

BD_SW_3B_19

**Start – Stop/Run - Rain - 3 button handlebar race
 Kawasaki ZX6R (636) – 2019 onwards**

This switch is a direct replacement for the standard Start / Kill switch assembly found on the ZX6R from 2019.

Designed for use on race bikes which need an additional latching switch for the rain light, or need to save space on the handlebar.

The rain light is pre-wired into the original brake light wiring circuit so control of the 'stop light' can be achieved simply by pressing the yellow button.

Rugged machined aluminium enclosure and fully sealed IP67 switches.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard wiring loom.

Compatible left side switch

BD-SW-3B_18

Up , Select , Down

Function:

Red	Run / Stop	Latching
Black	Starter	Momentary
Blue	Rain light	latching

Electrical / Mechanical Characteristics

Wire..... Type 55 / 24
 Switch sealing IP67
