

# Biocidin® LSF

BROAD-SPECTRUM LIPOSOMAL FORMULA

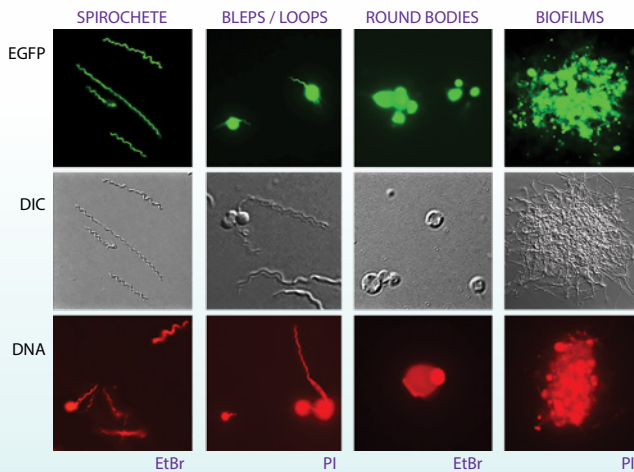

## Key Benefits of Biocidin® LSF

### RESEARCH SHOWS:

- **Inhibition of all pleomorphic forms of Borrelia** including Round Body and Biofilms\*
- Liposomal Formulation **provides intracellular absorption of ingredients** as verified by independent research\*
- Assists in **delivery of broad-spectrum botanicals to the central nervous system**, a key benefit when addressing Lyme disease or other pathogens\*
- Unilamellar Vesicles have **optimal particle size** of 100 nanometers
- **Immediate bio-availability** from oral cavity
- Enhances the activity of other antimicrobial agents by **inhibiting efflux mechanisms that create resistance**

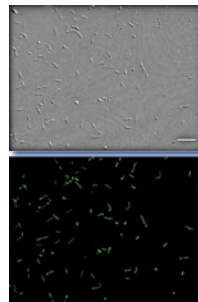

### Pleomorphic Forms of Borrelia

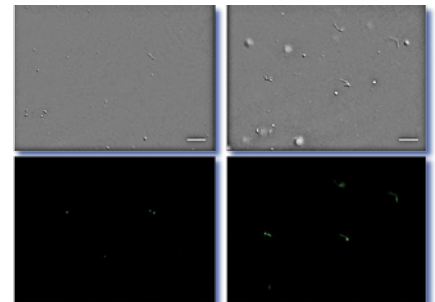

Slide provided by Dr. Leona Gilbert, Ph.D.
