

WALKWAY & DECK SAFETY

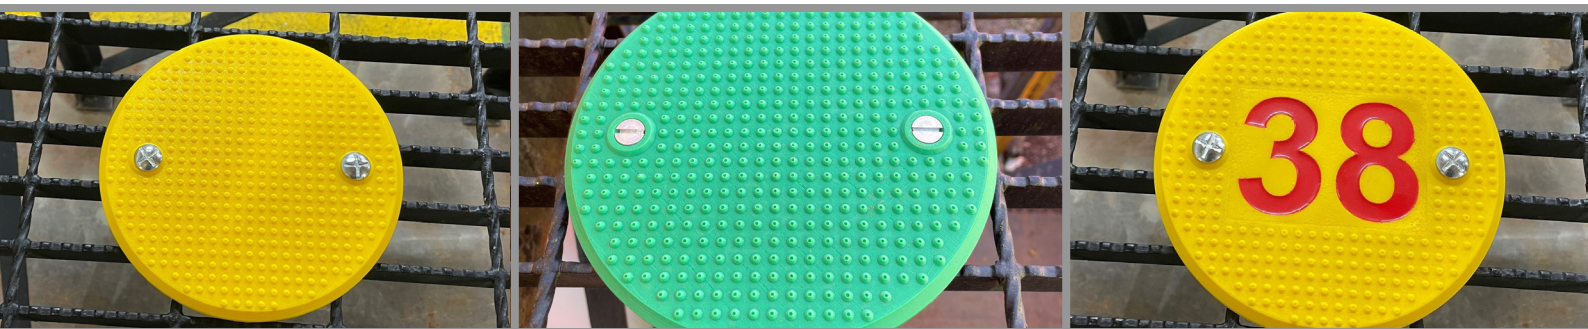

DECKMATE® MUSTER POINT MARKERS

Every vessel or offshore installation has designated muster stations which are meeting points for employees or passengers during an emergency, typically on open decks by the lifeboats.

SCOTGRIP® Deckmate® Muster Point Markers have been designed as a safety product which visually indicates where employees or passengers should stand in an emergency situation.

Our standard markers have a textured surface, are 200mm diameter (8") and approximately 10mm thick (3/8"). There is an all round chamfered edge and 2 moulded fixing holes. We also have a lightweight version which is approximately 5mm thick (3/16"). These are secured to open grating/grille with Scotgrip® type 'S' fixings (saddle clip assemblies) and can also be secured to flat decks with marine adhesive.

Deckmate® Muster Point Markers are manufactured in solid colours, numbers in a contrasting colour can also be added if required.

- > COST EFFECTIVE
- > TOUGH AND DURABLE
- > EASY INSTALLATION
- > FULLY GUARANTEED
- > NON CORROSIVE
- > STANDARD SIZES AND CUSTOM MADE
- > CARBON NEUTRAL ACCREDITED
- > FIRE RESISTANT

PRODUCT DESCRIPTION

Scotgrip® HD Muster Point Marker
Standard Size: 200mm dia. x 10mm thk (8" dia. x 3/8" thk)

Scotgrip® HD Lightweight Muster Point Marker
Standard Size: 200mm dia. x 5mm thk (8" dia. x 3/16" thk)

➤ STANDARD SIZES OR TO CUSTOMER SPECIFICATION

Standard sizes are 200mm (8") and are supplied in 2 thicknesses - 10mm (7/8") or 5mm (3/16"). Custom sizes are also available if required.

➤ QUALITY – IT'S WHAT DRIVES US

All Scotgrip® HD/UHD safety products are manufactured under BS EN ISO 9001:2015 quality-controlled conditions using highly compatible raw materials at our manufacturing facility in Aberdeenshire, UK.

➤ HEAVY DUTY

Muster point markers are extremely durable and will remain highly effective for many years

➤ MARKER NUMBERING

Muster Point Markers are manufactured in solid colours. Numbers in a contrasting colour can also be added if required.

➤ EASE OF INSTALLATION

Muster Point Markers, are designed for quick and secure fitting by mechanical fixings or adhesives. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to.

➤ OUR SUSTAINABILITY COMMITMENT

At Scotgrip® International, we're really proud to have achieved carbon neutral status and we're proactively moving towards our target of zero waste. Our environmental ethos extends to everything we do, including our product innovation. Our Deckmate® Muster Point features raw materials that are 16% fully circular which allows us to reduce our environmental impact further.
