## Dear Collector,

We have simplified our clubs; we have two main clubs for new issue stamps, **Classic** and **Signed**. Being a member of one of these clubs means covers will automatically be reserved for you before they are advertised for general sale, so there is no need to order. Upon general sale there may only be a limited number, so will be subject to availability.

**Clubs are free to join and there is no obligation to buy every cover. Please just notify us of any you wish to cancel. Covers are reserved at our special 'club price'. No obligation, no contract, change, add or**

**cancel your order at any time.**

05/12/2002 Wildings Definitive. Edinburgh postmark. Signed by **John Hedgecoe**.

## Did you know?

Dorothy Francis Edith Wilding was a noted English Photographer from Gloucestershire. The Wilding Definitive Stamps feature a photograph taken by Dorothy of Queen Elizabeth II during a photo shoot in February 1952. The Wilding series were in use from 1952 -1971 and was the first and only series of stamps to include graphite lines on the reverse. The graphite lines were to aid Automatic Letter Facing (ALF) so as to align envelopes for postmarking, this was later replaced with Phosphor Bands.

After the introduction in 1971 of decimal currency, all postage stamps with pre-decimalisation values were demonetized effective on 1st March 1972. This included all the issues showing the Wilding design, except that £1 stamps of the 1952 high value series remained valid.
