Machine Vision Automation

Our
Systems

Scorpion Vision UK is a provider of machine vision systems for factory automation.

We work with machine builders to deliver robust and reliable imaging based automation solutions. We have a strong track record that goes back to the establishment of Scorpion Vision in the UK in 2004. Our customer base is broad and our application reference list is varied.

Quality Control

Using Machine vision
Technology

Provided by the leading provider
of industrial automation systems

Non-contact Measurement

High Accuracy world class
calibration tools

Measuring sub-pixel, down to
micron level

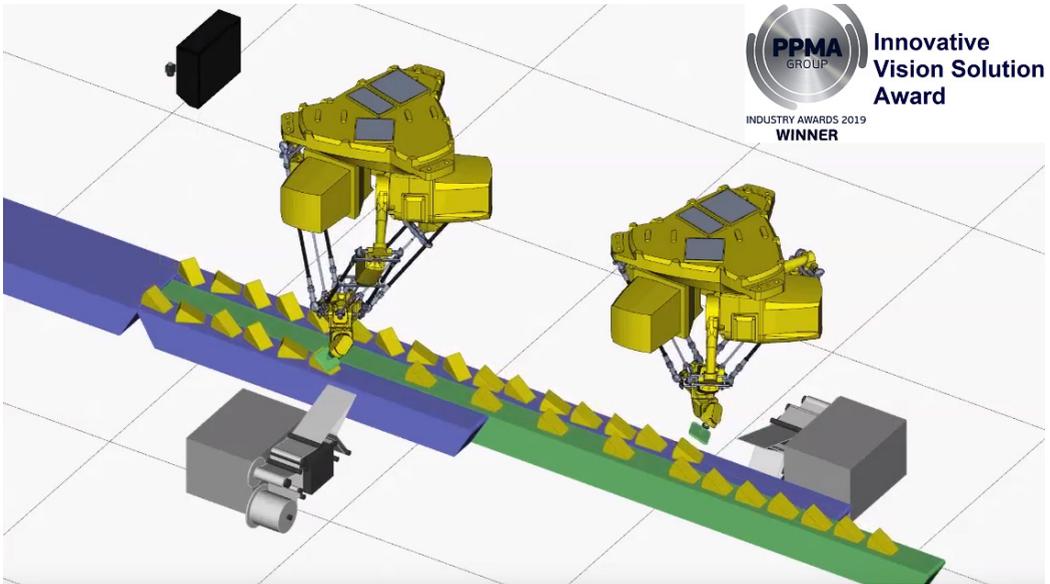

Robot Vision

Our
Expertise

Scorpion Vision is widely deployed in robotic guidance and is brand agnostic, so we have many cross platform robot vision systems deployed globally.

In the UK, we have extensive experience with ABB, Staubli, Mitsubishi and Kuka, with a demonstrable track record of many successful installations.

We are often the machine vision provider of choice when it comes to advanced 2D robot vision and one of the few providers of a competent and universal 3D robot guidance system.

Our
Products

Why not speak to our experts online and get instant help so you can make informed decisions. We sell:

- USB3 and GigE Vision Cameras
- M12 and C Mount optics
- Miniature Camera modules
- Optical and cabling accessories
- Open Platform Smart Cameras
- Value for Money LED Illumination

We understand how overwhelming it can be to find a camera suitable for your application. Spending hours researching various options can be frustrating.

Depending on your computing platform's interface you need to identify a module which fits your project best. This can range from shutter type, mono/polychromatic sensor or lens mount, to name just a few.

At Scorpion Vision we have the expertise to support you in finding the right camera device for your project. We can assist, easing your level of frustration and saving you valuable time which could be better spent on bringing your project forward.

Please get in touch with us today on +44(0)1590 679333 if you need any guidance.
