

TRIDENT - Sanitising powder

Trident contains a blend of detergent and chlorine releasing agents making it suitable for a variety of applications in catering, housekeeping, leisure and the healthcare industries.

Trident provides in excess of 10,000 ppm available chlorine making it suitable in high risk areas.

Trident clean and disinfects washable hard surfaces and equipment in one operation.

Trident removes light soiling and kills bacteria and viruses in one application.

Trident is especially effective in areas with a high level hygiene demand.

Trident has an unperfumed and non-classified formulation.

Trident Passes EN 1276.

GENERAL AND ROUTINE CLEANING

For Kitchens, floor and walls

Prepare a 4% solution (40g per litre of warm water)

Immerse washable equipment for a few minutes before rinsing and allowing to air dry.

Wipe walls and mop floor, leave for a few minutes before rinsing with clean water and allowing to air dry.

Tannin Removal, Cloths

Prepare a 1% solution (10g per litre of warm water)

Immerse crockery or cloths for up to 30 minutes, rinse thoroughly and allow to air dry.

ACCIDENTS AND SPILLS

Blood, Faeces, Vomit and Bodily Fluids

Wear recommended PPE consisting of Apron, gloves, face mask.

Always ensure you have a measuring scoop for the powder, paper towels and waste bag.

1. Remove any soiling using paper towels and place them in a waste bag (dispose of appropriately).
2. Cover the spillage area with paper towels and soak with a 4% solution of Trident (40g per litre warm water).
3. Leave for 5 minutes.
4. Clear away paper towels, place in a waste bag and dispose of appropriately.
5. Covering the spillage area again with paper towels, re-apply the solution of Trident 4% solution and leave for a further 5 minutes.
6. Clear away paper towels, place in a waste bag and dispose of appropriately.
7. Rinse with clean water until the area is visibly clear.
8. Dispose of PPE in a waste bag and dispose of appropriately.

SAFE ZONE PLUS can be used in addition to TRIDENT.

SAFE ZONE PLUS - Virucidal disinfectant

Ready-to-use, unperfumed, virucidal disinfectant cleaner.

Broad spectrum activity against viruses, bacteria, fungi and spores.

Provides a high level of disinfection.

Passes EN 1276, EN 13704. EN 13624, EN 13697, EN 13727, EN 14476, EN 14561, EN 14562 and EN 1650.

Use as above using an undiluted solution.
