

BD_SW_3B_03 3 button dash Mode/Flash switches for Ducati

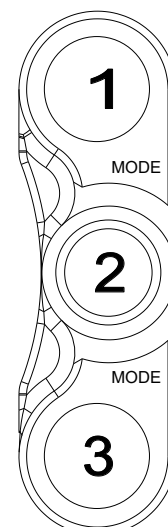

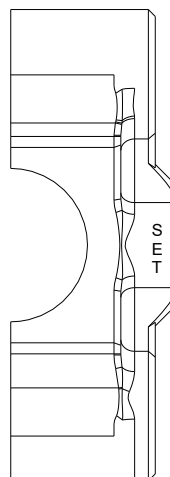

This switch is intended to replace the standard left hand handlebar switches on Ducati 848/1098/1198 track bikes which no longer require the light and turn signal controls, yet still require the use of the dash MODE and Flash functions for the setting of lap time.

The aluminium assembly has been designed ultra-slim and encompasses 2 black momentary switches and one central white switch for Flash (lap set)

No modification of the bike wiring is necessary, this kit plugs directly into the 8 way connector of the standard loom. **IMPORTANT** note, this switch set is designed for use on race bikes only that are not fitted with headlights.

**Function:**

1	Black	Mode - 1	Momentary
2	white	Lap SET (flash)	Momentary
3	Black	Mode - 2	Momentary

**Electrical / Mechanical Characteristics**

Wire..... Type 55 / 24
Switch sealing..... IP67
Housing..... Aluminium
Coating..... Black anodise
Dia (handlebar) 22mm (7/8")

Max width 20.5 mm
Min width at centre 14.5 mm
Weight 85 g
Note – Do not press both buttons at the same time
