

**BD_SW_4B_10 Yamaha R1 2015 onwards, 4 button Up, Down , Mode , Lap
Handlebar race switches**

This 4 button switch is designed for use on race/track bikes with the standard ECU where lights, turn signals and horn are not needed.

The aluminium assembly has been ergonomically designed for easy use and encompasses 4 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom and also provides wiring for the standard clutch switch.

Alternative version available with 3 buttons excluding the lap timer function.

Alternative version available with 5 buttons to suit the YEC kit ECU with pit speed limit and Map select.

**Function:**

1	Green	Mode / Select
2	Black	UP function
3	Black	DOWN function
4	Blue	Lap set
