

**BD_SW_3B_11 Suzuki GSXR1000 - 2017 , 3 button , Up , Down , Mode (Select)
Left handlebar race switch**

This switch is designed for use on race/track bikes which no longer need the turn signals or lights controls

The aluminium assembly has been ergonomically designed for easy use and encompasses 3 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom. The clutch switch wiring is retained also.

This 3 way left switch can be used with the standard right side switch or the matching 2 way race switch as seen here to the right– part number BD-SW-2B-23.

Or you can choose the BD-SW-3BXC-80 type which provides a rain light function via the stop light wiring and clamps to the stock brake pump to save space on the bars.

**Function:**

1	Black	UP function
2	White	Select - Mode
3	Black	DOWN function
