

BD_SW_2B_18 Start / Kill 2 button handlebar race switches for Honda CBR1000 – 2008 onwards

This switch is a direct replacement for the standard Start / Kill switch assembly found on the CBR1000

This aluminium assembly has been designed ultra-slim and encompasses a red latching switch for RUN/STOP and a black momentary switch for the starter motor. Note – Run position is with red switch IN

No modification of the bike wiring is necessary, this kit plugs directly into the 8 way connector of the standard loom.

This switch includes the wires for the brake light switch, simply plug them into pin locations 4 and 5 of the 8 way connector block. For bikes that do not need the brake light switch simply leave them off.

Function:

1	Red	Run / Stop	Latching
2	Green	Starter	Momentary
