### BD\_SW\_2B\_17 Start / Kill 2 button handlebar race switches for MV Agusta F3 675/800

This switch is a direct replacement for the standard Start / Kill switch assembly found on the F3, all models

This aluminium assembly has been designed ultra-slim and encompasses a red latching switch for RUN/STOP and a black momentary switch for the starter motor. Note – Run position is with red switch OUT

No modification of the bike wiring is necessary, this kit plugs directly into the 5 way connector of the standard loom.

This switch includes the wires for the brake light switch, simply plug them into the 2 remaining pin locations of the 6 way connector block and lock in place with the connector latch. For bikes that do not need the brake light switch simply leave them off and close the connector latch.

#### Function:

|   |       |            |           |
|---|-------|------------|-----------|
| 1 | Red   | Run / Stop | Latching  |
| 2 | Black | Starter    | Momentary |

#### Electrical / Mechanical Characteristics

Wire..... Type 55 / 24  
Switch sealing..... IP67
