

Make a lasting impression.

Optional accessories

Wide Table (sewing machines)

For easier handling of fabrics when quilting or sewing large projects.

Free Motion Guide Grip

Keep fabric taut with the guide grip as you sew free motion embroidery.

PE-Design (embroidery machines)

Brother's embroidery design software PE-Design offers powerful features to suit both beginners and professionals alike.

Creative Quilting Kit

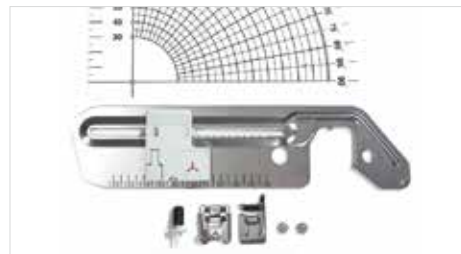

Wide table, free motion guide grip, quilting guide, open toe walking foot, 1/4" piecing foot with guide.

Multi Function Foot Controller (sewing machines)

Allows various sewing functions to be controlled from the foot pedal. Choose from:

- Thread cutter
- Sewing one stitch
- Reverse stitch
- Needle up / down.

Circular Attachment

Create precise circles with a radius ranging from 30 to 130 mm. A great tool for creating circles with straight stitching, zig-zag, embellishing and decorative stitches.

Bobbin Work Kit (sewing machines)

With the bobbin work kit, you can create a 3D-optic through the use of heavy threads on the bobbin case.

Couture Kit

Includes 6 kinds of useful sewing feet:

- Adjustable binder foot
- Gathering foot
- 5-groove pin tuck foot
- Straight stitch foot and needle plate set
- Adjustable zipper/piping foot (included with Innov-is F480)
- Non-stick foot (included with Innov-is F480)

Enjoy the freedom
to be even more
creative

Brother's Innov-is F-Series offers you advanced functionality with easy handling and useful features. Creative sewing and embroidery is practically effortless, thanks to these sleek, modern machines.

What will you
create next?

Sew with confidence. Sew with ease.

Whether you are a beginner or more advanced sewer our Innov-is F420 makes sewing a breeze. User-friendly features and automatic needle threading give you more time to do exactly what you love – being creative!

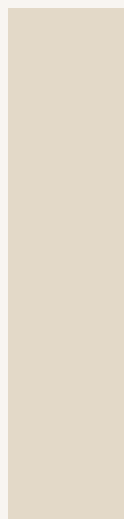

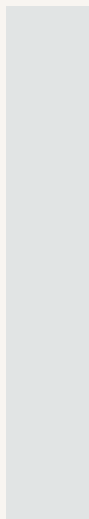

Sewing joy!

Innov-is F420

Thanks to its advanced Square Feed Drive System (SFDS) the F420 will comfortably handle a wide range of fabrics from lightweight silks to heavy denim's. Enjoy embellishing your creations with the huge range of decorative stitches.

The built-in lettering makes it easy to add those personal touches such as adding a name to a child's quilt or blanket. You will love the versatility and range of practical features, all designed to make your sewing more enjoyable.

Be unique. Create projects with your own style

Enhance your sewing projects with colourful embroidery designs that make them truly unique. The F440 and F480 include a wide variety of built-in designs to suit any taste. Whether your style is traditional, modern or eclectic, there is something for everyone! You will be astonished by it's capabilities and ease of use.

Innov-is F440E

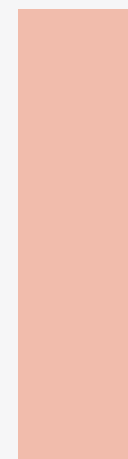

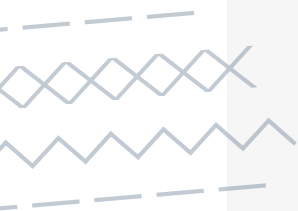

The Innov-is F440E is an embroidery machine with intuitive technology and impressive built-in designs. Its wide range of versatile functions allows you to add colour and design to almost any project. The machine also features built-in fonts, so you can also monogram items with ease.

Innov-is F480

The Innov-is F480 is the ideal machine for sewing and embroidery projects alike. Packed with features and superior quality, you can create labels, monograms and even your own stitch patterns. Its easy-to-use keypad and numerous advanced features make this machine a favourite amongst premier sewers.

*Uniquely handcrafted
with love!*

Discover the magical world of sewing and embroidery

Express your creativity in unlimited ways with the Innov-is F-Series range. Whether you are new to sewing or a seasoned seamstress, our machines allow you to enjoy creating everything from high fashion to home furnishings.

Bobbin winding system

Fast and simple threading make winding bobbins quick and easy.

Drop-in bobbin

Just drop-in a bobbin and you're ready to sew.

Advanced needle threading system

Effortlessly thread the needle by simply lowering the lever.

Automatic thread cutter

Automatically cut upper and lower threads.

Lock stitch button

At the touch of a button, tie-off stitches can be easily sewn at the beginning and end of the stitch.

Slide speed control

Adjust the sewing speed from slow to fast. This can also be used to adjust the stitch width while sewing.

SFDS: Square Feed Drive System

Square Feed Drive System gives you smooth, even feeding action for superior stitch quality on any weight of fabric.

LCD screen

All sewing information displayed on a clear, backlit screen. The Innov-is F440E and F480 come with a coloured screen, while the Innov-is F420 is equipped with a monochrome display.

Adjustable presser foot pressure

Helps you stitch pucker-free seams on even the most stretchy of fabrics with a simple electronic adjustment on the screen.

Sewing features

With a full range of features suited for beginners to professionals, Brother sewing machines make sewing almost effortless. Intuitive controls and convenient features such as an automatic thread cutter plus up to 850 superior quality stitches per minute. Expressing your creativity has never been so easy.

Up to 182 sewing stitches

Choose from numerous stitches built-in the machine, giving you unlimited creativity. Also includes up to 10 button holes and up to 5 lettering styles.

Knee lift

Free up your hands by using your knee to lift the presser foot.

Multi-directional sewing

The Innov-is F480 can sew in four directions enabling larger decorative stitches.

Combine stitches

Combine up to 70 stitch patterns and save them to memory.

Stitch reference guide

Choose the required stitch from this useful chart inside the top cover.

Adjustable thread tension

Achieve the best possible stitch quality across different fabrics by adjusting the tension of the upper thread. The Innov-is F420 offers manual controls, while models Innov-is F440E and F480 provide automatic controls.

My Custom Stitch™

Design your own stitch patterns or edit and change the built-in template designs and save for future use. (not available with Innov-is F440E)

Free arm

Ideal for sewing tubular items like sleeves, trouser legs, etc.

Sewing mends the soul!

Embroidery features

Combine your sewing skills with elegant embroidery to create unique masterpieces. Personalise and embellish your projects with one of the many built-in embroidery designs or import your own using the USB port. With a top speed of 650 stitches per minute you will add beautiful decorative embroidery and lettering to your projects in no time.

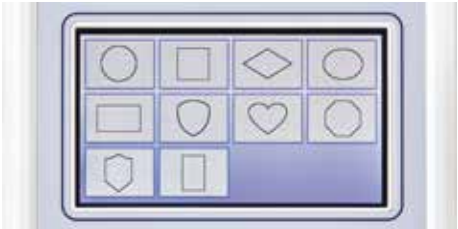

Large embroidery area (180 x 130 mm)

The embroidery machines have a large embroidery area so you can express your creative ideas and embroider larger designs.

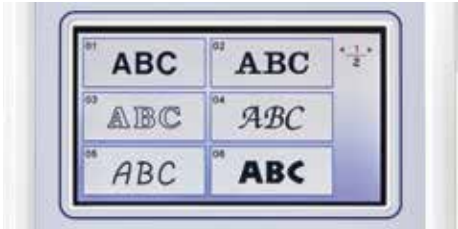

138 built-in embroidery designs

Choose from a wide variety of florals, animals, geometrics, seasonal designs and much more. With our built-in designs, you can start embroidering right away.

Patterned frame shapes

Put the finishing touch to your embroidery with an elegant frame. Choose from 10 frame shapes and 14 stitch types for an overall total of 140 different patterns available. Combine with lettering to create unique and stylish monograms.

Built-in font styles

Easily personalise your sewing and embroidery projects by choosing from 11 built-in font styles, available in 3 sizes.

Text editing functions

Add multiple lines of text and align it to the left, centre or right. Text rotation and font selection are also available from one single editing panel.

USB port

Connect a USB device such as a USB flash drive or a card reader/writer and load your embroidery design directly to the machine.

Editing embroidery patterns

Easily adjust the size, rotation or mirror embroidery patterns with the touch of a button.

Additional features in detail:

- **Combine embroidery patterns**
This function also enables embroidery patterns to be combined or lettering to be added to a design.
- **Thread sensor**
The machines Innov-is F440E and F480 are equipped with upper and lower thread sensors that warn when thread is broken or has run out.

Choose the model that's right for you
