Catalogue **Autumn 2023**

Welcome to our autumn 2023 catalogue.

Presented over the next 40-pages we've got a great selection of railway and transport DVDs, Blu-rays and books - new publishers, new titles and a huge selection spanning Indian railways, Lisbon trams and Scottish Paddle Steamers!

One of the highlights of the spring was an epic journey worked by 37418, from Derby to Great Yarmouth, to Hither Green and back to Derby! Our cameras were in the cab all the way - and the whole lot was recorded - now released as four superb cab rides.

No.13 in our popular **Sunrise Sunset series** spends a day at Stafford; **Manchester Oxford Road to York** is a new cab ride and on the other side of the world, a Driver's Eye View on the **Darjeeling Himalayan Railway**. To Europe, and a new release on the famous trams of **Lisbon**.

New steam titles include **Centenary of the Welsh Highland Railway** and **From the Footplate: Severn Valley Railway**. Add **shipping, buses**, **trams**, **military** and **wartime DVDs** and some great new books, and it's another action packed catalogue.

We're pleased to announce that the Videoscene stall will be attending the **Stafford Model Railway Exhibition** on 23rd/24th September. Held at Stafford County Showground in Bingley Hall, this is one of the premium shows every year and we'll be there! See you there!

Please remember, we charge £ZERO postage on all DVD, Blu-ray and book orders to any UK address. If the item you want is £14.95, that's exactly what it will cost you - £zero postage - £zero card fees - £zero added - GUARANTEED!

You may notice the word '**HOT**' next to a few titles in this catalogue. This basically means these are very popular and best selling titles and we have plenty of them in stock. If you order before 10am on a weekday, we can normally ship your order by first class post the same day.

Thank you for your continued support.

The Videoscene stall will be attending:

Stafford Model Railway Exhibition,
Stafford County Showground
Saturday 23rd and Sunday 24th September

Marsden Rail Archive DVD Series

CINE RAIL

Lancashire and Yorkshire

The railways of Lancashire and Yorkshire have a phenomenal history. From the coal and steel industries and major cities, to the seaside towns and holidaymakers. These were two major counties on the rail network, served by a criss-cross of main lines and branch lines and these DVDs look at the trains which ran and the towns which they served. From 100-mph expresses to the humble DMU, Lancashire and Yorkshire had the lot.

Marsden Rail 40: Yorkshire and Lancashire

Compiled from film taken in the 1950s and 1960s, this fascinating journey from Yorkshire's West Riding to the industrial heart of Lancashire features a variety of secondary and main lines, at a time when the steam locomotive was an everyday sight. The journey starts at Leeds in the mid-1960s, with Jubilees handling many of the services from City Station and film taken at the disused Holbeck Low and High-Level Stations.

Duration: 75 minutes **Price:** DVD £19.95 **Code:** MR040

Marsden Rail 39: York and the North East

The programme starts at York, once the Headquarters of the North Eastern Railway, at a time when steam locomotives were still the backbone of passenger and freight operations. This is reflected in scenes at the busy station, the nearby motive power depot and several of the city's yards which show a wide variety of engines at work, several of which dated from the time of the North Eastern Railway.

Duration: 76 minutes **Price:** DVD £19.95 **Code:** MR039

Marsden Rail 35: On Yorkshire Lines

The programme features Yorkshire in the 1960s, beginning with views of the East Coast Main Line in and around York, with scenes at the city's busy motive power depot and station. From York, we move to Church Fenton, the junction for routes to Leeds and Sheffield, with a focus on the now vanished Church Fenton North signal box and the traffic under its control.

Duration: 70 minutes **Price:** DVD ~~£19.95~~ £16.95 **Code:** MR035

Traction Archive No.4: Heritage DMUs in Yorkshire

Filmed from service trains and the lineside, the first film features the 20-mile long route from York to Harrogate via Knaresborough and Starbeck, with many of the stations still possessing their original architectural features. A return journey from Malton to Pickering and Whitby is next, a route that was severed between Rillington Junction, near Malton, and Pickering in 1965.

1960s Southern Region

The last years of steam on British Railways have been well documented. Geoff Holyoake was one of the small elite who used 16mm film rather than 8mm, producing films for commercial sale. He recorded the last days of steam, filming the King Arthurs, Charlies and Bulleid Pacifics as well as some of the final examples of the pre-grouping engines that worked here. Filming locations include: Waterloo, Clapham Jct, Kensington Olympia, the South Western Main Line and the Isle of Wight.

GREAT DVD Blu-ray Disc

Alpine Transversal Zurich - Chiasso

The Gotthard Base Tunnel (57 km long, opened in 2016) and the Ceneri Base Tunnel (15 km long, opened in 2020) are the two largest structures on the new Alpine Transverse. Both railway tunnels were built with a single tube each, relieve the old mountain routes and bring advantages especially for transit freight traffic. The cab ride starts in Zurich and ends at the Chiasso border station.

As an exception, the tunnel lighting was switched on in both tunnels for the film ride! So a heartfelt thank you to the SBB.

Route sections: Zurich HB – Chiasso (via Gotthard and Ceneri base tunnel) **Railway company:** SBB
Duration: 133 minutes **Price:** DVD £23.95 Blu-ray £30.95 **Code:** PR046

Furka Mountain Route

The 17.58 km long route has a total rack length of 13.36 km, the apex tunnel is 1,874 m long. The HGm 4/4 locomotive, which belongs to the Matterhorn-Gotthard-Bahn, was rented for two days for the driver's cab rides and will be sublet to the DFB in the summer months. The DVD includes a return trip (Realp - Oberwald and Oberwald - Realp).

Route sections: Realp - Oberwald • Oberwald - Realp **Railway company:** DFB (Steam train Furka mountain route)
Duration: 162 minutes **Price:** DVD £23.95 **Code:** PR016

SBB lines in Eastern Switzerland *(2 Disc Set)*

We use the two main lines to Chur, the transfer station to the Rhaetian Railway: Zurich - Chur and Chur - St. Gallen. While the Zurich - Chur route leads along the scenic lakes of Zurich and Walensee, the route to St. Gallen through the Rhine Valley is mostly straight, but with beautiful views of the mountains on both sides of the Rhine. In St. Gallen we change trains and continue to the railway junction in Winterthur. The first film on this DVD starts at the back in the Glarnerland, in Linthal, and on a bright, cloudless day the journey leads to Rapperswil on Lake Zurich.

Route sections: Disc 1: Linthal - Rapperswil • Zurich - Chu / Disc 2: Chur - St. Gallen • St. Gallen - Winterthur • Buchs SG - Sargans **Railway company:** SBB

Private Railways in the Canton of Tessin *(2 Disc Set)*

The Canton of Ticino has a special variety of private railways. The Centovalli Railway from Domodossola to Locarno is one of the largest panoramic routes in the Alps and is often mentioned in the same breath as the Bernina Railway or the Goldenpass route from Montreux to Lucerne.

Route sections: Disc 1: Domodossola - Locarno / Disc 2: Ponte Tresa - Lugano • Lugano - Ponte Tresa • Generoso Vetta - Capolago Lago • Castione-Arbedo - Cama
Duration: 238 minutes **Price:** DVD £39.95 **Code:** PR017

S-Bahn Zürich I *(2 Disc Set)*

The Zurich S-Bahn lines are convincing in two respects. On the one hand, the railway lines lead through beautiful, rural areas and, on the other hand, the operation in the core area of the S-Bahn is extremely exciting. In order to keep the headway times as short as possible, the signals are set up at short intervals. This results in interesting signaling around the Zurich HB junction. While four driver's cab films drive to Zurich main station, one of the films leads to a remote region of the canton of Zurich, to the Tösstal. The route from Rüti ZH to Winterthur is operated by the railway company Thurbo and shows the hilly landscape in the Hörnli area and in the Tösstal away from the big city.

Route sections: Disc 1: S7 Rapperswil – Zurich HB – Winterthur • S5 Niederweningen – Zurich HB – Pfäffikon SZ
Disc 2: S26 Rüti ZH – Winterthur • S2 Effretikon - Zurich HB - Thalwil • S9 Train – Zurich HB

37418 CAB RIDES

One of the traction highlights of recent months has been 37418 on hire to Loram, in the LRLO pool and working off Derby RTC. Painted in the large logo livery and named "An Comunn Gaidhealach" the loco looks as it was in 1986, newly converted as a 37/4 and based at Inverness.

In addition to railtours, regular trips to Toton and Doncaster and working with 'Caroline', on 12th/13th May 2023, the 37 worked a massive out and back journey from Derby, running a whopping 600+ miles and reaching the Eastern and Southern regions! It may well be the Class 37 working of the year and the whole journey - every single mile and chain - was filmed from the cab and with the full of assistance from Loram, it is available from Videoscene on DVD, Blu-ray and download - split into four full length cab rides.

37418 Cab Ride No.1: **Derby to Ely**

From Derby, we head north through Chesterfield, Masborough and Milford Junction then on to the sidings at Gascoigne Wood. For this first section, the load was two coaches, a DBSO and a Mk2 TSO. After a few shunt moves, a whopping EIGHT Mk3 coaches were added and as LOAD 10 - we head for Knottingley, Doncaster and the ECML to Peterborough and Ely. One Class 37 and TEN coaches is a decent load any day, and 37418 had to work hard!

37418 Cab Ride No.2: **Ely to Yarmouth / Yarmouth to Stowmarket**

At Ely, the plan was to use the station avoider but due to a track defect, we had to run round 1st line instead. We then head east across the fens towards Norwich. It's quite a slow run, for a loco hauled train and at Norwich we avoid the station, taking the Wensun curve and on to Great Yarmouth, via Reedham and the lesser-used and remote Berney Arms. 37s hauling lots of coaches were once common at Yarmouth, as the train is propelled into the former carriage sidings, now of course the home of Eastern Rail Services - the new owner of these coaches. From Yarmouth, it's light engine back, but over the other route via Acle, to Wensun and the GEML to Stowmarket.

37418 Cab Ride No.3: **Stowmarket - Welwyn GC - Hither Green**

After changing ends at Stowmarket we head off via Bury St. Edmunds, Chippenham Junction and the lesser-seen mostly single line to Cambridge, then to the Hitchin and the ECML again, finally to Welwyn Garden City CE sidings for overnight stabling. Resuming the following morning, the journey continues south along the ECML, Finsbury Park and on to the North London Line, Gospel Oak, Camden Road and Willesden. It's a slow crawl - as always - following EMUs, then via Mitre Bridge Junction, Kensington Olympia, Factory Junction, Denmark Hill, Nunhead and Lewisham we reach Hither Green and run into the yard.

Duration: Approx 195 mins (1 disc) **Price:** DVD £16.95 - Blu-ray £19.95 **Code:** TC153
Download: SD £11.95 - HD £12.95 Released September 2023

37418 Cab Ride No.4: **Hither Green to Derby**

Now hauling a track machine as a class 6 train (60 mph), the final journey is back via Nunhead and Kensington Olympia to Gospel Oak, on the GOBLIN line to Upper Holloway and the curve to the ECML. It's ECML all the way north, Stevenage, Hitchin, Sandy and Peterborough then Helpston Junction and the signal boxes and traditional signals on the line to Melton Mowbray, the lesser-used Syston East to North Junctions and then the MML north to Loughborough, Trent South Junction and Derby, finally propelling into the RTC.

Duration: Approx 255 mins (2 discs) **Price:** DVD £16.95 - Blu-ray £19.95 **Code:** TC154
Download: SD £11.95 - HD £12.95 Released October 2023

The full route is shown on all cab rides and a thrash cam in the back cab records the 37 and ambient sounds. WARNING - it gets noisy! On 12th May, very few passenger trains were running due to industrial action so we don't pass much - except freight. This was a bonus as we were often routed on fast lines, with constant green signals, running at maximum line speed.

Please note: A lot of our cab rides originate from Derby so the three principle routes from this location have featured heavily over the years and they are repeated here again. Also, much of the routes in Anglia have been filmed more recently and are here again. You may already own these cab rides. As this was such a high profile working, rather than edit-out the routes already available, the option was taken to leave everything in, the whole lot, and split it accordingly. A 37 on load 10 anytime, and on the Southern, is not an everyday occurrence - and it really needs to be recorded!

Greater Anglia CAB RIDES filmed in conjunction with Greater Anglia

Norwich to Great Yarmouth and Lowestoft

via Acle and Reedham

This is a cab ride, filmed on board Class 755 bi-mode units, featuring the line from Norwich to Lowestoft and via both routes to Great Yarmouth. Filmed in summer 2022 this was one of a number of routes filmed for Greater Anglia. Split into six sections, we start with the full 23.5 mile journey from Norwich to Lowestoft, then Brundell to Great Yarmouth via Acle and Reedham to Great Yarmouth via Berney Arms. All routes are shown in both directions.

Ipswich to Lowestoft - *The East Suffolk Line*

The East Suffolk line is a 49-mile railway which runs from Ipswich to the seaside town of Lowestoft. Passing through many traditional market towns and small villages, across open fields and farmland, there is a mixture of single and double track running. This journey was filmed in 2022 on board a three-car Class 755 bi-mode multiple unit. The entire journey is shown from Ipswich to Lowestoft with bonus footage featuring highlights of the opposite direction.

Ipswich to Felixstowe

Norwich to Sheringham

The third Cab Ride in the Greater Anglia series is a contrast of lines: In Suffolk, the short but very busy 15.5 mile railway from Ipswich to Felixstowe; and in Norfolk, the longer and more scenic 30.5 mile journey from Norwich to Cromer, reverse, then onto Sheringham. Ipswich to Felixstowe: A single line railway with passing loops, a typical journey is shown in both directions. Norwich - Cromer - Sheringham: The outward journey is shown in full, with highlights of the return.

London Liverpool Street to Norwich

Electrification of the 115-mile GEML was completed in 1987. In 2020 brand new purpose built 12-coach EMUs to operate the 30-minute all day service. We board 745003 working the 14.00 from Liverpool Street on a fine summer's day, calling at Colchester, Manningtree, Ipswich and Diss. It's a journey of contrasts. From the multi-track layout around Stratford to the open fields of Stowmarket and Diss, we pass dozens of other trains and many stations, speeding our way to Norfolk.

BEST SELLING CAB RIDES HOT

Riding the Colas Yorkshire Route Learner

Cab Ride: Doncaster - Sheffield - Worksop - Halifax HOT

Starting and finishing at Doncaster, the train was routed very much the long-way and the wrong-way around, taking in freight-only lines, a few obscure curves and some lesser known and rarely used passenger lines. This is the three-hour edited version of the day and it includes the freight-only Mexborough Jn to Aldwarke Jn (Kilnhurst) line.

Duration: 180 minutes **Price:** DVD £19.95 - Blu-ray £22.95

Riding the Colas Inspection Loco #3

Cab Ride: Shrewsbury to Bidston HOT

Running as an inspection loco/route refresher, this is a rare opportunity for a Class 37 cab ride from Shrewsbury to Bidston. 37421 was in charge and we pass through Shrewsbury with its fine semaphore signals. At Gobowen there's the unusual sight of Class 144 DMUs in the station sidings, at Chirk we pass the famous Kronopsan timber facility and run over the impressive Cefn Viaduct.

Duration: 122 minutes **Price:** DVD £19.95 - Blu-ray £22.95

Riding the Colas Inspection Loco #1

Cab Ride: Central Wales Line HOT

Colas Rail Freight, in conjunction with Network Rail, operated an inspection loco over the full route to take an overview of the line, 37421 was chosen and the entire journey was filmed from the cab. Starting out at Coleham depot in Shrewsbury, we run on the Marches line as far as Craven Arms, followed by the 90-miles of railway to Llandeilo Junction.

Duration: 238 minutes **Price:** DVD £19.95 (2 discs) - Blu-ray £22.95
Code: TC277 **Download:** SD £14.95 - HD £17.95

Riding the ROG Stock Move #6

Cab Ride: Leicester to Eastleigh HOT

This is a cab ride on a Class 47, heading light engine from Leicester to Eastleigh to collect two barrier coaches following overhaul. Similar to our ROG#4 cab ride, on these inter-regional journeys, we pass a staggering amount of different trains, from brand new Class 802s to HSTs, Class 68 hauled Chiltern sets, various freight, DMUs and EMUs.

Duration: 195 minutes **Price:** DVD £19.95 - Blu-ray £22.95

SUNRISE SUNSET UK Volume 13

A Day at Stafford

Sunrise Sunset UK spends a full day at a busy and popular location, recording a typical day of passenger and freight trains.

On the West Coast Mainline, 133 miles north of London Euston and 267 miles south of Glasgow Central is Stafford. On a section of four-track running from Crewe, the line splits at Stafford South Junction, with the mainline continuing south to Tamworth, with a branch to Penkridge, Wolverhampton and Birmingham. All lines are electrified.

Stafford is a key artery for WCML freight, with trains from Scotland, Liverpool and Manchester merging south of Crewe, all passing Stafford station, then continuing south or heading for the numerous terminals in the Midlands.

With an eight-track layout through the station, during a typical hour, 20-passenger trains call or pass though, with up to four freight trains. Our cameras filmed a typical day from 6th June 2023.

Passenger services are operated by Avanti, Cross Country and London and North Western Railway using Class 390 Pendolinos, Class 220 and 221 Voyagers and Class 350 EMUs. For freight, all five major companies have flows through here. It's mostly containers using 66s, 70s, 88s and 90s, with stone trains, car trains and engineers trains.

The first part of the day is filmed from the huge footbridge south of the station, with the second part on the station itself. This turned out to be fantastic day and as well as what was expected, some rare moves were also recorded: A brand new Class 69, 47712, Class 70 run-round, Class 92s on sleepers, quadruple-header Class 90s, a new Class 197 DMU on delivery and Class 730s on test.

BIG FREIGHT 28 HOT

In another action-packed three-hour programme, once again we go countrywide with the best freight action. From the lineside and the sky, along obscure freight-only lines and main lines, there's a rich variety of traction. From 66s and semaphores across The Fens, 43s back-to-back hauling 777 EMUs and orange 37s and 90s; to Class 56 and 70-hauled stone trains and West Midlands snow freight - this is Big Freight 28.

Peterborough and March to Ely: The second part of our look at freight trains across The Fens starts at Werrington Junction and Peterborough with numerous flows and moves. Next is the March to Ely section, starting on a fine June evening at March with its traditional signal boxes, we work our way east to Ely station.

Cambrian Saloon: A Class 97 and a 37 hauling a single coach saloon from Shrewsbury to Barmouth is not really a freight train! It's not really a passenger train either but technically they are two freight locos, so the events of this beautiful mid-winters day are featured here. Includes stunning aerial footage on Barmouth Bridge.

WCML 1: Scotland, Carlisle and Preston: The first part of a feature on freight on the WCML in 2022-2023 starts in Scotland with a look at the recently reopened Ravenstruther facility, now being used for the loading of quarry stone. We work our way south, at Abington, Carlisle and then to Preston. With the 86s now gone, Freightliner 90s and a few DB 90s dominate the container trains but in between, there's a few interesting diesel-hauled flows with Colas 70s on stone trains.

Colas Stone Trains 1: Continuing the theme of stone trains for this programme, during the winter and spring of 2022/2023 Colas operated a number of new flows, mostly for the Land Recovery site at Longport. A short lived flow was gravel from Workington Docks to Drigg and 56078 and 56113 feature on a gorgeous spring day on the Cumbrian Coast.

Also on this edition: A visit to Pilning with freight climbing up from the Severn Tunnel; more Merseyrail EMU moves; West Midlands snow day; eight in a row at Church Fenton; Dundee overnight; five in a row at St. Denys and some more RHTT action from autumn 2022.

- All sections are introduced with full commentary and maps.
- Includes aerial footage.
- So much more than just train after train running past the camera!
- This is all brand new footage, filmed in 2022/23 – GUARANTEED.

Train Crazy 30 Years 1994-2024

CLASS 205 and 207 DEMUs

1999 to 2003 Compilation

Original footage restored & upscaled

Also: LTS Class 302, 310 & 312 EMUs 1996-2001

2024 marks the 30th anniversary of Train Crazy railway videos and DVDs. Starting out as a hobby in 1994, then a full time job from 1998, over the last three decades, just about every type of locomotive and unit has featured, with more than 400 passenger, freight, cab ride and tram titles, released on VHS tape, DVD, Blu-ray and download.

Starting now in 2023 - to mark the occasion - a series of special low-price compilation DVDs and Blu-rays are being produced using the original film shot 30-years ago, right up to more recent times. Presented in a class-by-class format, and delving deep into the archives, some of this footage has been released before on VHS tape, some on DVD and some has never been seen at all.

Here's the good bit... In the last few years, software to restore old grainy and wobbly film has become more accessible. Previously it was expensive, slow and not very good, but in 2022 huge advances were made. The old film used on these new compilation programmes is all being reworked, improved, cleaned up and upscaled. For the first time, all of the film shot in standard-definition (720 x 576 or less) can be upscaled and presented in top quality high-definition (1920 x 1080).

Long gone and long scrapped EMUs, DMUs, 31s, 37s, 47s, 86s and many other locos and coaches which were only ever filmed in SD, can now be appreciated in full HD! Whether on DVD or Blu-ray, the picture quality of this new series is better than anything seen before, of trains filmed in the same era.

The third release features the Train Crazy film of the Class 205 and 207 DEMUs filmed in the period 1999-2003 and the Class 302, 310 and 312 EMUs operated by LTS, filmed 1996-2001. Almost all of the operational 'Thumpers' from this period are included with footage from Uckfield, Hurst Green, Hastings, Rye and Edenbridge; the peak hour trains to Victoria and London Bridge and the remarkable day of 26th September 2001 when the three-train Ashford-Hastings service was worked by 205001, 207202 and preserved Class 201 - 1001! LTS-operated Class 302, 310 and 312 units are filmed at Fenchurch Street, Limehouse, Upminster and Pitsea.

Presented in a no-nonsense format of on-screen captions with unit number, location and date, sit back and enjoy some top quality action from up to 30-years ago - with much improved picture quality and in HD for the very first time! This is far from a complete record these units during these years but this is what was filmed, now re-edited, re-worked and upscaled.

British Rail Motive Power 1981-1999

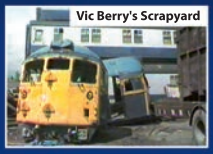

Volume 11

Actual footage

Working our way through 121 hours of unused and unseen archive railway film, shot between 1981 and 1999; and all recorded with the original audio on tripod-mounted cameras.

Highlights of Volume 11 include:

Chester and Crewe: Footage from 1982 and 1983 with 25s and 40s, then Crewe in 1999 with 37s, 47s, 87s and 90s.

Midland Mainline: A great selection of Peaks from the 1980s at Sileby, Market Harborough, Leicester, Kettering and Wellingborough.

North Wales: From 1981 to 1999, the changing face of 'The Coast' starting with 25s, 40s and 47s through to the 1990s and Regional Railways 31s, 37s and 101685 'Daisy' in BR Green.

Midlands: Birmingham NS when almost every long-distance train was loco-hauled. Includes 2 x 25s, 37s, 45s, 47s, 50s and Electrics.

Vic Berry's Scrapyard: The final resting place for many locos, coaches and units with footage from 1987 and the twisted remains of 25s, 27s, DMUs, Mk1 sleepers and GUVs. It's pretty gruesome at times, but this is how it was, and luckily some made it out alive and survive in preservation today.

Wiltshire: Swindon and Westbury in 1983 with passenger and freight including 56034 and various 33s.

The Conway Crusader Railtour: From 10/3/84, this railtour included 86317, 40029, 40047, 40122 and 50018. From Coventry, the route included Helsby, Hooton, Rock Ferry, Birkenhead Canning Street North, Bidston East Junction and Heswall to Wrexham General and then all the way to Llandudno and Blaenau Ffestiniog. 437 miles of top quality haulage, all for £10.00!

Swanage Diesels 3

This DVD covers the five galas held at the Swanage Railway between 2016 and 2022 and features a variety of diesel locomotives - old and new - working on one of Britain's most scenic railways. Notably, some of the visiting locos were making their debut for their Class on the Swanage branch. 36 different locomotives in action, including every single visiting loco. Also included are two cab rides - Swanage to Harmans Cross on Colas Rail's 56096, and from the River Frome Bridge to Furzebrook on Class 44 'Peak' D4.

Railfreight Archive

This programme takes a nostalgic trip down memory lane to look at the railfreight scene during the 1980s. It was a decade in which there was so much variety in terms of the traction, the commodities carried and the various types of wagons. The Speedlink wagonload network was buoyant, vast tonnages of coal were being moved by rail, marshalling yards were a hive of activity and vacuum-braked wagons were still in use on some services.

English Electric Archive

This is the first in a series of four programmes taking a nostalgic look at the BR traction scene during the 1980s. This DVD features the five classes of English Electric-built main line locomotives that were in regular use with British Rail during the 1980s - 20, 37, 40, 50 and 55. The material in this programme is previously unreleased on DVD.

Sulzer Archive

The second in a series of four nostalgia-packed programmes features six Sulzer-engined loco classes – 25, 26, 27, 33, 45 and 47 – at work on a variety of passenger and freight turns in the 1980s. Alongside the traction, the rolling stock and railway infrastructure provide an extra layer of nostalgia. And as an added bonus, the filming locations are spread far and wide across all five BR Regions.

DARJEELING HIMALAYAN RAILWAY

Darjeeling Himalayan Railway:

New Jalpaiguri to Tindharia

Our journey begins on board an NDM 6 diesel loco, which takes us over the first 5 miles to Siliguri Junction, alongside India's main line broad gauge track. The narrow gauge crosses the broad gauge on the level and later on is even interlaced to share the single track viaduct over the Mahanada river. At Siliguri Junction, an iconic 'B' class steam engine takes over, hauling our train for the next half hour past the typical hustle and bustle of the busy markets, shops and businesses along the Hill Cart Road.

Digitally Remastered Series

The next releases in our Digitally Remastered Series are two long deleted Train Crazy titles and two Unique Publishing steam titles. The Train Crazy titles were originally available on VHS and then as a limited edition DVD, they have not been available for more than a decade. Due to many requests they're back - bigger, better and in stunning HD for the very first time! These are the original programmes that have been put through the upscale and remaster treatment with improvements to audio, colour balance, contrast and most of all - picture quality. Some of the trains featured here were never filmed in HD or in broadcast quality. Now, for the first time - you can enjoy just that!

NIGHT TRAINS

PRESTON • YORK • NEWPORT

Originally released in 2003

Until the early 2000s, video footage shot at night tended to be grainy or weak but thanks to advances in digital technology modern cameras can now provide crystal clear images. Our three chosen stations have improved lighting, and with more freight trains running during the hours of darkness - are you ready for a journey on the Night Train? Locos, units, passenger, mail and lots and lots of freight! Features loco classes 37, 43, 47, 56, 60, 66, 67, 86, 87, 90 & 92 in a variety of liveries on many different types of trains.

HSTs & EUROSTARS

Express passenger trains from the early-2000s

Originally released in 2001

The Inter-City 125s have provided the backbone of Britains non-electrified express passenger services since the mid-1970s. This video looks at the HST fleet in 2000/2001: Cross-country sets: Long-distance passenger trains from Scotland to Penzance; West Coast sets: From London Euston to Holyhead and Blackpool North; Midland sets: From London St. Pancras to Sheffield and Nottingham; Western sets: From London Paddington to Swansea and the West of England; East Coast sets: From London Kings Cross to Aberdeen and Inverness. Each class is introduced with allocations and formations followed by action shots plus EUROSTARS: Channel Tunnel and East Coast sets.

Byways of Steam in The English Heartlands

The Heart of England beats to the roar of industry, but is also invigorated by a sense of nostalgia. Through the Heartlands, small railways exist that service market towns and people. This programme explores a variety of byways that thread their way through the industrial hubs of the region and into stunning rural locations. Footage here comes from the Severn Valley - rural Staffordshire and the River Churnett, and brushes the edge of the Cotswolds. We also look at engines serving deepest Leicestershire and the Nene Valley.

Cab Rides: Manchester Oxford Road to York

This journey from Manchester Oxford Road to York in the cab of a TransPennine Express Class 185 DMU is remarkable, not only because the bright blue skies are crystal clear, but because it takes place in the middle of lockdown and the stations are empty. It's a sobering reminder of what the country went through in the depths of the Coronavirus pandemic.

Leaving Oxford Road station we travel along the Castlefield corridor, in normal times one of the most congested parts of the network. It takes us past the Cheshire Lines Committee route to Liverpool and onto the Ordsall Chord, opened in 2017. This short stretch of line allows trains from the North East to reach Manchester Airport.

Our first stop is at a deserted Manchester Victoria, and from there we turn east for Stalybridge before striking out for Huddersfield. On the way we pass beneath the Pennines through the Standedge Tunnel, one of the longest in Britain. After Huddersfield we head for Leeds with the help of the slightly shorter Morley Tunnel. As we continue east the landscape changes, and the twists and turns disappear. By the time we reach the East Coast Main Line to the South of our destination it's as flat as a billiard table, and we're able to reach the 185's maximum speed of 100 mph.

Announcing No.3 in a series of Light Rail programmes!

Light Rail Systems No.3
LISBON
An Introduction

Available on DVD, Blu-ray & Download

If you think of Lisbon's trams, two things probably spring to mind: The colour yellow and Route No.28! Tourism promotion in Portugal, and the city of Lisbon, has capitalised on these two factors for decades now and there's no doubt that these small four-wheeled trams and the No.28 are so historically and culturally important - but there's a lot more to Lisbon's trams than this!

Following years of route closures and fleet reduction in the late-1990s, 25-years later, now into the 2020s, Lisbon's trams are on the rise again. With the future of the 90-year old Remodelados secure, some of the old routes are reopening, with long-lost terminals and junctions going back in. Huge extensions of some routes are planned and a further 15 brand new low-floor trams are now being delivered.

The depth and scale of Lisbon's trams could never be covered in one programme, so this - the first of a proposed series - offers an overview of the entire system. There's a look at the five routes operated by the Remodelados - 12, 18, 24, 25 and 28 - with roadside, on board and driver's eye footage; a look at the No.15 route - worked by the modern Articulado trams by day, but Remodelados at night; the tourist trams; the main depot at Santo Amaro; a visit to the Museum da Carris with a delightful display of the old fleet plus Lisbon's funiculars.

As an introduction to Lisbon's trams, this first programme includes a free 12-page booklet with a brief history, maps, a fleet list and other tram information.

BLACKPOOL TRAM DVD

Blackpool Tram DVD No.102 Spring/Summer 2023

Winter/Spring 2023: Not much happens in Blackpool anymore but the best of what remains is featured on this programme! Footage comes from December with 621, 631, 680 and 707 on tours; action from the three weekends of Heritage tram running in April/May with the Gold service in operation over the May Day Bank Holiday; the 12-tram procession from the Coronation weekend and the Saturday of the Spring Bank Holiday with six trams in service. Almost all of the operational fleet is featured.

Preservation: Balloon 710 returned to Rigby Road depot after 12-years away in open storage. Owned by the FHLT, it has been purchased by Blackpool Transport and 'came home' on 8th February. On a fine early-spring day in March, Heaton Park re-launched 619 following an overhaul and repaint. Highlights from the day include 619 and 623 in service plus 702 on display and a visit to the main depot with the entire tram fleet on display.

Nostalgia: The third and final part of our look back at the first 100 programmes in the series. Here we start with No.74 from 2014, right through to No.100 in 2022. Highlights include: 167 and 680 at Beamish; 227 launch in red and cream and 701 in red and white; 732 at Gynn Square roundabout; 130th anniversary weekend; Birkenhead 20; Marton 31; Twin sets 272+T2 and 675+685; Various Tram Sundays, running days and events; 'B' fleet Balloons in service; Flexitys battle winter blizzards; first trams on test to North Station and much more.

RAILWAY BOOKS

MP Middleton Press
EVOLVING THE ULTIMATE RAIL ENCYCLOPEDIA

Lancaster to Oxenholme

Our journey heads north on the former Lancaster and Carlisle Railway (L&CR). The scheme was authorised in 1844 and completed in only two and a half years. In 1846 the 20-mile section from Lancaster to Oxenholme was opened and the branch to Windermere completed less than a year later. Included within are many maps and photographs covering the area's fascinating history over many decades.
Pages: 96 (hardback) Price: £18.95
Code: MP112

West Somerset Railway

The railway to Minehead served the community faithfully for 100 years until it closed in 1971. Enthusiasts refused to let the line die and have spent almost 50 years rebuilding it as a heritage railway. It is the longest standard-gauge steam railway in the UK and one of the premier lines. This book tells the story of the heritage railway and how it got to be what it is today.
Pages: 96 (hardback) Price: £18.95 Code: MP111

Nottingham - Long Eaton - Derby

The line-side varies greatly and includes many different industries, plus a rich variety of agricultural uses. In consequence, there is a great diversity of freight stock to be enjoyed.
Stations & Locations include: Nottingham, Lenton South Junction, Beeston, Attenborough, Long Eaton Junction, Trent, Sawley Junction, Long Eaton, Draycott, Draycott & Breaston, Borrowash and Spondon.
Pages: 96 (hardback) Price: £18.95 Code: MP106

Bournemouth to Evercreech Junction

This beautiful and interesting length of rural railway has always been relegated to a small section in books on the Somerset & Dorset line. Now it is fully illustrated in an exclusive album, together with the early station at Poole and the long lamented terminus at Bournemouth West. Old tickets, timetables and maps add flavour to this generous helping of steaming through nostalgia.
Pages: 96 (hardback) Price: £18.95 Code: MP108

Burnham to Evercreech Junction

including the Bridgwater and Wells branches

This is the first book devoted exclusively to the Somerset & Dorset Railway's route to Burnham, which has received scant attention in railway literature to date. Full photographic coverage is given to this unusual and most interesting route. The company's works and wharfs at Highbridge are also illustrated and detailed maps of every location are included.
Pages: 96 (hardback) Price: £18.95 Code: MP110

Kidderminster to Shrewsbury

including Stourport-on-Severn

The route through the beautiful Severn Valley once served numerous collieries and the few passengers were conveyed in GWR railcars for many years. This bygone era is extensively illustrated, as is the astonishing restoration of the southern part of the line to create one of England's most popular preserved railways.
Pages: 96 (hardback) Price: £18.95 Code: MP107

Bath to Evercreech Junction

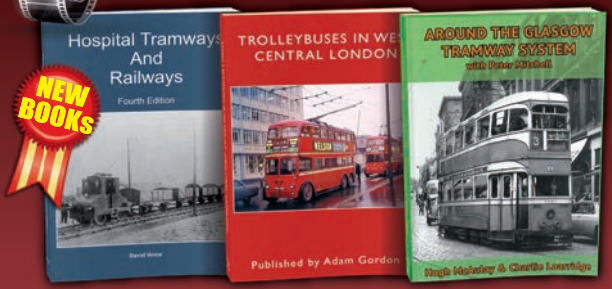

One of the most loved railways in Britain, the Somerset & Dorset line had unique features and a special charm. This album recaptures its spirit in the attractive and varied landscape of the Mendip Hills. Tickets, timetables and old maps add to the unpublished photographs of this very exceptional route.

Around the Glasgow Tramway System

On Tuesday 4th September1962 an estimated quarter of a million people turned out on the streets of Glasgow, in pouring rain, to bid a fond farewell to a form of transport that had been seen in the city since 1872. All of the photographs in this book were taken by Londoner Peter Mitchell who visited Glasgow on ten occasions between 1951 and 1962 during which time he took more than a 100 images of the trams. All images are either to half or full page configuration.

Hospital Tramways and Railways: *Fourth Edition*

Looking at Wartime Hospital Trains. Since the Boer War, injured servicemen who needed treatment have been taken from battlefield areas and treated in field and permanent hospitals. The more seriously wounded were sent back to Britain for hospital care. This was most pronounced in the First World War when hundreds of thousands of servicemen needed hospital care. In order not to delay treatment the trains they travelled in were equipped as mobile hospitals. This book now includes their story.

Colonel Stephens Light Railway Locomotives

Holman Fred Stephens set himself up in the 1890s as an engineer and manager of the complete light railway as evolved by Victorian theorists to serve rural districts as yet bereft of the benefit of cheaper transport. Stephens became a master at the art of building and running railways with the minimum of capital. The history of the mechanical performance of his railways was also nearly always handicapped with inadequate engineering facilities. This gave rise to a kaleidoscope of locomotives the history of each is outlined here.

The A4 Pacifics After Gresley

The Late LNER and British Railways Periods 1942-1966

This book tells the story from the early war years up to their demise. After four years of service pulling the LNERs most prestigious trains the A4s took on a more utilitarian role and for six years worked hard to support Britain's war effort. From this they emerged bowed, but unbeaten, although in an extremely jaded condition. Once restored they took up where they had left off in 1939 and did exceptional service for the rest of their days. With the help of previously unpublished material the authors analyse the second phase of the A4.

Books

STEAM in the 1960s

British Railways in the 1960s:

This series of books, 'The Geoff Plumb Collection', is a photographic account of those last few years of the steam locomotives, their decline and replacement during the transition years. Each book covers one of the former 'Big Four', in the form of the BR Regions they became: the Southern Railway, London Midland & Scottish Railway, Great Western Railway and London & North Eastern Railway, including some pictures of the Scottish lines of the LMS and LNER.

The books are not intended to convey a complete history of the railways but to illustrate how things were, to a certain extent, in the relatively recent past and impart some information through comprehensive captions, which give a sense of occasion often a last run of a locomotive type or over a stretch of line about to be closed down.

Pictures are of the highest quality that could be produced with the equipment then available, but they do reflect real life and real times. In simple terms, a look at a period not so long ago but now gone forever.

The LMS Princess Coronation Pacifics, 1937-1956

Their Design and Development

This book covers the design, construction, operation and performance of Sir William Stanier's masterpiece, the Princess Coronation pacific locomotives, better known as the 'Duchesses'. Included are pen portraits of the LMS engineers, a chapter on the express locomotives of the early LMS period that preceded their introduction and the internal rivalries and politics that Stanier was brought in to resolve. Chapters and photographs cover the streamline era, the war years and aftermath and the early years of nationalisation.

DIESEL and ELECTRIC

Rails From Shrewsbury:

A Pictorial Journey 1970s-2012

This book looks at Shrewsbury itself, the lines that radiate from there, and the trains that ran on them, in the late twentieth and the early part of the twenty-first century. During this time period, much more general railway infrastructure and mechanical signalling was still in use, and locomotive-hauled trains were abundant, using a variety of motive power, including Classes 25, 31, 33, 37 and 47. The various freight lines that saw traffic are also visited.

Chiltern Railways: The Inside Story

This book, uniquely, gives an insight to the business strategy and its delivery that underpinned the performance of one of Rail Privatisation's greatest successes. It also shows the reader some of the many 'behind the scenes' jobs which are essential to the functioning of a railway but which are rarely seen by outsiders. Throughout, it demonstrates that a railway, like many other endeavours, is a team effort. Every employee is just as important as the boss. It is easy to read and copiously illustrated.

English Electric Class 50 Diesels:

From the Western Region to Preservation

Peter J Green first photographed Class 50 diesels in action in 1975, while they were still being transferred from the London Midland to the Western Region of British Rail. But it was in the early 1980s, when they were named and painted in Large Logo livery, that his interest in the class really took off. For Peter, they stood out from most other locomotives that were painted in the rather drab Rail Blue livery. The class became a particular target for his railway photography and many of his trips were made with them in mind.

NEW BOOK

Diesels around South East Wales

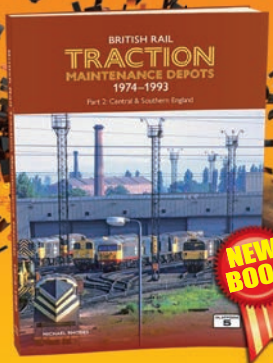

A glorious full colour pictorial album of the subject, from the 1960s to the present day. The book is presented in the format of mostly one image per page with a detailed caption informing the reader not only of the date, location and working, but what happened to the subject in later years. A wide variety of traction is included, from luxurious Class 120 DMUs to Class 37s in blue and into the Railfreight and in later years, 47, 50s and Type 5s.

Pages: 96 (hardback) **Price:** £22.95 **Code:** MM009

Diesels around Cardiff

A second album of colour images from the region, starting with maroon and green locos right though to the Class 121 that worked the Cardiff Bay service and a Colas Class 70! Again, it's almost one image per page and the variety is quite staggering! A good overall review of the Welsh capital's trains.

NEW BOOK

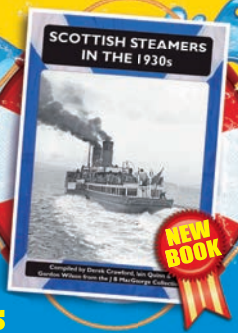

British Rail Traction Maintenance Depots 1974-1993 Part 2: Central & Southern England

The second volume around British Rail's traction maintenance depots and stabling points, recalling an era when 'Shed Bashing' was a popular pursuit amongst railway enthusiasts. This volume covers Southern and Central England. Armed with his camera and notebook, he captured the inner recesses and outer reaches of these captivating places, recording the traction of the day, which powered the freight and passenger trains of the 1970s, 1980s and early 1990s. This book reveals the sheer quantity of locomotives that could be seen at depots and stabling points at the time. Plenty of the locations depicted are now long-gone, as are the industries they supported.

NEW BOOK

Scottish Steamers in the 1930s

A 144 page monochrome softback pictorial album of stunning previously unpublished images from the MacGeorge collection of the Paddle Steamer Preservation Society, showing the variety of vessels, piers and operators to be seen in this, the heyday of Scottish steamers. Each image is accompanied by a detailed caption and a great variety of ships are shown - often packed full and often on full power!
