

**BD_SW_4B_11 Suzuki GSXR , 4 button stop/run , Start , Mode/Meter up/down
Right side handlebar race switch**

This 4 button switch is designed for use on race/track bikes where the standard right side switch and twist grip has been removed and replaced with an aftermarket or quick action throttle

The aluminium assembly has been ergonomically designed for easy use and encompasses 4 switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom. (Brake switch wiring is not needed, or included)

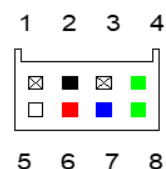

Compatible with standard or kit ECUs

Compatible with standard switches described as Meter or Mode, from K6 onwards

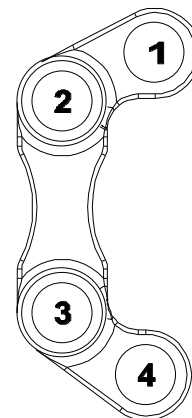

**Brake switch wiring connections**

Insert the two brake pins into the unused connector holes 1 and 3.

Polarity is not important

**Function:**

1	red	Stop / Run
2	Black	Mode / Meter UP
3	Black	Mode / Meter down
4	green	Start
