We can offer this great album, containing 15
polypropylene* leaves that will take 60 FDC.

It fits our covers perfectly and they look great in it! Available in
Red and Dark Blue and now in Brown with 'Railway Cover Album'
blocked onto the spine, specifically for your rail collection.

*Polypropylene is a clear material which according to the experts is totally safe. Some album
leaves are dangerous as they suck out ink from the covers. PVC in particular can be lethal to
your covers and if you have old PVC pages in albums the leaves should be replaced.
