

PRODUCT CATALOGUE

Range for 2020 – 2021

"Hi I'm Lucy, Customer Services Manager here at Eternal Tools.

For more than 21 years we have focused on providing high quality, precision tools. If you have any specific requirements or any questions, I'm here to help."

PRECISION TOOLS

For Your Craft

Eternal Tools offers precision tools for the discerning Artisan, Craftsperson, Hobbyist and Scientist. With an emphasis on quality and durability many tools are made from very hard materials including diamond and tungsten carbide.

Having been established since 1999 Eternal Tools has had a chance to evolve their product range and now offer many hard to find and exclusive products worldwide.

Horotec 6 Watchmakers Screwdrivers Set

MSA01.201-D

HOROTEC

Quality Swiss Watchmakers Screwdrivers with knurled stainless steel handles on a sturdy aluminium stand.

Each screwdriver is colour coded for easy identification and comes with a hexagonal swivel head mounted on ball bearings for smooth operation and ease of use.

The set includes the 6 most popular sizes: 0.60, 0.80, 1.00, 1.20, 1.40, 2.00mm.

£102.00

Horotec 9 Watchmakers Screwdrivers Set

MSA01.201-A

HOROTEC

Swiss made superior quality watchmakers screwdrivers by Horotec. Set of 9 watchmaker screwdrivers with knurled stainless steel handles. Delivered in a wooden case with 9 replacement hardened-blue steel blades and 2 additional fixing screws.

The set includes sizes: 0.6mm – 3mm

£126.98

Horotec Watchmakers Screwdrivers - Sold Individually

MSA01.201

HOROTEC

Sold separately in the most popular sizes: 0.50mm, 0.80mm, 1.00mm, 1.20mm, 1.40mm, 1.60mm, 2.00mm, 2.50mm and 3.00mm.

£12.50
each

Horotec Crosshead Phillips Screwdrivers Set of 5

MSA01.404

HOROTEC

This is a Set of 5, Crosshead Screwdrivers, sometimes referred to as Phillips Screwdrivers.

These premium quality Swiss Watchmakers Screwdrivers have knurled stainless steel handles and are individually colour coded for easy identification. Comes with a hexagonal swivel head mounted on ball bearings for smooth operation and ease of use.

The set includes the 5 most popular sizes: 1.20, 1.50, 2.00, 2.50 and 3.00mm.

£53.50

Horotec Watchmakers Screwdriver Sharpener

MSA01.504

HOROTEC

Enables you to produce the perfect screwdriver head shape so that your screwdrivers will not damage the watch screw heads.

The machine comes complete with 3 stones, 2 are for forming the sides of the screwdriver head and the other for squaring off the end of your screwdriver.

Also included are 8 screwdriver holders of varying sizes to cater for a full range of watchmakers screwdrivers.

£199.00

Watchmakers Screwdriver Sharpening Tool

MSA01.500

A simple and precision made tool for sharpening watchmakers screwdriver blades. Squeeze the ends of the tool in order to insert and clamp your screwdriver into position. The screwdriver is then kept in perfect position while you sharpen your screwdriver blade on a diamond lap.

- 40mm x 14mm diameter
- Made in France

Screwdriver is not included.

£17.30

Precision made small diamond drill bits for drilling small holes in hard materials such as precious stone, glass, sea glass, shell, concrete, pebble, ceramic, petrified wood, fossil, optical material, composites, bone and more.

Small Diamond Drill Bits

DDB1

Overall length: 28mm - 44mm, shank: 0.5mm - 3mm

Sizes available: 0.75mm – 3mm diameter

- 1-4 Drills = £5.50 each
- 5-9 Drills = £4.75 each
- 10-24 Drills = £3.70 each
- 25 or More Drills = £3.40 each

from £3.40

Small Diamond Core Drills

SDCD1

ETERNAL TOOLS

These drill bits are hollow, allowing water to circulate inside the core.

Overall length: 35mm - 50mm, shank: 0.75mm - 2.35mm

Sizes Available: 1mm – 3mm diameter

- 1-4 Drills = £5.95 each
- 5-9 Drills = £5.20 each
- 10-24 Drills = £4.10 each
- 25 or More Drills = £3.70 each

from £3.70

Diamond Drill Bits Set for Your Dremel Tool

DREMELDS1

This exciting set is just what you are looking for if you have a Dremel Rotary Tool and wish to start drilling small holes in pebbles, sea glass, shells or pieces of china and ceramic.

Set contains the following:

- Dremel Multi Chuck 4486
- 1mm Small Diamond Drill bit
- 1.5mm Small Diamond Drill Bit
- 2mm Small Diamond Core Drill
- 3mm Small Diamond Core Drill

£31.45

Diamond Core Drills

DCD

ETERNAL TOOLS

For Drilling Stone, Tile, Glass, Shell, Ceramic, Porcelain and more..

Sizes available from: 3.5mm - 60mm

from £5.50

each

Bottle Neck Diamond Core Drills

BNDC

ETERNAL TOOLS

Diamond core drills on a 2.35mm shank, allowing you to use them on your jewellery, craft and hobby projects in your pendant drill, Dremel or Foredom type drill.

Sizes available:

4mm, 5mm,
6mm, 8mm,
10mm

each

Small Diamond Twist Drills

DTD1

A perfect diamond drill for enlarging holes in beads and pearls.

Sizes available from: 0.5mm - 3.00mm

£3.50

each

Sintered Diamond Core Drills

SINDCD

Sintered diamond core drills have a superior cutting and speed efficiency.

Sizes available from: 3mm - 16mm

from £43.00

each

Carbide Drill Bits

CDB

Solid carbide drill bits with a straight shank, perfect for drilling through all hard metals.

Sizes available from: 1.00mm - 12mm

from £4.20

each

Carbide Micro Drill Bits

CMD1

Excellent for drilling through all hard metals. Ideally used at high speed in a pillar drill.

Shank: 3.175mm

Sizes available: 0.1mm – 3.175mm (1/8").

from £4.70
each

Assorted Micro Twist HSS Drill Bit Set of 10

HSS235S

Set of High Speed Steel twist drill bits for drilling holes in metal, wood and plastics.

There are 10 sizes in the set, 0.5mm - 2.2mm, suitable for use in your pendant motor, rotary tool, hand held pin vice or an Archimedes drill.

£14.00

Diamond Diapol Polishers

D7

EVE ERNST VETTER

These unmounted, long lasting diamond polishers are for smoothing, polishing and high lustre polishing on ceramic, platinum, titanium and non-precious metals. For best results use all 3 grades of polisher to achieve a superior finish in seconds!

Choose either: Wheel, Knife Edge, Pointed Pin and from these grades/colours:

-  Green: Reducing, removing and shaping (Medium) approx. 35 microns
-  Grey: Smoothing and pre-polish (Fine) approx. 4-8 microns
-  Pink: High Lustre polishing(Extra Fine) approx. 1-2 microns

from £8.40
each

Green Silicon Carbide Stone Burrs

SCB

For creating texture to wood carvings, ceramic and porcelain, gold, silver and non ferrous metals and to give a finer, more detailed finish to your decorative engraving work on glass, stone and gemstones. Shank: 2.35mm (3.32")

Available shapes and sizes:

- Ball: 3mm & 5mm
- Flame: 5mm x 10mm

EVEFLEX Brown Rubber Bullet Polishing Burr

EVE705

EVE ERNST VETTER

These rubber polishers are for smoothing, pre-polishing and for creating a matt finish on all precious and non-precious metals. Also ideal as a subtle shading tool in glass engraving.

£3.30

Diamantine Polishing Powder 60g

MSA26.573

When mixed with a drop of oil, this super fine aluminium oxide powder produces a fast cutting abrasive for polishing pivots, steel, steel alloys and jewels when watchmaking and clock making, leaving you with a mirror finish.

£14.95

Polywatch Scratch Remover for Plastic Watch Glasses

MSA26.552-2

If you own a watch with a plastic glass then you will know that they can scratch very easily. Polywatch contains a very light abrasive material that will gently grind down your glass resulting in a beautiful scratch-free finish.

£4.50

EVEFLEX TECHNIK Mounted Rubber Polishing Burrs

EFT

EVE ERNST VETTER

These rubber polishers are for material removal, shaping, smoothing, creating a matt finish and polishing to a high lustre finish on precious and non-precious metals and glass.

Available in a range of shapes: Flame, Knife Edge, Large Cylinder and Twist, in the following grits:

- Blue - 500# Very Coarse.
- Dark Grey - 600# Coarse.
- Brown - 700# Medium.
- Green - 800# Fine.
- Light Green - 900# Extra Fine.

from £2.94
each

EVEFLEX Twist Radial Polishing Discs

ET4

EVE ERNST VETTER

These unique flexible, bristle polishing discs by EVE allow you to polish and clean difficult to reach, intricate and detailed areas on all metals such as small jewellery parts, engineering threads and bores.

-  Blue, Extra Coarse
-  Dark Grey, Coarse
-  Brown, Medium
-  Green, Fine
-  Beige, Ultra Fine

Choose from:

- Pack of 2 **£2.99**
- Pack of 10 (2 of each grade) **£12.30**

EVEFLEX Technik Unmounted Rubber Polishers

EFTUM

EVE ERNST VETTER

For material removal, shaping, smoothing, creating a matt finish and polishing to a high lustre finish on precious and non-precious metals.

-  Blue - 500# Very Coarse.
-  Dark Grey - 600# Coarse.
-  Brown - 700# Medium.

Diameter head: 3mm tapers Shank: 2.35mm or 3/32 to a point of 1.7mm

Pin Mandrel

PM1/PM100 EVE ERNST VETTER

These special mandrels by EVE are designed to hold the 3mm or 1mm EVE Mini Silicone Pin Polishers. They will also tighten to hold mounts of 2.35mm and are suitable for any rotary drill.

£5.97

Small Diamond Grinding Wheels

DGW1

ETERNAL TOOLS

Use our diamond wheels on your lathe or mounted separately for: sharpening our tungsten carbide gravers, making your own spade drills or for resharpener tools. The resin bonded diamond surface ensures that they are very hard wearing and leave a beautiful and accurate finish. A high concentration of diamond provides a quick cutting surface so you can spend more time working and less time sharpening.

We offer 3 grades of diamond wheels:

- D9: Fine
- D46: Medium
- D91: Coarse

8mm Arbor is not included.

Phenolic resin bonded diamond grinding wheel

Diameter: 50.8mm, Depth: 10mm, Bore hole: 6.35mm

£59.95

8mm Arbor for Boley and Boley-Leinen Watchmakers Lathe

DGWA1

ETERNAL TOOLS

8mm Arbor for use with the 8mm Boley, Boley-Leinen, BTM watchmakers lathe.

Provides a perfect means to hold our Small Diamond Grinding Wheels

£29.50

Water Swivel Adaptor

WSADAP

ETERNAL TOOLS

For supplying water through the centre of a 10mm shank core drill bit such as our range of sintered diamond core drills on page 4.

Available with a 10mm or 12mm arbor.

£38.56

Carbide Gravers

CG1

ETERNAL TOOLS

These precision made Tungsten Carbide Gravers are the superior way to turn metals on your lathe. Solid Carbide tips mean that they will: last longer, cut harder metals, and require less resharpener. Use for turning pivots, balance staffs and lots more.

Sizes available:

- 1.5mm (Red handle)
- 2.0mm (Green handle)
- 2.5mm (Blue handle)

Mounted into a hexagonal aluminium handle to prevent rolling on the bench and supplied with a protective tip cap.

	Set of 3
£28.30	£72.15
each	1 of each

Tungsten Carbide Graver in a hexagonal aluminium handle
Overall Length: 135mm x 6mm diameter of handle
Working Length: 15mm (a further 50% glued into the handle)

Vallorbe Clock Pivot File With Burnisher

ULP3211

VALLORBE

Swiss made by Vallorbe with precision edges to ensure the perfect finish on your pivot.

£65.60

Sapphire Burnisher

SB1

Our most superior pivot polisher for achieving a glass finish to your pivots. Each burnisher has a very slight burnishing grain that can be exaggerated with the use of a fine diamond file.

£54.95

Carbide Micro Centre Tool

CMCT

ETERNAL TOOLS

Micro centres can be produced using this tool from the tailstock in watch making and general engineering lathes.

Diameter of working length:
1.5mm

Overall length: 60mm

Shank: 4mm

£27.40

Abrasive Buff Stick

MSA26.012

HOROTEC

This flexible buff stick has 3 different grinding and polishing surfaces for removing marks as well as polishing metal surfaces.

£3.50

Micro Mesh Soft Touch Sanding Pads (Set of 9)

MMPADS1

These double-sided, 2" x 2" flexible sanding squares will produce a high gloss finish to many applications and are used on woods, acrylics, resin, paint, polymer clay, plastics and most metals.

£13.95

Dremel 3000 Rotary Drill Tool Kit

D3000

DREMEL

A sturdy, versatile and reliable tool, with a quality to match. The Dremel 3000 Rotary Drill comes with 15 accessories each intended for a variety of uses from polishing, cutting, grinding, engraving and sanding. The EZ Twist Nose Cap allows you to change accessories with ease.

£49.95

Dremel Flexible Shaft 225

DFS

DREMEL

Allows you to use the hand piece like a pen for precise, detailed work and to obtain the difficult to reach areas. Attach to your Dremel rotary tool. Can be used with your Dremel Multi Chuck or Collet Nut Kit.

£32.40

Dremel Workstation

D220-01

DREMEL

The Dremel 220-01 Workstation is a drill press, a tool holder and a flex shaft holder. An ideal support of good quality ready to hold your Dremel Rotary tool or Dremel flexible shaft in place when you drill, engrave, carve, cut, sand, polish and buff. Allows you to rotate your drill to any angle and ideal for hands free work.

£48.99

Dremel Multi Chuck

DMC4486

DREMEL

Allows you to quickly and easily change accessory bits on Dremel rotary tools without changing collets. It will accept all accessory bits with 0.4mm to 3.4mm shanks.

£11.99

Medicool Pro Power 35K Micro Motor

MEDIPRO35K

MEDICOOL

Widely used by jewellers, glass engravers, model engineers, carvers, dentists and general crafts people.

- Lightweight Rotary Handpiece with a 2.35mm collet (3/32")
- Speed Control Unit with reversible rotation switch from 0 to 35,000RPM
- Variable Speed Foot Control Pedal
- High Torque
- Low Noise - Silent and smooth operation
- No Vibration

Jewellers Butane Gas Micro Hand Torch

MICTOR1

Can be used on the bench or hand held. Ideal for the beginner and perfect for small repair jobs, annealing, metal clay work, and small-medium soldering jobs such as silver earrings, chains and jump rings.

- Electronic push button, instant ignition
- Easy, to adjust flame from yellow (gentle heat) to blue (stronger heat)
- Anti-flaring
- Maximum Temperature: 1300°C (2370F)
- Working time approx. 60 - 90 minutes
- Hand held or 'hands free' for bench use
- Refillable with butane gas (lighter fuel) making it economical to run
- Good consistent flame

Diamond Polishing Paste

DGP1

Achieve a mirror finish on stone, glass or hard metals with our diamond paste. The paste comes in a 5g syringe ready mixed in a water soluble oil.

- 0.25 (finest) - 3 micron for final polishing
- 6 - 14 micron for lapping and pre-polishing
- 25 - 90 micron (coarsest) for rapid stock removal

from £14.95

each

Felt Polishing Bobs

FP

Wool polishers for buffing and polishing all your metals, jewellery, glass, stone and wood. Use on their own or with our Diamond Polishing paste or Dialux compound. Mounted on 3mm or 2.35mm shanks.

Choose from a variety of shapes and sizes.

from £4.85

Dialux Premium Polishing Compounds

DLUX

These premium polishing compounds are a firm favourite for all those looking for a superior finish to their metal work or plastics.

Uniformly blended with abrasive grit so only a small amount needs to be applied to a felt bob or wheel. Minimum clean up required and high quality polishing.

from £3.25

each

Glass Engraving Kit (Bare Minimum)

BMGEK

This kit contains all the essential items you will need to begin glass engraving. Diamond burrs to engrave, green and Arkansas stones to achieve depth and shade and a small variety of polishers. All the items have a 2.35mm shank. Ideal for your Rotary Tool, hobby engraver or Micro Motor.

Kit contains the following:

- 1 x 0.8mm Diamond Ball Burr
- 1 x 3mm Diamond Ball Burr
- 1 x Flame, Green Silicon Carbide Stone Burr
- 1 x Pack of 4, Bullet shaped Mini Rubber Silicone Polishers. 1 of each grade
- 1 x 3mm Ball, White Arkansas Stone Burr
- 1 x Taper Mandrel
- 1 x Bullet, Grey Rubber Silicone Polisher

£33.95

Glass Engraving Kit (Experimental)

EXGEK

This kit includes all the essentials you will need for glass engraving plus extras to allow you to experiment further with your 3D effects, depth and shading techniques.

Kit contains the following items:

- 1 x 0.8mm Diamond Ball Burr
- 1 x 2mm Diamond Ball Burr
- 1 x 3mm Diamond Ball Burr
- 1 x 0.8mm Diamond point Burr
- 1 x 4mm Diamond Cylinder Burr
- 3 x mixed shapes of Diamond FG 1.6mm burrs
- 1 x FG to HP Adaptor (Converts burrs with a 1.6mm shank to 2.35mm)
- 1 x Flame, Green Silicon Carbide Stone Burr
- 1 x 3mm Ball, Green Silicon Carbide Stone Burr
- 1 x 3mm Ball, White Arkansas Stone Burr
- 1 x Pack of 16, Mini Rubber Silicone Polishers. 1 of each grade and shape
- 1 x Taper Mandrel
- 1 x Screw Mandrel
- 1 x Bullet, Grey Rubber Silicone Polisher

£82.35

White Aluminium Oxide Dressing Stick

WAOS220

Perfect for truing, cleaning and conditioning of Diamond Wheels, CBN wheels and other diamond sintered or resin bonded diamond products.

- 150mm x 20mm x 20mm
- 220 grit

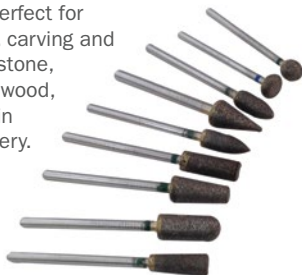

£11.95

Diamond Sintered Burrs

DSB

Long lasting, and perfect for grinding, engraving, carving and sculpting in glass, stone, ceramics and hard wood, plus grinding work in Lapidary and jewellery.

£26.40

each

Diamond Disc Burrs

DDISCB, LDDISCB

2.35mm shank.

Sold in sizes: 0.5mm - 20.0mm.

from £3.45

each

Diamond Countersink Burrs

Ideal for beveling, countersinking, carving, shaping, counterboring, chamfering and for getting into acute angled areas of glass, stone, ceramic, composites and hard woods.

from £6.95

each

Nail Head Diamond Burrs

for Top Faceting

DNHB

Sold in sizes: 4.0mm - 20.0mm.

from £5.70

each

Small Diamond Ball Burrs

DBB

Diamond coated Ball Burrs for carving and engraving all hard materials such as glass, stone, ceramic, porcelain, shell and very hard woods.

2.35mm shank.

Sold in sizes: 0.8, 1.0, 1.5, 1.8, 2.0, 2.5, 3mm or as a Set of 7.

£3.75 – £4.95

each

Large Diamond Ball Burrs

LDBB

Ideal for pre-forming, engraving, carving, grinding and sculpting in stone, glass, ceramic, porcelain and hard woods.

Sold in sizes: 4.0, 6.0, 8.0, 10.0, 12.0, 15.0, 20.0, 30.0, 40.0, 50.0mm.

from £6.95

each

Small Carbide Ball Burrs

TCBALL

Ideal for creating micro settings, engraving metal, carving wood, bone and shell, carving plastics, Carrara marble and for texturing and shaping metals. 2.35mm shank.

Sold in sizes: 0.5, 0.8, 1.0, 1.2, 1.4, 1.6, 1.8, 2.10, 2.30mm or as a Set of 9.

from £4.70

each

Tungsten Carbide Cutting Burrs

16TCB, 6TCB, CB

Solid Tungsten Carbide cutting burrs for the removal of material, cutting in and defining many hard materials such as metals, stone, ceramic, porcelain, reinforced plastics and wood. Various shapes and sizes available with varying shank sizes.

£4.60 – £22.54

Diamond coated burrs for carving, grinding, engraving and sculpting in many hard materials such as glass, stone, ceramic, bone, shell and hard woods.

Diamond Cylinder Burrs

LDCB, CY400

Sizes available from 1mm - 25mm. Grits available from: 60# - 400#.

from £4.60

each

Diamond Flame Burrs

DFB1, FL400

Use the tip for fine detailing or concave cuts. Use the sides to shape and remove material. 2.35mm shank.

Sizes available from 1mm - 10mm. Grits available from: 120# - 400#.

from £4.60

each

Diamond Bullet Burrs

DBUB, BU400

Sizes available from 1mm - 8mm. Grits available from: 120# - 400#.

from £4.60

each

Diamond Cone Burrs

DCONEB

Sold in various grits from fine to coarse with varying shank sizes.

Sizes available from: 3mm - 10mm.

Various grits available.

from £4.70

Diamond Point Burrs

DPB

Point Burrs for very fine line engraving. Use as a bead reamer for enlarging holes.

Sold in sizes: 0.6mm, 0.8mm, 1.5mm, 2.0mm, 2.5mm, 3.0mm

£3.75 - £4.50

each

Horotec Watchmakers Mini Portable Bench
