## Tips and Products from Sherborne Turf

### Introduction

As winter loosens its grip and the promise of spring draws closer, it's time to turn your attention to your garden and lawn. The transition from Winter to Spring is the perfect opportunity to prepare your outdoor space for the vibrant growth and activity of the warmer months. With the right approach and products, you can ensure your lawn is healthy, lush, and ready for the glorious Summer ahead.

Sherborne Turf is here to help with everything you need to make your garden thrive.

### Assess Your Lawn's Condition

Before diving into preparation, take a moment to assess your lawn. Winter can leave behind damage from frost, excess moisture, or a lack of sunlight.

#### Look Out For:

##### ✓ Bare Patches:

Areas where grass has thinned or disappeared.

##### ✓ Compacted Soil:

A common issue caused by foot traffic or heavy snowfall.

##### ✓ Moss and Weeds:

These invaders often take advantage of weakened lawns. Understanding the state of your lawn will help you create a tailored plan to address its needs.

### Essential Lawn Care Checklist...

#### ✓ Clear Debris:

Start by removing leaves, twigs, and any debris left behind by winter storms. This will allow sunlight and air to reach the grass.

#### ✓ Aerate the Soil:

If your lawn feels compacted, aerating will help improve drainage and allow nutrients to penetrate the soil. Use a garden fork or an aerator for this task.

#### ✓ Apply Lawn Feed:

After the stresses of winter, your grass will benefit from a nutrient boost. Choose a spring lawn feed rich in nitrogen to encourage healthy growth.

#### ✓ Overseed Bare Patches:

Reseed areas that have thinned out to ensure an even, lush lawn. Sherborne Turf offers high-quality grass seed mixes to suit any lawn type.

#### ✓ Control Moss and Weeds:

Use targeted treatments to eliminate moss and weeds without harming your grass. This will give your lawn the best chance to flourish.

#### ✓ Mow with Care:

As the weather warms, begin mowing your lawn. Set your mower blades high for the first few cuts to avoid stressing the grass.

### Plan ahead for Summer Glory

✓ By taking the time to prepare your lawn now, you're setting the stage for a summer of outdoor enjoyment. Whether it's family barbecues, garden parties, or simply relaxing on the grass, a well-cared-for lawn will enhance every moment. Spring is a season of renewal, and your lawn deserves the same fresh start. With Sherborne Turf's expert advice and range of high-quality products, you'll have everything you need to create a beautiful, healthy garden. Visit Sherborne Turf today to stock up on lawn care essentials and make this summer your garden's best yet.
