

**BD_SW_2B_09 2 button Power / Traction control switches
ZX-10R , 2011 > 2015**

This switch is intended to replace the standard left hand handlebar switch on ZX10R for Power mode and KTRC – Traction control. The pit limiter and lap timing systems are not provided for in this set. For users who wish to retain those features you need the 5 way switch set – Part Number BD-SW-5B-04

The aluminium assembly has been designed ultra-slim and encompasses 2 momentary switches.

No modification of the bike wiring is necessary, this kit plugs directly into the 3 way connector of the standard loom.

Clutch wiring is included and essential on 636 to avoid a diagnostic error.

**Function:**

1	Green	POW	Momentary
2	Blue	KTRC	Momentary

**Electrical / Mechanical Characteristics**
