# About this Guide

**The Reference Guide covers how to work with eSight 4 using the remote control, the eSight App for mobile phones, and/or the eSight Web portal.**

**The Reference Guide is divided into the following key sections:**

- **eSight Remote — Learn how to control your eSight 4, access its features, and manage its settings using the remote.**
- **eSight App for Users — Learn how to use the eSight App to control eSight 4; setup Wi-Fi; share, cast, or mirror content; transfer pictures and videos; and manage caregiver access to your eSight 4.**
- **eSight App for Caregivers — Learn how to use the eSight App to create an eSight account and share the content of the eSight screen to your phone screen and control eSight 4.**
- **eSight Web for Users — Learn how to use eSight Web to share the your eSight screen and control eSight 4; setup Wi-Fi; and manage caregiver access to your eSight 4.**

- **eSight Web for Caregivers** — Learn how to use eSight Web to create an eSight account and share the content of the eSight screen to your computer screen and control eSight 4.

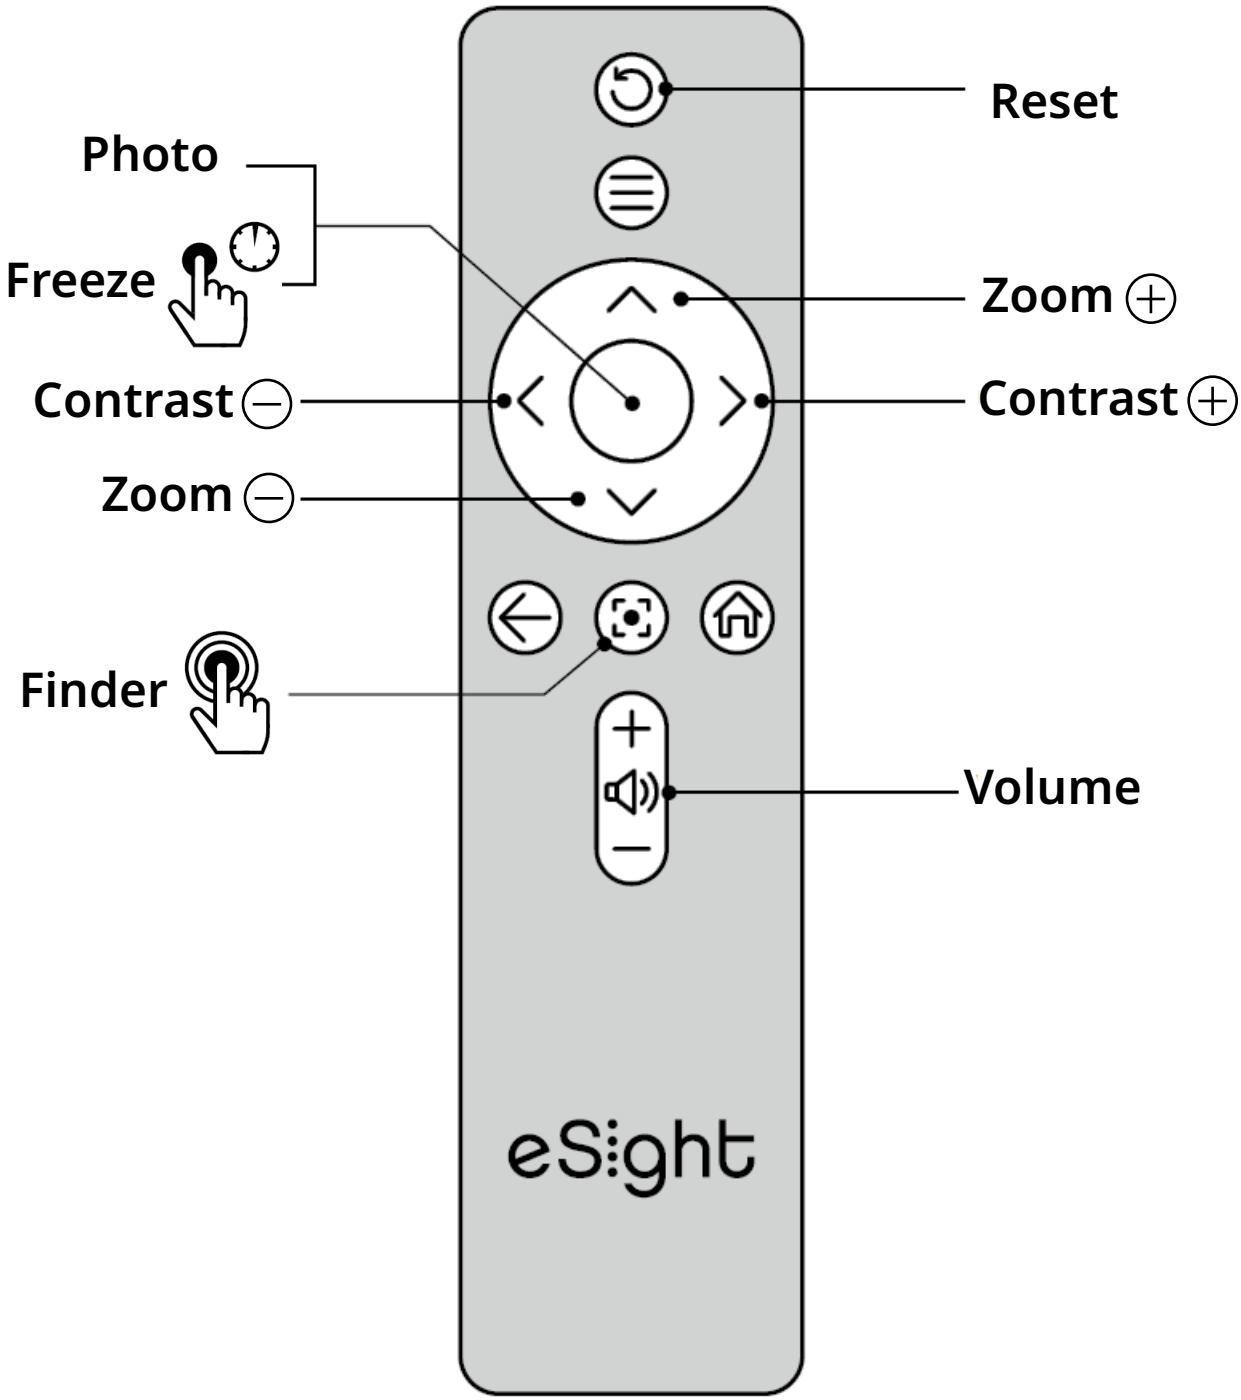
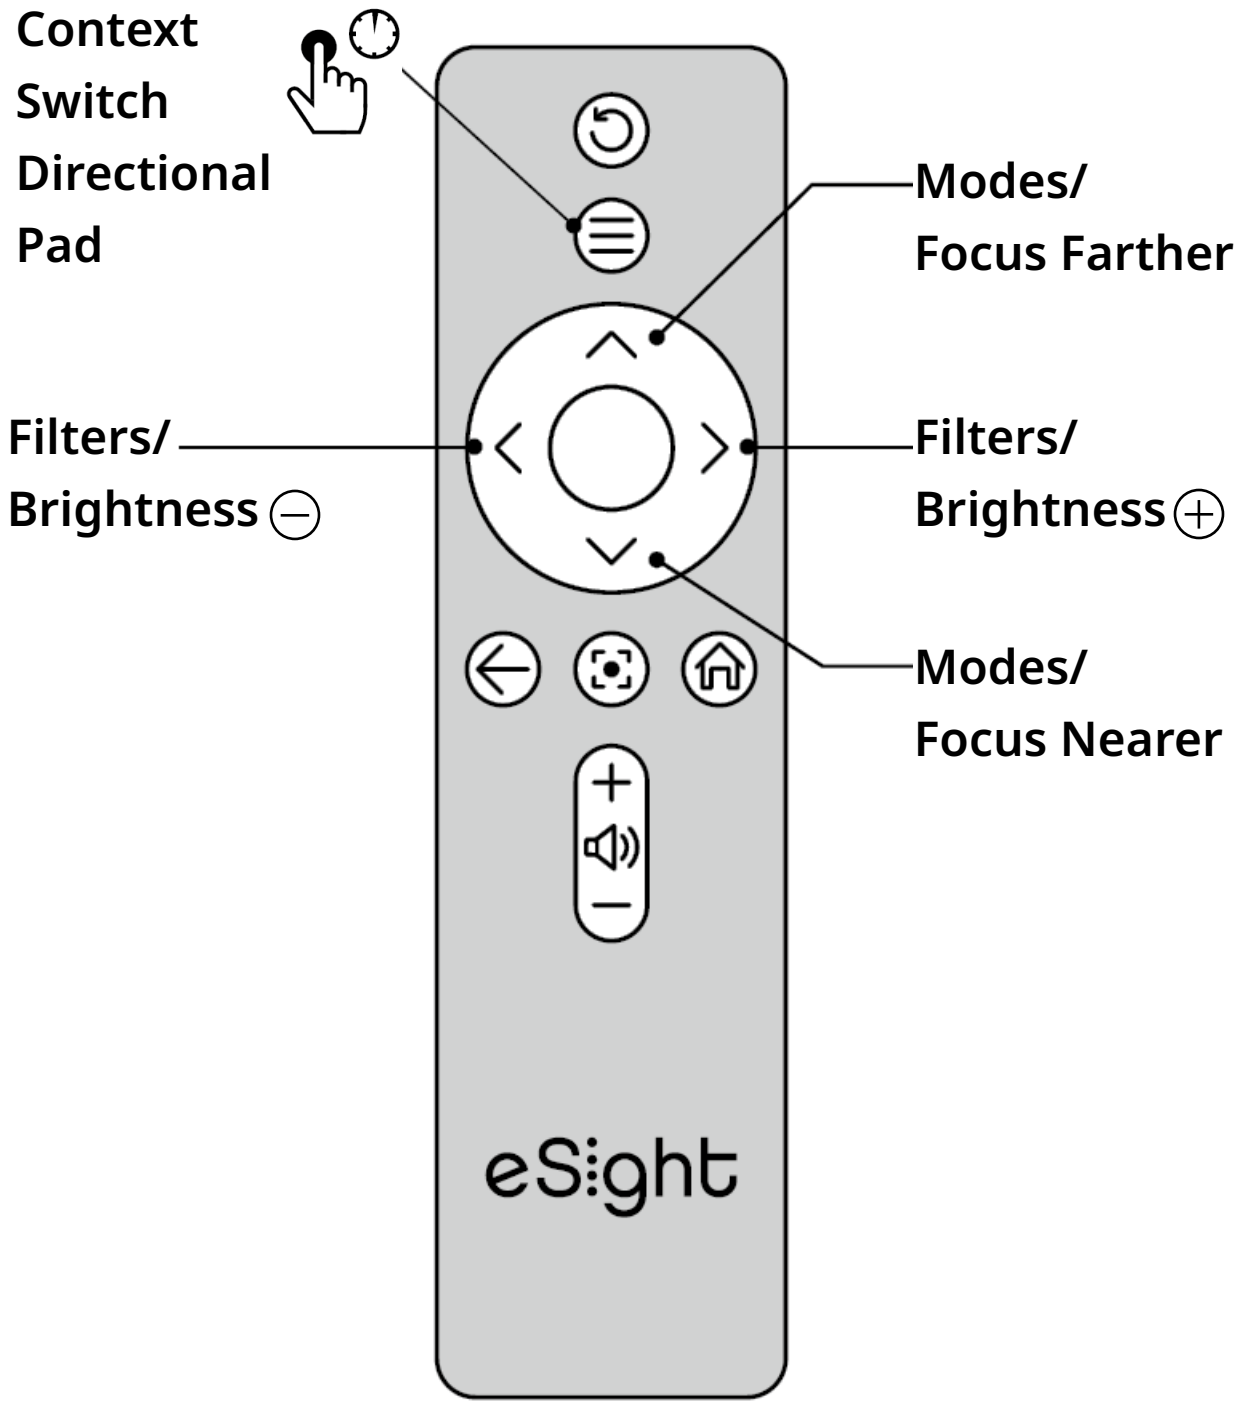
# eSight 4 Remote

# Control eSight 4 via the Remote

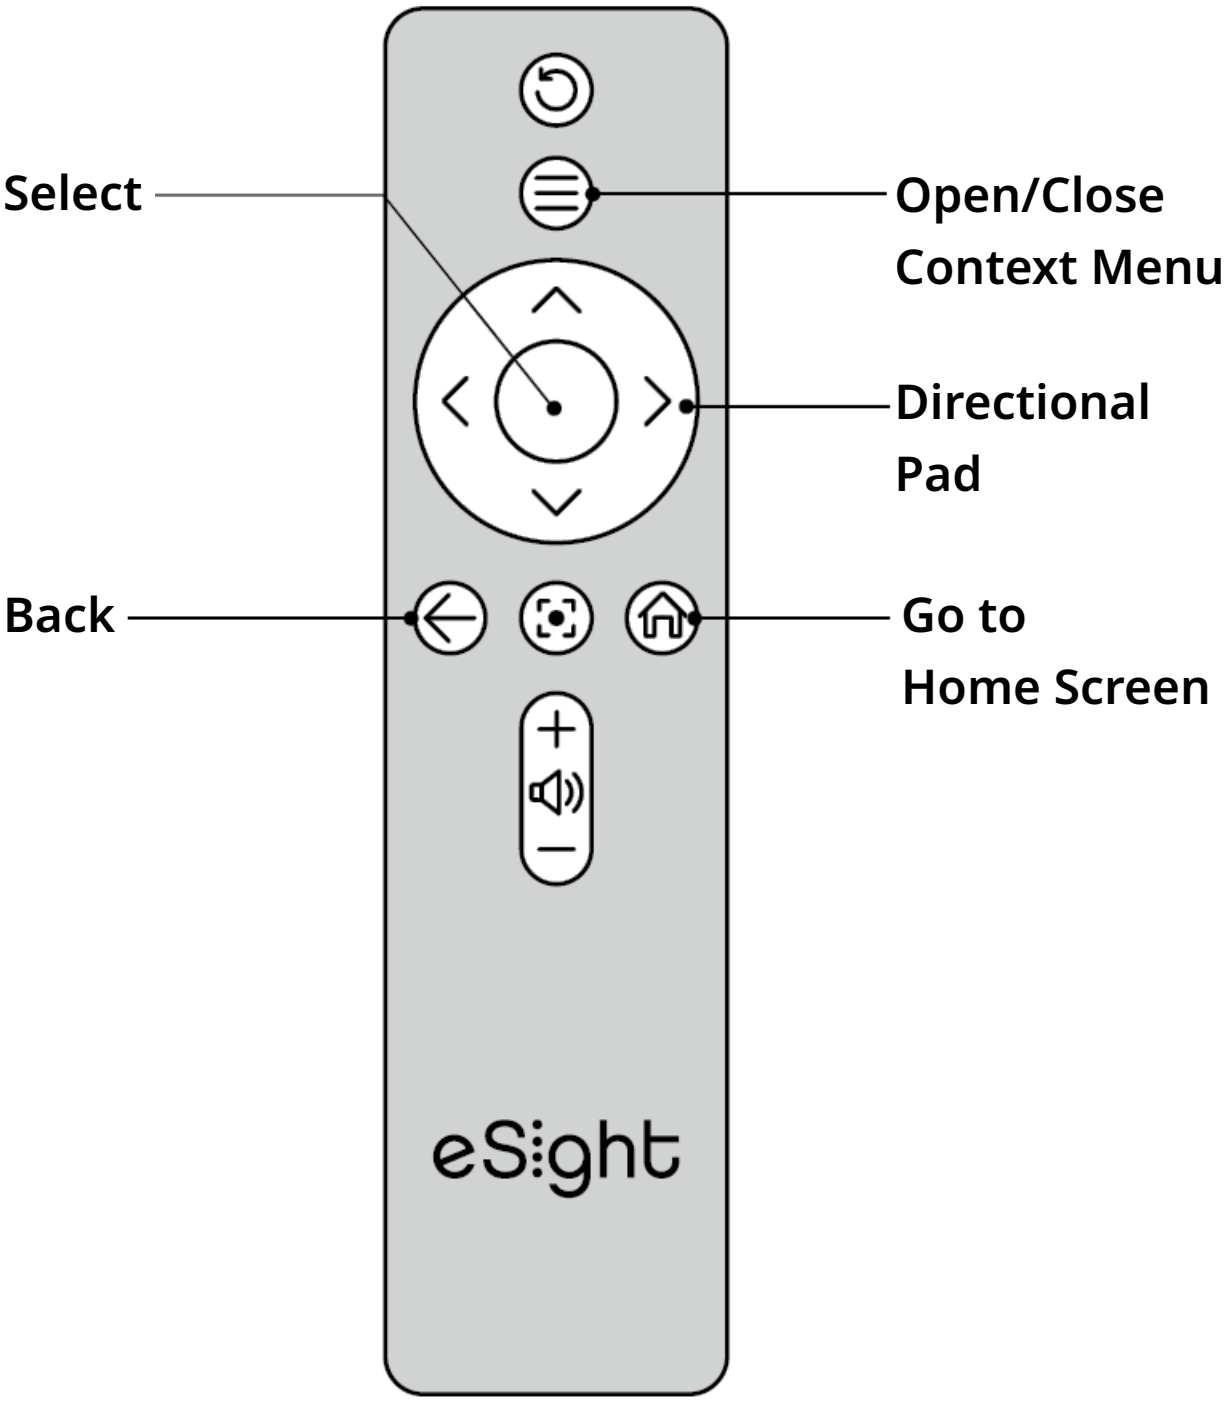
## Basic Controls



## Advanced Controls



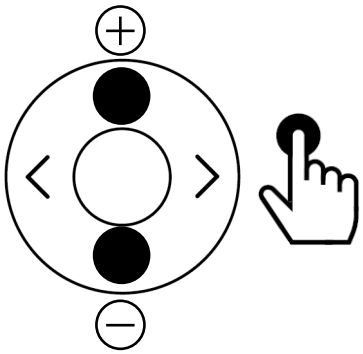
## Context Menu and Home Screen Navigation



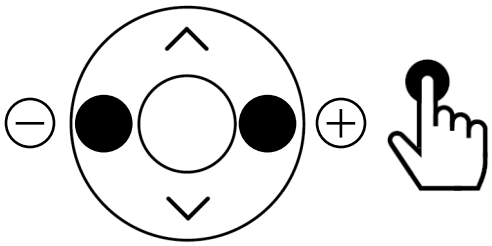
# How do I...?

## Use the Basic Controls

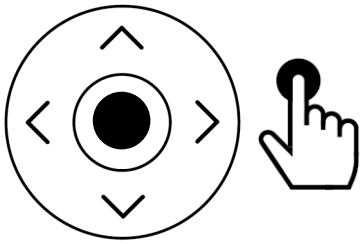
### Zoom in / out



### Adjust contrast

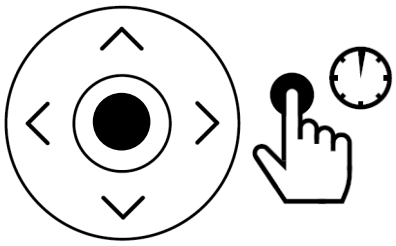


### Take a picture



## How do I...?

**Freeze frame/Go back to live video**



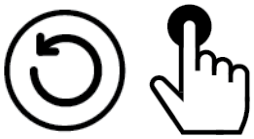
**You can adjust zoom, contrast, and filters while in freeze frame.**

---

**Temporarily zoom out /Return to previous zoom level (Finder)**

---

**Reset view to default Mode settings**



---

# How do I...?

## Use the Advanced Controls

**Select a filter (such as a contrasting colour scheme, like black on white, white on black, blue on yellow,...)**

**i** 
**ii**  **to browse.**

**iii Stop to select.**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

### Apply a mode

**A mode is a preset group of settings that can be applied at the same time for a specific activity or environment, like reading, TV/theatre, outdoors, or indoors.**

**i** 
**ii**  **to browse.**

**iii Stop to apply.**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

**Fine-tune the image brightness set by eSight (Image brightness compensation)**

**Use a Mode with Image Brightness set to Auto brightness.**

**i**  **x 2**

**ii** 
**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

**Adjust and lock the image brightness for a specific environment (like a concert, movie theatre, etc.)**

**Use a Mode with Image brightness set to Manual brightness.**

**i**  **x 2**

**ii** 
**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

### Adjust the focus manually

**Use a Mode with Focus set to Manual focus.**

**i**  **x 2**

**Focus Farther**

**ii** 
**Focus Nearer**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

---

### Turn on/off the flashlight (Live View only)

**i**

**ii** Go to **Flashlight**.

**iii**  **to turn on/off.**

---

# How do I...?

## Navigate Menus, Home Screen, Gallery, Keyboard, & Message Boxes

| | |
|---|---|
| **Open/close the Context Menu** | |
| **Go to the Home Screen** | |
| **Browse** |  |
| **Select a highlighted option** |  |
| **Go back or exit the Home Screen** |  |

# Change Settings

## How do I...?

### Change the Appearance of Menu and Icons

| | |
|---|---|
| Change the colour | • Go to **Home Screen** > **Settings** > **Advanced** > **Appearance** > **Colour**, and then select your preferred option. |
| Change the size | • Go to **Home Screen** > **Settings** > **Advanced** > **Appearance** > **Size**, and then select your preferred option. |

### Change Screen Settings

| | |
|---|---|
| Adjust the screen brightness | i Go to **Home Screen** > **Settings** > **Screen Brightness**.<br>ii  |

## How do I...?

| | |
|---|---|
| **Select screens to use**<br>**(Both screens, Left screen only, or Right screen only)** | • Go to **Home Screen** > **Settings** > **Advanced** > **Select screen**, and then select your preferred option. |

## Adjust Sound Settings

| | |
|---|---|
| **Set the system volume**<br>**(Notifications)** | i Go to **Home Screen** > **Settings** > **Sound** > **System volume**.<br>i  |
| **Set the media volume**<br>**(Videos, music, games, other media)** | i Go to **Home Screen** > **Settings** > **Sound** > **Media volume**.<br>ii  |

## How do I...?

**Set the narrator volume**

i Go to **Home Screen** > **Settings** > **Sound** > **Narrator volume**.

ii 
## Reset to System Defaults

**Restore eSight 4 to the initial device settings for Modes and Settings**

**Resetting does not delete your personal data, such as pictures, videos, registration,....**

i Go to **Home Screen** > **Settings** > **Advanced**.

ii Select **Restore system defaults**.

iii Select **OK** to confirm.

## Scan a Product Registration Code

**Scan an eSight 4 product registration code**

i Go to **Home Screen** > **Settings** > **Advanced**.

ii Select **Setup eSight Account**.

## Configure Modes

**A mode is a preset group of settings that can be applied at the same time for a specific activity or environment, like reading, TV/theatre, outdoors, or indoors.**

**Customize each mode to your preferred settings. Later, set eSight to use the mode that most closely relates to your current activity or environment.**

**For example, you may like to control the focus and brightness manually while watching TV. You can customize the TV/theatre mode to use manual focus and manual brightness. When you're ready to watch TV, set eSight to TV/theatre mode and manually adjust the focus and brightness as necessary while watching TV.**

**When you're done watching TV, switch to a mode that has the best settings for your new activity.**

## How do I...?

**Customize a mode**

i **Go to Home Screen > Settings > Configure mode > { Mode Name }.**

ii **Go to Image brightness:**

- **Manual brightness —** Select if you want to manually set and lock the image brightness to a preferred level for an activity (like watching concerts or movies with fast changing lighting).
- **Auto brightness —** Select if you want eSight to adjust the brightness.

iii **Go to Focus:**

- **Manual Focus —** Set if you need to lock the focus at a preferred distance to prevent unwanted refocusing (while watching concerts or movies or reading).
- **Auto Focus —** Select if you want eSight to adjust the focus.

**Continues on next page**

## How do I...?

| | |
|---|---|
| **Customize a mode (Continued)** | **iv Go to Filters**:<br>• **Go to {Filter Name} (Default), and then select the filter that you want applied when you use the mode.**<br>• **In main filter list, select the filters that you want access to when you use the mode.** |

# Take, View, and Manage Pictures and Video

## How do I...?

### Use the Gallery

| | |
|---|---|
| **Open the gallery** | • **Go to Home Screen > Gallery.** |
| **Open a picture or video** | • **In the Gallery, browse to the picture or video, and then select.**<br><br>**You can adjust zoom, contrast, and filters (pictures) or contrast (videos).** |
| **Go to next or previous picture / video** |  |

## How do I...?

| | | |
|---|---|---|
| **Delete a picture or video from the gallery** | **i** | **In Gallery, highlight the picture or video.** |
| | **ii** | |
| | **iii** | **Select Delete selected.** |
| **Delete everything from the gallery** | **i** | **In Gallery,** |
| | **ii** | **Select Delete all.** |
| | **iii** | **Select Yes.** |

## Take and Manage Pictures

| | | |
|---|---|---|
| **Take a picture (Live View only)** | |  |
| **Open a picture** | **i** | **Go to Home Screen > Gallery.** |
| | **ii** | **In the Gallery, browse to the picture, and then select.** |

## How do I...?

**Pan the picture I am viewing**

**i** 

**ii** **Move your head to pan.**

---

**Delete the picture I am viewing**

**i** 
**ii** Select **Delete photo**.

**iii** Select **Yes**.

---

# How do I...?

## Record Video

**Record a video (Live View only)**

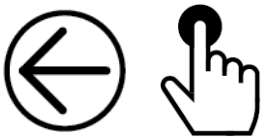
**i**

**ii** Select **Record video**.

**iii**  to start / stop.

You can adjust zoom and contrast while recording.

**Exit to Live View**



## Video Playback

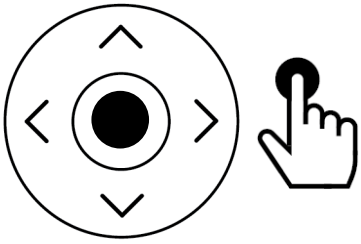
**Open a video**

**i** Go to **Home Screen** > **Gallery**.

**ii** In the Gallery, browse to the video, and then select.

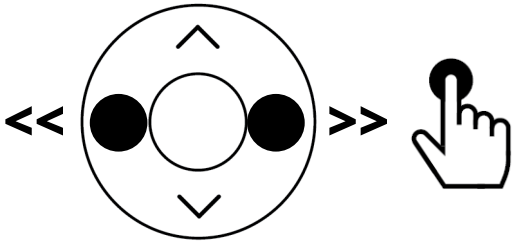
## How do I...?

**Play/Pause a video**



---

**Skip forward or backward in a video**



**Push a second (4x), third (8x), or fourth time (x2) to change the speed.**

---

**Play a video I am are viewing from the beginning**

**i**

**ii** Select **Play from beginning**.

---

# How do I...?

## Manage Videos

**Delete the video I am viewing**

**i**

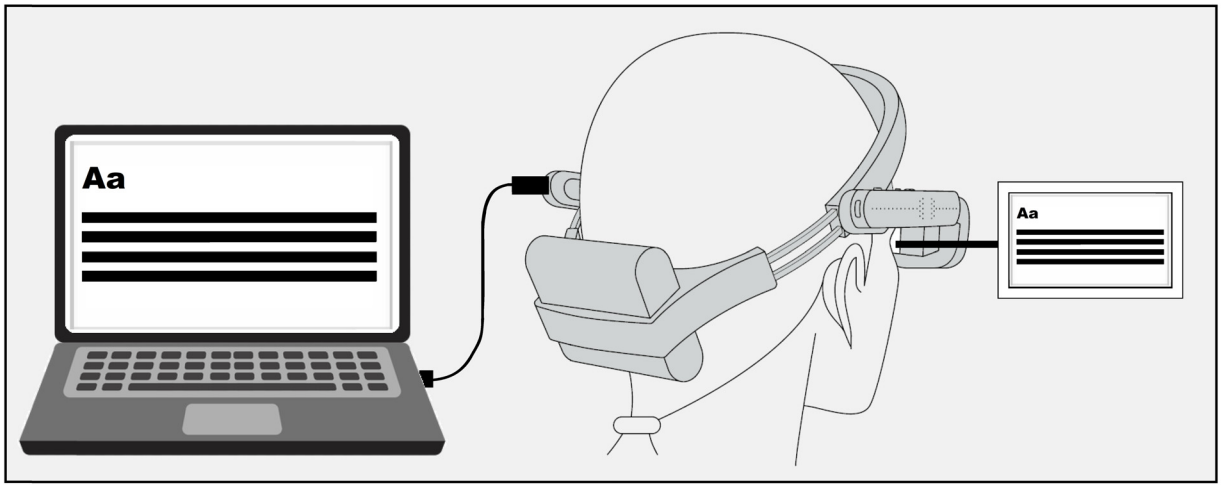
**ii** Select **Delete selected**.

**iii** Select **Yes**.

# View HDMI Video

## How do I...?

## Connect an HDMI Video Source to My eSight



1 Plug the large end of the eSight 4 HDMI Cable into HDMI Out on the external video source. For example, a laptop.

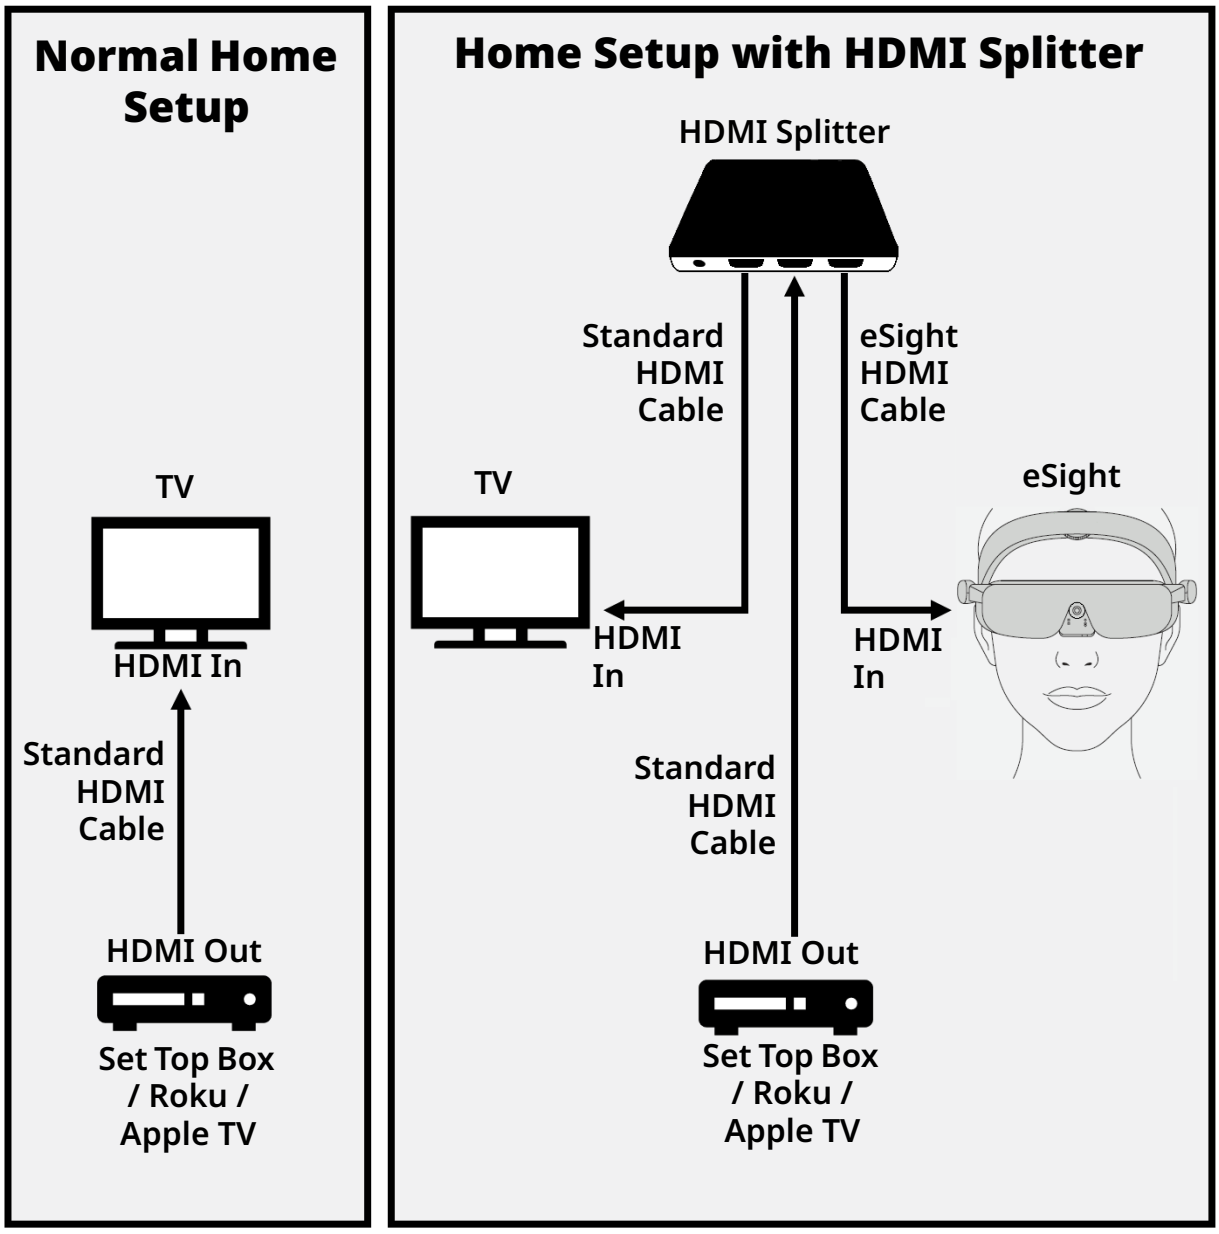
2 Plug the small end into the back of the left arm on eSight 4.

The HDMI video displays in your eSight 4 when it detects a supported video signal.

See “Specifications” in the eSight 4 User Guide for the list of supported resolutions.

# How do I...?

## Connect an HDMI Video Source to My TV and eSight



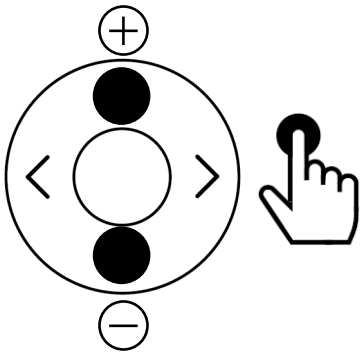
## How do I...?

**The eSight-approved splitter is an optional accessory that allows you to connect an HDMI video source to the TV and eSight 4.**

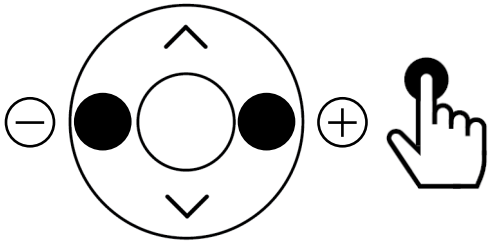
**Consult the documentation accompanying the splitter for setup instructions.**

## Use the HDMI Controls

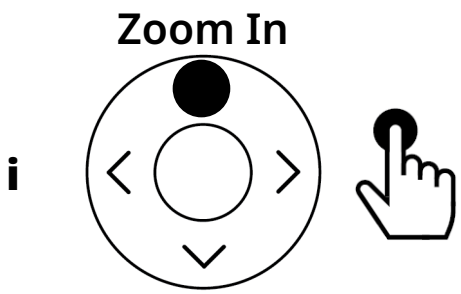
**Zoom in / out**



**Adjust contrast**



**Pan the HDMI video**



**i**

**ii** **Move your head to pan.**

## How do I...?

**Apply a filter to the HDMI video**

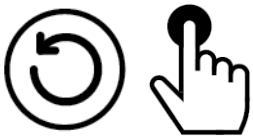
**i** 
**ii**  **to browse.**

**iii** **Stop to select.**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

---

**Reset to default view**



---

# Manage Connections

## How do I...?

## Manage Wi-Fi Connections

**Search for available networks**

i Go to **Home Screen** > **Settings** > **Wi-Fi**.

ii Select **Search**.

---

**Scan a Wi-Fi QR code to connect to an available network**

Use the eSight app to create a Wi-Fi QR Code. See “Generate a Wi-Fi QR Code” on page 57.

i Display the generated Wi-Fi code on your device.

ii Go to **Home Screen** > **Settings** > **Wi-Fi** > **QR scan mode**.

iii Position the on-screen box on the QR code.

If you don’t have a remote, setup Wi-Fi from the eSight 4. Press the **Context button**, and then select **Setup Wi-Fi**.

---

## How do I...?

| | |
|---|---|
| **Connect to a saved Wi-Fi network** | **i** Go to **Home Screen** > **Settings** > **Wi-Fi**.<br>**ii** Select the name of the saved network in the Available networks list to which you want to connect, and then select **Connect**. |
| **Forget a saved Wi-Fi network** | **i** Go to **Home Screen** > **Settings** > **Wi-Fi**.<br>**ii** Select the name of the saved network that you want to forget.<br>**iii** Select **Forget**.<br>**iv** Select **Forget** to confirm. |

## Manage Bluetooth Connections

| | |
|---|---|
| **Pair to an eSight Bluetooth remote** | **i** On the remote, push the **Reset button**.<br>**ii** On eSight 4, press the **Context button**.<br>**Continues on next page** |

## How do I...?

| | |
|---|---|
| **Pair to an eSight Bluetooth remote (Continued)** | **iii** On the touch pad, swipe to highlight **Bluetooth pairing**, and then tap to select.<br>**iv** From the list, swipe to highlight **eSight**, and then tap to select. |
| **Pair and connect a supported Bluetooth device (like headphones, speakers, or mobile phones) to eSight** | **i** Put your Bluetooth device into “discovery” mode.<br>**ii** Go to **Home Screen** > **Settings** > **Bluetooth**.<br>**iii** From the **New devices** list, select the name of the device that you want to pair to eSight, and then select **Pair**.<br> If you don’t see your Bluetooth device listed, select **Search** to refresh the list. |

## How do I...?

| | |
|---|---|
| **Reconnect a paired Bluetooth device** | **i** Go to **Home Screen** > **Settings** > **Bluetooth**.<br>**ii** From the **New devices** list, select the name of the paired device that you want to connect to eSight, and then select **Connect**. |
| **Disconnect a Bluetooth device** | **i** Go to **Home Screen** > **Settings** > **Bluetooth**.<br>**ii** From the **Paired devices** list, select the name of the device that you want to disconnect from eSight, and then select **Disconnect**. |
| **Forget a Bluetooth device** | **i** Go to **Home Screen** > **Settings** > **Bluetooth**.<br>**ii** From the **Paired devices** list, select the name of the device that you want to unpair from eSight, and then select **Unpair**. |

# Use eReader

## How do I...?

**Add a PDF document to eSight to view in eReader**

**If you are transferring files between your Mac computer and eSight 4, you must first install the Android File Transfer app on your Mac computer. This application is required so you can browse and transfer files between devices.**

**Go to https://www.android.com/filetransfer/ and follow the accompanying instructions.**

**i** **Using the USB power cable, connect your eSight 4 to your computer or laptop.**

**Continues on next page**

## How do I...?

| | |
|---|---|
| **Add a PDF document to eSight to view in eReader (Continued)** | **ii** On your computer, open the file manager.<br>The eyewear shows up in the file manager as eSight 4.<br>**iii** Copy the document that you want to read to the following folder on eSight 4: **eSight 4\Internal shared storage\Documents** |
| **Open a document in eReader** | **i** Go to **Home Screen** > **eReader**.<br>**ii** Select the document you want to read.<br>**You can adjust zoom, contrast, and filters while viewing a document.** |
| **View the previous or next page in an open document** |  |

## How do I...?

| | |
|---|---|
| **Zoom in/Zoom Out** | **i**  <br>**ii**  <br>**Directional Pad reverts to Page Movement if it is not used for a few seconds.** |
| **Pan a page** | **Zoom in, wait until the Directional Pad reverts to Page Movement, and then**  **to pan.** |

## How do I...?

**Apply a filter to the document**

**i**  **x 2**

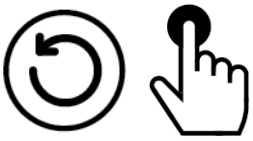
**ii**  **to browse.**

**iii** **Stop to select.**

> **Directional Pad reverts to Page Movement if it is not used for a few seconds.**

---

**Reset to default page view**



---

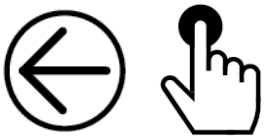
**Delete the open document**

**i**

**ii** Select **Delete file**.

---

**Go back to the document list or previous view**



---

# Get Help and Support

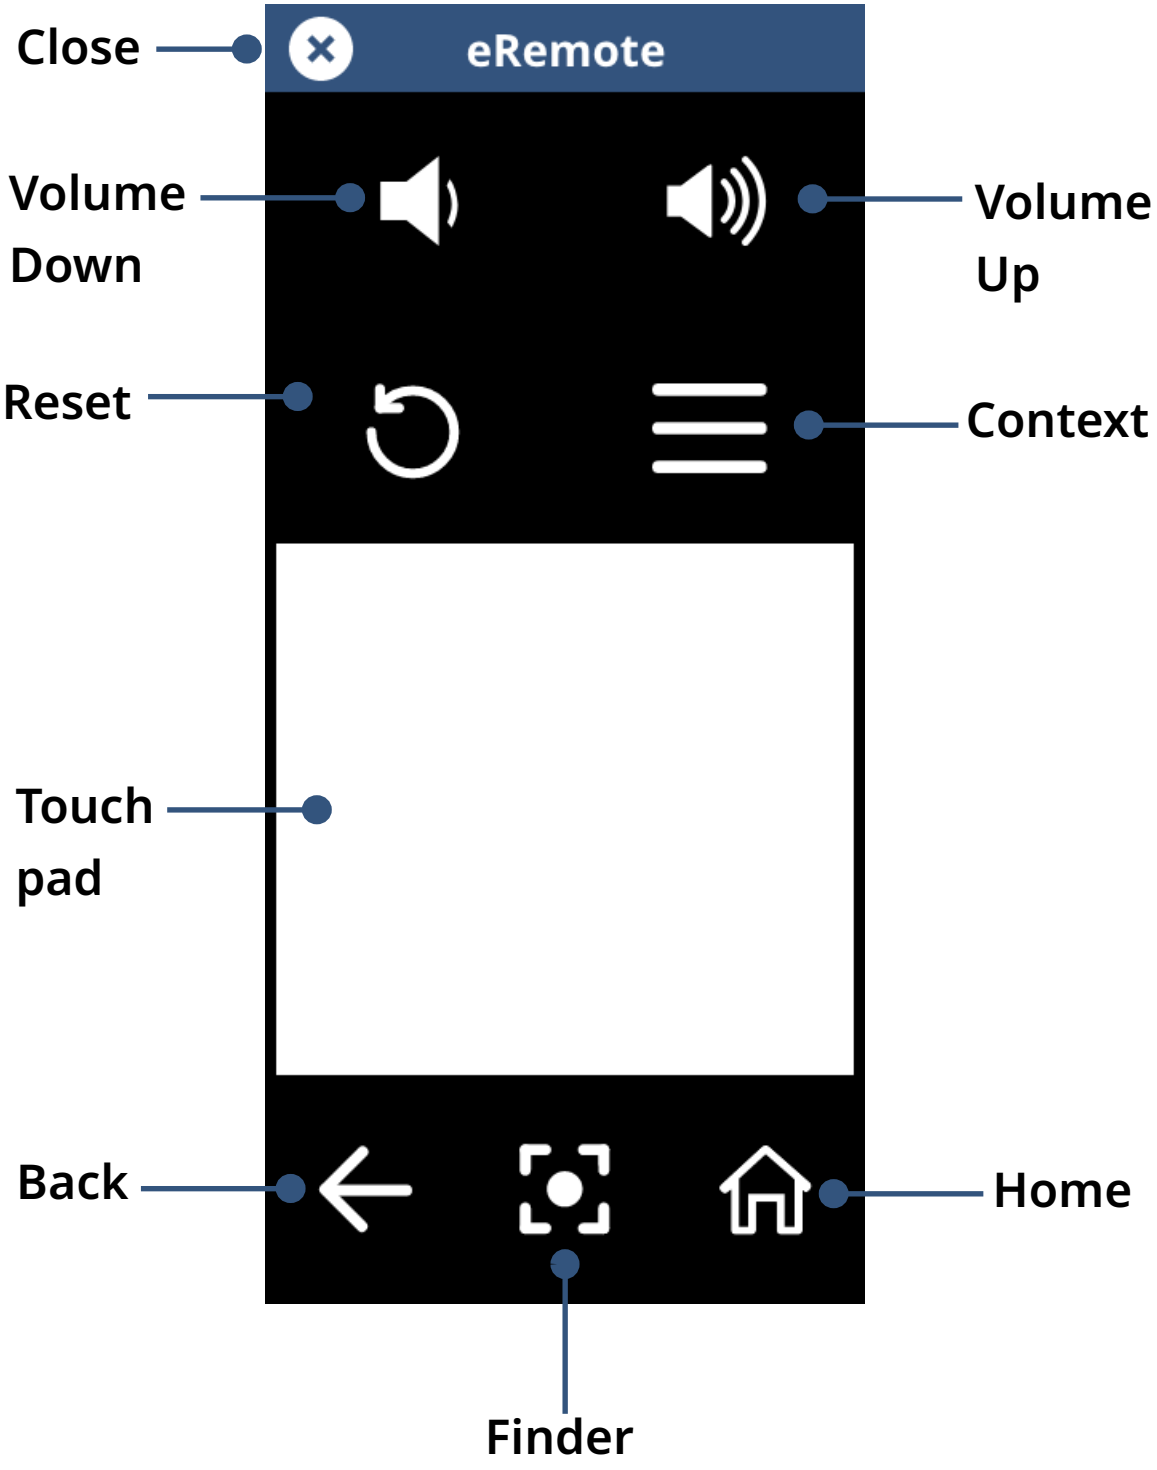
| How do I...? | |
|---|---|
| View product documentation | • Go to **Home Screen** > **Help and support** > **Help documents**. |
| View the on-boarding tutorial from the beginning | • Go to **Home Screen** > **Help and support** > **Onboarding** > **Start from beginning**. |
| Resume the tutorial | • Go to **Home Screen** > **Help and support** > **Onboarding** > **Resume**. |
| Adjust eye to eye distance | i Go to **Home Screen** > **Help and support** > **Onboarding** > **Adjust eye to eye distance**.<br>ii Follow the on-screen instructions. |

## How do I...?

| | |
|---|---|
| Adjust screen to eye distance | i Go to **Home Screen** > **Help and support** > **Onboarding** > **Adjust screen to eye distance**.<br>ii Follow the on-screen instructions. |
| View notifications | i Go to **Home Screen** > **Help and support** > **Notifications**.<br>ii Select the notification you want to view. |
| Update the software on my eSight 4 | • **Home Screen** > **Help and support** > **Notifications** > **Update**. |
| View device information, like product serial number, software version number, storage information, regulatory certifications | • Go to **Home Screen** > **Help and support** > **Device information**. |

# eSight App for Users

# Control eSight 4 with eRemote



# How do I...?

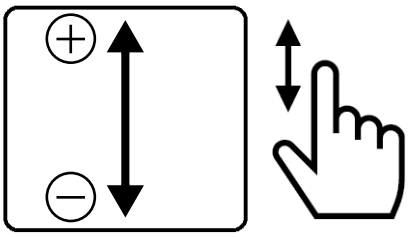
## Use the Basic Controls

### Open eRemote

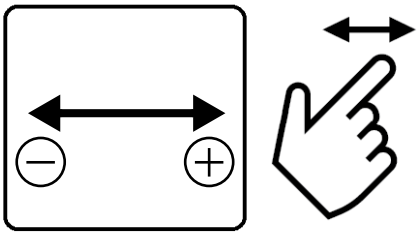
**eSight and your phone must be paired via Bluetooth to use eRemote. See “Connect My Phone to eSight 4” on page 56.**

**At the bottom of the eSight App Home screen, tap eRemote Remote.**

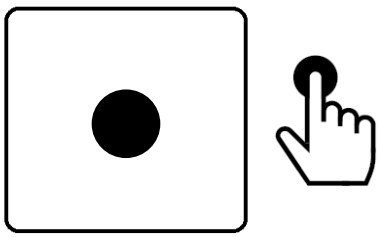
### Zoom in / out



### Adjust contrast



### Take a picture



## How do I...?

| | |
|---|---|
| **Freeze frame/Go back to live video** |  <br>**You can adjust zoom, contrast, and filters while in freeze frame.** |
| **Pan an image while in Freeze frame** | • **Zoom in, then move your head to pan.** |
| **Reset view to default Mode settings** |  |
| **Temporarily zoom out /Return to previous zoom level (Finder)** | |
| **Close eRemote** | |

# How do I...?

## Use the Advanced Controls

**Select a filter (such as a contrasting colour scheme, like black on white, white on black, blue on yellow,...)**

**i** 
**ii**  **to browse.**

**iii Stop to select.**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

### Apply a mode

**A mode is a group of settings tuned for a specific activity, like reading, TV/ theatre, outdoors, indoors...**

**i** 
**ii**  **to browse.**

**iii** **Stop to apply.**

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

**Fine-tune the image brightness set by eSight (Image brightness compensation)**

**Use a Mode with Image Brightness set to Auto brightness.**

**i**  **x 2**

**ii** 
**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

## How do I...?

**Adjust and lock the image brightness for a specific environment (like a concert, movie theatre, etc.)**

**Use a Mode with Image brightness set to Manual brightness.**

i  x 2

Focus Farther

ii 
Focus Nearer

**D-Pad reverts to Zoom/Contrast if it is not used for a few seconds.**

### Turn on/off the flashlight (Live View only)

i 
i Go to **Flashlight**.

ii 
# How do I...?

## Navigate Menus, Home Screen, Gallery, Keyboard, & Message Boxes

| | |
|---|---|
| **Open/close the Context Menu** |  |
| **Go to the Home Screen** | |
| **Browse** |  |
| **Select a highlighted option** |  |
| **Go back or exit the Home Screen** |  |

# Manage Connections

## How do I...?

## Connect My Phone to eSight 4

**Connect my phone to eSight 4**

**Bluetooth must be enabled on your phone to connect your phone to eSight 4.**

**i** Go to **My eSight** > **Connectivity** > **Pair to an eSight**.

If Bluetooth is turned off on your phone, you are prompted to turn on your phone's Bluetooth. Tap **Turn on Bluetooth** to continue.

**ii** From the **Available Devices** list, tap **eSight 4**.

eSight 4 appears in the **Paired devices** list when your phone successfully connects to the eSight.

**iii** Tap **Close**.

# How do I...?

## Setup WiFi on eSight 4

| | |
|---|---|
| **Generate a Wi-Fi QR Code** | **i** Go to **My eSight** > **Connectivity** > **Setup Wi-Fi on eSight**.<br>**ii** In the **Wi-Fi name** box, type the network name (also called the SSID).<br>**iii** In the **Wi-Fi password** box, type the network password.<br>**iv** From the **Wi-Fi network type** list, select the type of security (WEP, WPA, WPA2 or no encryption) used to secure the network.<br>**v** Tap **Create Wi-Fi Code**. |
| **Scan a Wi-Fi QR code to connect to an available network** | **i** Display the generated Wi-Fi code on your phone.<br>**ii** On the right arm of eSight, press the **Context button**, and then swipe the touch pad to highlight **Setup Wi-Fi**, and then tap to select.<br>**iii** Position the on-screen box on the QR code. |

# Stream Out, Cast, or Mirror Content

**Streaming, casting, or mirroring requires that**

- **Wi-Fi and Bluetooth are enabled on your phone.**
- **eSight and your phone are paired via Bluetooth. See “Connect My Phone to eSight 4” on page 56.**
- **eSight and your phone are connected to the same Wi-Fi network. See “Setup WiFi on eSight 4” on page 57.**
- **eSight is turned on and within range of the Wi-Fi network.**

## Stream the eSight 4 Screen to the Phone Screen

**eShare allows you to send the content of the eSight screen to your phone screen.**

| How do I...? | |
|---|---|
| Start stream out | • Go to **My eSight** > **eShare**. |

## How do I...?

**Stop stream out**

i Go to eRemote.

ii .

iii Tap **Stop sharing**.

> **You can stop screen sharing from the eSight 4. On the right arm of eSight, press the Context button, and then select Stop sharing.**

**Use the digital remote**

- **Use the digital remote to control eSight 4. It mimics the controls of the physical remote. See “Control eSight 4 via the Remote” on page 7.**

# Cast Media Content from the Phone to eSight 4

**eCast allows you to stream video and photos from your phone to your eSight 4.**

## How do I...?

| | |
|---|---|
| **Cast media from Android** | **i** On the eSight App Home screen, tap **eCast**.<br>**ii** From the displayed media on your phone, tap the media content that you want to display on eSight, and then tap **View on eSight**. |
| **Cast Media from iOS** | **You can only cast media that is saved on your phone. You cannot cast media that is stored online.**<br>**i** On the eSight App Home screen, tap **eCast**.<br>**ii** From the gallery on your phone, select the media content that you want to display on eSight, and then tap **View on eSight**. |

# How do I...?

## Use the eCast Controls

| | |
|---|---|
| Go to the previous or next media |  |
| Rewind or fast forward |  |
| Play/Pause | |
| Stop casting | • On the eSight App, tap **Stop casting**.<br><br>You can stop casting from the eSight 4. On the right arm of eSight, press the **Context button**, and then select **Exit Casting**. |

# Mirror the Phone Screen to the eSight 4 Screen

**Screen mirroring allows you to view content from your phone screen on your eSight 4.**

## How do I...?

### Mirror the Phone Screen to eSight 4 Screen

| | |
|---|---|
| **Mirror from Android** | • **On the eSight App Home screen, tap eMirror.** |
| **Mirror from iOS 11** | **i** **On the eSight App Home screen, tap eMirror.**<br>**ii** **In iOS, go to Settings > Control Center > Customize Controls then tap next to Screen Recording.**<br>**iii** **Swipe up from the bottom edge of any screen.**<br>**iv** **Press deeply on the grey icon and tap Microphone.**<br>**v** **Tap Start Recording, then wait for the three-second countdown.** |

## How do I...?

| | |
|---|---|
| Mirror from iOS12+ | i On the eSight App Home screen, tap **eMirror**.<br>ii Tap the Mirroring button, and then select the eSight app.<br>iii Tap **Start Broadcast**. |

### Stop Mirroring

| | |
|---|---|
| Stop mirroring from Android | • On the eSight App Home screen, tap the **Stop** button in the bottom right corner of your screen. |
| Stop mirroring from iOS 11 | • **Open Control Center and tap the red icon, or**<br>• **Tap the red status bar at the top of your screen, and tap Stop.** |
| Stop mirroring from iOS 12 | • **Tap the Mirroring button, or**<br>• **Tap the red status bar at the top of your screen, and tap Stop.** |

## How do I...?

| | |
|---|---|
| **Stop mirroring from the remote** | **i** <br>**ii** Select **Disconnect**. |
| **Stop mirroring from eSight 4** | • On the right arm of eSight, press the **Context button**, and then select **Disconnect**. |

# Move Media from eSight 4 to the Phone

**Moving media from eSight 4 to your phone requires that**

- **Wi-Fi and Bluetooth are enabled on your phone.**
- **eSight and your phone are paired via Bluetooth. See “Connect My Phone to eSight 4” on page 56.**
- **eSight and your phone are connected to the same Wi-Fi network. See “Setup WiFi on eSight 4” on page 57.**
- **eSight is turned on and within range of the Wi-Fi network.**
- **Sufficient storage space is available on your phone for the media transfer.**

## How do I...?

| | |
|---|---|
| **Move videos or pictures from eSight 4 to my phone** | **i** **On the eSight App Home screen, tap Gallery.** **Continues on next page** |

## How do I...?

| | |
|---|---|
| **Move videos or pictures from eSight 4 to my phone (Continued)** | **ii** Tap to select the video(s) and/or picture(s) that you want to transfer to your phone or tap **Select All**.<br>**iii** Tap **Transfer**.<br>**iv** Once the transfer is complete, tap **Close**. |

# Use eReader

## How do I...?
