

Evergreen Sluice Wash 5LTR

Sluice Wash is a specially formulated detergent descaler for commodes/bedpans, urine bottles, utensil sluice, disinfectant, and surgical instrument washers.

Directions of use

Use through automatic dispensing system.
Normal use rate up to 20 ml per cycle. Select use rate appropriate to water hardness and soil loading.

Neat product not to be used on aluminium, zinc, or their alloys.

For best results, ensure spray wash equipment is scale free before use.
