

BD_SW_5B_07 Kawasaki ZX10 – 2016 to 2020, 5 button , Up , Down , Select , Pit Speed, Lap. Handlebar race switches for kit ECU only

This switch is designed for use on race/track bikes fitted with the factory kit ECU which enables the left turn signal to be used as the pit speed limiter

The aluminium assembly has been ergonomically designed for easy use and encompasses 5 momentary switches as described below.

No modification of the bike wiring is necessary, this kit plugs directly into the connectors of the standard loom.

This switch set has been designed for use with the 3 way right side race switch so should be bought as a pair
