

**BD_SW_4B_09 Kawasaki ZX10 – 2016 , 4 button Up/Down , Select , Lap
Handlebar race switches**

This 4 button switch is designed for use on race/track bikes with the standard ECU and where lights and turn signals are not needed.

The aluminium assembly has been ergonomically designed for easy use and encompasses 4 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom.

Alternative switches are available for left and right applications, and also for kit ECUs

This 4 way left switch can be used with the standard right side switch or these matching right side switches

BD-SW-3B-07 Standard bar clamp 3 way switch
