

LIGHTWEIGHT, STRONG & FOLDABLE

AVAILABLE IN:  Red  Blue  Black

2 YEAR WARRANTY ON ALL MODELS

COMFORTABLE HANDLE WITH REFLECTORS

VELCRO ARM STRAP

FREE ZIP UP CARRY BAG

HEIGHT ADJUSTABLE

Ideal for people with limited mobility, the Foldacrutch are as convenient as they are functional. They are made from high quality Aluminium, making them exceptionally lightweight and strong with an impressive maximum user weight of 121kg (19st).

When they are not required, each crutch easily folds down into two sections which clip together, allowing them to be carried in the free storage bag or stored away.

The Foldacrutch is fully height adjustable through a wide range to suit the needs of the individual and for safety purposes, it is tipped with a rubber shock absorbing ferrule and a reflector on the front of the handle ensure the user remains visible even in low light conditions. A Velcro arm strap is also fitted to avoid the crutches being dropped.

SIMPLY CLIPS TOGETHER

SHOCK ABSORBING FERRULE
