

**BD\_SW\_2BC\_32**

**Ducati V2 right side, Start – Stop/Run  
2 button handlebar race switch for fitting directly onto the brake clamp**

This switch is a direct replacement for the standard Start / Kill switch assembly found on the V2. Designed for use on race bikes which need an additional latching switch for the rain light, or need to save space on the handlebar.

The rain DRL switch and Hazard switch are not included as they are not needed on track bikes

- Red , Stop/Run
- Green , Starter

No modification of the bike wiring is necessary, this kit plugs directly into the connector of the standard loom for Run and Start functions.

**Mounting**

These 'Type C' switches mount directly onto our own brake pump clamp(s) and are adjustable left / right to suit the rider

Three types of clamp are available

**BR-A** – 32mm in-line bolts (standard), switch mount locations are 13 or 22mm to the right of the pump centre line (**unless otherwise specified, this is the clamp we will supply as it fits the standard bike**)

**BR-B** – 30mm offset bolts to suit Brembo XR brake pump

**BR-N** – 32mm in-line bolts, switch mount offset of 13.5mm to the left of the pump centre line. Suits Nissin race pump or Brembo RC

**BR-F** – 30mm in-line bolt pattern (Typically Accosato)

Specify clamp A, B, N or F at the time of ordering. Clamps are sold separately so there is no need to replace the switch if you change your brake pump.

**IMPORTANT**  
Tighten the UPPER bolt first to achieve metal to metal contact, then use the lower bolt to clamp onto the handlebar

**0.5mm of gap** – Used for tightening the clamp.  
21.5 > 22.2mm dia bar

## Bike Sport Developments Ltd

The Old Barn, Greatworth Hall, Greatworth, Oxon, OX17 2DH - UK

### Function:

RED	RUN/STOP	Latching
GREEN	START	Momentary

### Compatible left switches

This may be used with the standard left switch or with either of these products:

BD-SW-4B-32 – Shell clamp type	BD-SW-4BC-32 – Type C clutch mount
	

### Electrical / Mechanical Characteristics

Wire..... Type 55 / 24  
 Switch sealing..... IP67  
 Housing..... Aluminium  
 Coating..... Black anodise

Dia (handlebar) .....22mm (7/8")  
 Max width ..... 40.0 mm  
 Min width at centre ..... 20.0 mm  
 Weight ..... 85 g

### Ordering Information

Part No.	Connector	Description
BD-SW-2BC-32-A	Plug n Play	2 way handlebar switch for Ducati V2 - Complete right kit + 32mm in-line A clamp ( <b>standard</b> )
BD-SW-2BC-32-B	Plug n Play	3 way handlebar switch for Ducati V2 - Complete right kit + 30mm offset B clamp
BD-SW-2BC-32-N	Plug n Play	3 way handlebar switch for Ducati V2 - Complete right kit + 32mm Nissin N clamp
BD-SW-2BC-32-F	Plug n Play	3 way handlebar switch for Ducati V2 - Complete right kit + 30mm in-line F clamp
BR-A	n/a	Replacement 32mm in-line clamp for brake – <b>Standard</b> clamp
BR-B	n/a	Replacement 30mm Offset clamp for brake – Brembo XR
BR-N	n/a	Replacement 32mm in-line clamp for brake – Nissin race pump / Brembo RC
BR-F	n/a	Replacement 30mm in-line clamp for brake
