# ROWLAND HILL

Rowland Hill (1795–1879) is the man behind our hobby who introduced postal reforms including the uniform penny post and the first stamp. His radical reforms saw the number of letters sent across the UK double within the first year, as the new cheaper price opened up the postal system to much more of society.

Rowland Hill signed envelope sent from his place of residence at Hampstead with a penny red & 3rd November 1875 postmark. Addressed to the editor of Debretts Peerage in Fleet Street.

## THE COVER ALBUM BARGAIN WE KEEP SECRET!

**£25**  
POST FREE

We can offer this great album, containing 15 polypropylene\* leaves that will take 60 FDC.

It fits our covers perfectly and they look great in it! Available in Red and Dark Blue and now in Brown with 'Railway Cover Album' blocked onto the spine, specifically for your rail collection.

\*Polypropylene is a clear material which according to the experts is totally safe. Some album leaves are dangerous as they suck out ink from the covers. PVC in particular can be lethal to your covers and if you have old PVC pages in albums the leaves should be replaced.

After American entry into the war he flew anti-submarine patrols over the Atlantic before transferring to the Western Front where in 1942 he flew the lead plane in the first American daylight heavy bomber raid against Occupied Europe in August & the first American raid of over 100 bombers in October. # NEWMARK ROTARY CLUB COVERS

For the 1973 Inigo Jones issue the Rotary Club of Newmarket organised this superb official; producing 100 full set covers & a few hundred further single stamp versions. They took them to the Newmarket Racecourse for sale to the public & managed to get several jockeys to agree to sign. Lester Piggott signed just 20 of the full sets with most of them sold straight to the Rotary members & so have rarely been on offer on the general market. Today the unsigned full set cover catalogues at £150 alone. We are pleased to be able to offer the last remaining stock the Rotary Club have of these covers which were never sold but kept for their own collection. A lovely group we don't expect to hold on to for long.

# COSMONAUTS *Autographs*

These covers were produced from 1964 by Russia's oldest Russian foreign trade agency Mezhdunarodnaya Kniga. If you're looking for Cosmonaut autographs then these are the ones to go for not just for the smart design but because the agency produced a fixed quantity of which all were signed, so they retain good provenance.

They are distinctive by their smaller and differently shaped envelopes than regular Russian FDCs & all except the very earliest include a first day icon based on the design of the Sputnik 3 satellite either as a hand-stamped cachet or printed as part of the design.

# APOLLO INSURANCE COVER *Autographs*

As you can imagine trying to find a life insurance policy when your job title was an Apollo astronaut proved to be impossible task. Out of this difficulty the idea of insurance covers first emerged during the Apollo lunar landing missions, starting with Apollo 11. The crew signed philatelic covers which they left with their family to sell in the event they didn't return to Earth, thus ensuring their families financial future.

We currently have one superb insurance cover for the Apollo 16 mission in stock. It's in excellent condition clearly signed by all **three crew members** & with 16th April launch day Kennedy Space Center postmark. Apollo 16 was the fifth mission to land on the Moon, landing in the Descartes Highlands.

*John Young*

(Gemini 3, Gemini 10, Apollo 10, Apollo 16, STS-1, STS-9)  
served a record 42 years with NASA.

*Ken Mattingly*

(Apollo 16, STS-4, STS-51-C) was also scheduled to be part of the ill-fated Apollo 13 crew but due to concerns about a potential illness he was replaced late on.

*Charlie Duke*

(Apollo 16) was the tenth & youngest man to walk on the Moon.
