

**BD_SW_3B_08 Kawasaki ZX10 – 2016 , 3 button Up/Down , Select
Handlebar race switches**

This 3 button switch is designed for use on race/track bikes with the standard ECU (or kit ECU) and where lights, turn signals and the lap timing function are not needed.

The aluminium assembly has been ergonomically designed for easy use and encompasses 3 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom.

Alternative switches are available for left and right applications, and also with extra functions.

This 3 way left switch can be used with the standard right side switch or the matching 2 way race switch as seen here – part number BD-SW-2B-08

**Function:**

1	White	Select
2	Black	UP function
3	Black	DOWN function
