BD_SW_5B_08 Yamaha R1 2015 , 5 button - Up, Down, Mode, Pit Speed, Map switch Handlebar race switch for bikes with GYTR ECU

This 5 button switch is designed for use on race/track bikes with the GYTR Kit ECU and wiring loom.

The aluminium assembly has been ergonomically designed for easy use and encompasses 5 switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom and also provides wiring for the standard clutch switch.

Alternative version available with 3 and 4 buttons to suit bikes with the standard ECU
