

IP-XTREAM-R

Stand Alone Streaming & Recording System with HDMI/VGA In & HDMI Monitor out

The IP-XTREAM-R system enables online broadcasting of live video, with a locally stored archive, an easy and simple process. Video content up to full 4K is supported and is automatically scaled to a resolution that is more appropriate for efficient streaming. 4 individual streams can be created for different viewing hardware ensuring the IP-XTREAM-R creates a versatile platform for customer engagement.

The streamed video can be recorded locally (via SD card) or to a local network drive. An audio mixer function is included, allowing an external audio source to be mixed with the embedded audio of your HDMI source (LPCM 2.0 only). Comprehensive EDID management, intuitive Web GUI, and adjustable Audio functions make this unit a wonderf
