

BD_SW_4B_08 Kawasaki ZX10 – 2016 , 4 button , Up , Down , Select , Pit Speed Handlebar race switches for kit ECU only

This switch is designed for use on race/track bikes fitted with the factory kit ECU which enables the left turn signal to be used as the pit speed limiter

The aluminium assembly has been ergonomically designed for easy use and encompasses 4 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom.

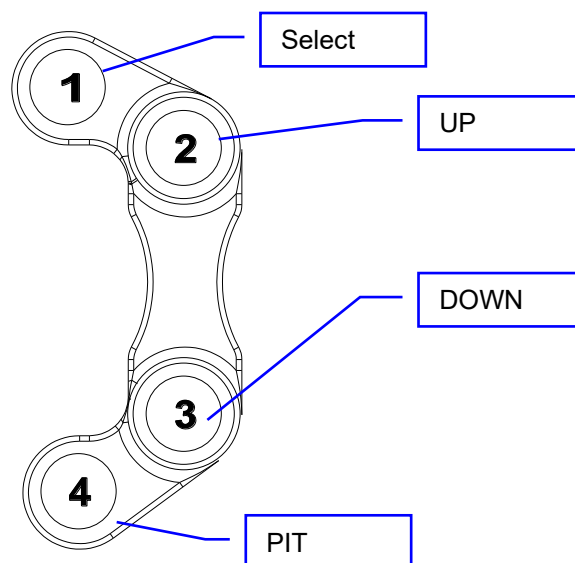

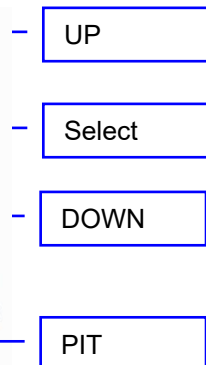

This 4 way left switch can be used with the standard right side switch or these matching right side switches

BD-SW-3B-07 Standard bar clamp 3 way switch
BD-SW-3BX-12 A/B Brake clamp mounted 3 way switch

Function:

1	Green	Select
2	Black	UP function
3	Black	DOWN function
