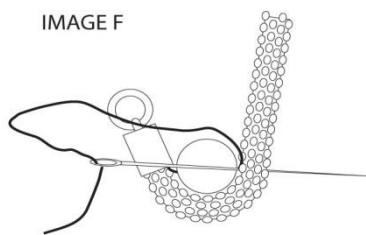

Step 2. Remove the cellotape from the end of the rope. Take the clasp and glue the end of the rope into the clasp, pushing as much of the end into the clasp end as possible. Hold for a minute to allow glue to dry. (Image C)

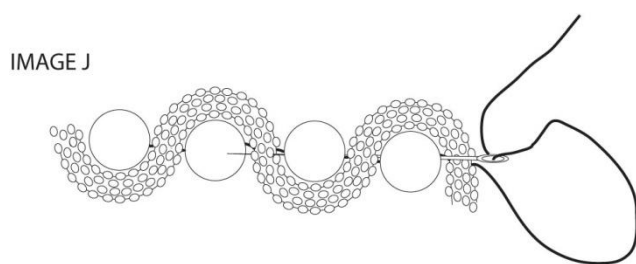

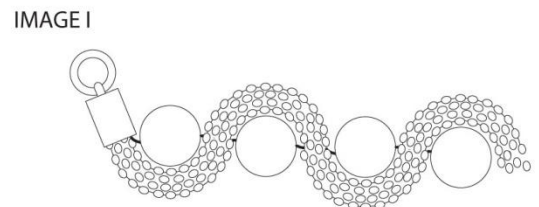

Step 3. Taking your needle, thread on a pearl, (Image D) then wrap the Design Cord around half of the bead.(Image E) Push your needle through the middle of the rope and out the other side.(Image F)

Now, thread of another pearl and wrap the rope half way around this pearl, (Image G) again threading the needle through the centre of the rope.(Image H)

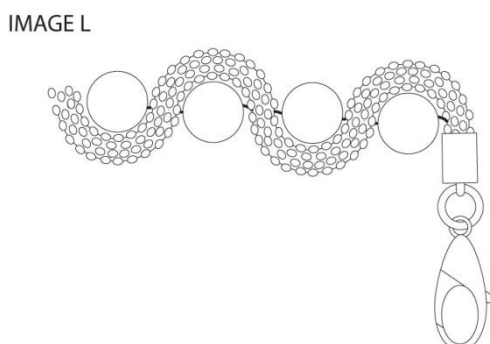

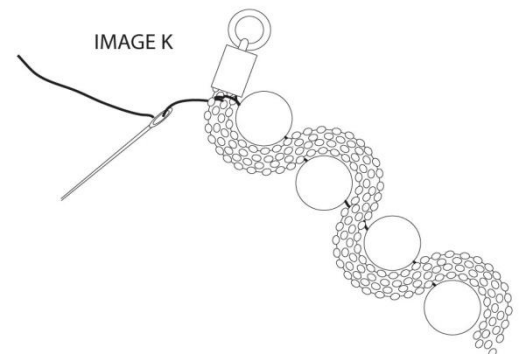

Step 4. Repeat Step 3. until you have reached your desired length of necklace,(Image I) leaving approx 1cm of rope at the end, so you can push the other end of the clasp on. The Kit will make a necklace approximately 22" in length, using the complete length of Design Cord.

Step 5. Thread your needle back through the rope and the last pearl, then the next section of Design Cord, (Image J) then the pearl

etc... until you have gone back through all the pearls. Fasten off your thread by running your needle through the rope several times and trim.(Image K)

Step 6. Now, take the other end of your clasp and glue the end of the rope into the clasp, again pushing as much of the end into the clasp. Hold for a minute to allow glue to dry.(Image L)
