YEARS OF ADVENTURE

Caravan Awning Guide

60 YEARS OF ADVENTURE

1966 VANGO

After acquiring James Macfarlane & Co, the company re-branded as Vango, setting a new market. Kenneth Hamilton and Alister Mouldie launched the Force Ten Classic on a cigarette pack.

Vango

60 YEARS OF ADVENTURE

1967 FORCE TEN CLASSIC

The Force Ten Classic tent, with its integrated flysheet and 16 side-panels, became a legend for its stability and easy access. Inspired by a London play, Alister called the slogan 'A Tent for All Seasons, which became a selling tagline.

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1968 - 1969 INNOVATION

This was the stage for ongoing innovation, with new gear like the Scots Guard tent, Canada sleeping bag, Colibac cool bag and Snow-Tenner fabric.

60 YEARS OF ADVENTURE

FORCE TEN

A TENT FOR ALL SEASONS

1972 MT EVEREST

Chris Brinkman and Doug Scott chose Vango's Force Ten Mark 5 for their Everest attempt, hailed by high winds at 27,200 feet—but returned free years later.

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1974 - 1975 MOUNT EVEREST

On their second Everest attempt, Doug Scott and Charles Haston summited via the Southeast Ridge. British 1974-using Vango Force Ten tents, while Chris Brinkman withdrew due to illness.

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1977 - 1979 EXPEDITIONS

Design inspired peak of the expedition, including British 82 and Kingman's top tent, where Peter Abrahams, Jim Jones, and Doug Scott summited without oxygen, via the 'high line' (long-time marketing message) and a strong reputation.

There is only one **FORCE TEN**

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1993 TENSION BAND SYSTEM

Vango's Tension Band System (TBS) developed with Alex Tala, stabilised tents at strong winds and remains a key feature in Vango's range, from hiking to family models.

60 YEARS OF ADVENTURE

YEARS OF ADVENTURE

Welcome to the 2026 Vango Caravan Awning Range Guide, introducing a collection built to elevate comfort and convenience on every adventure.

As Vango celebrates 60 years of creating trusted camping equipment, this range reflects our enduring passion for exploring, durability and reliability.

For 2026, the Caravan Awning collection features a host of exciting refinements, including the improved Single Point Inflation 2.0 system for quick, easy pitching, and the enhanced Draught Seal System 2.0 to help create a cosy, draught-free haven wherever your journey takes you.

Adding to the sense of adventure is the all-new Palma awning. Available in single beam or traditional poled designs, Palma is crafted for ultimate convenience, offering flexibility, simplicity and dependable performance without compromising on strength or comfort.

HOW TO FIT YOUR VEHICLE AWNING

Your handy guide on how to properly measure for your caravan awning.

Measuring your caravan for an awning is easier than you think. Just follow our simple guide to ensure a flawless fit! While you can measure on your own, it may be more precise with a helping hand. Grab your tape measure and something to jot down your measurements.

You will find the rail measurement in your caravan manual, but if this has been misplaced over time, don't worry - we've got you covered.

All Vango Airbeam® Awnings are porch awnings, so the first step is to measure the height of your awning rail from the ground.

- 1. Height:** Vango Awnings are designed to fit caravan heights between 235cm and 250cm. To measure accurately, make sure your caravan is on level ground. Measure from the ground to the top of the rail that runs flat along the top of your van.
- 2. Length:** Each Vango awning includes its width in the product name (e.g Balletto Air 330 is 330cm wide). To measure, take the length of your straight rail along the caravan's top. Measure from just before the curve at the front to just before the curve at the rear. This gives you the maximum width for your awning.

Many Vango awnings offer optional annexes, giving you more space for sleeping or storage. These annexes attach the side doors of the awning, expanding your living area with ease.

- 3. Side Placement:** Consider where the awning sides will align with the doors, windows, or storage compartments on your caravan. All Vango awnings include draught pad to ensure a neat seal between your awning and caravan. If you want to maximise your awning size and it goes over a window, the Draught Seal System 2.0 included within the Elements Shield and Elements ProShield ranges is designed to maintain this seal over the window.

Now you're ready to find your ideal Vango awning for your caravan and start planning your next adventure with confidence!

OUR NEW DRAUGHT SEAL SYSTEM 2.0

Stay cosy with our new Draught Seal System 2.0. Say goodbye to chilly gaps! Our pole-free, flexible seal keeps the cold out and comfort in. Now fully removable for easier storage. This system is designed to fit around windows if required and comes included within selected caravan awnings.

STEP 1

Feed the kador section into the base of the caravan and align behind the draught pads.

STEP 2

Pull through the lower section clip through the "Draught Seal System" opening.

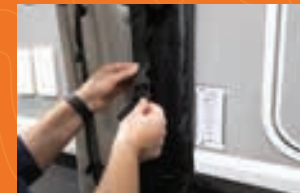

STEP 3

Attach 3 triangular pads if there's no window, or 2 (top and bottom) if there is one.

STEP 4

Attach the top clip into the awning.

STEP 5

Attach the bottom clip into the awning.

STEP 6

Apply appropriate tension to get a good seal between your awning and caravan.

Included in new elements shield & elements proshield awnings only.

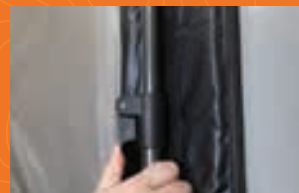

UPRIGHT DRAUGHT POLE

The Draught Seal System 2.0 can be fully removed and an adjustable Upright Draught Pole Set can be used. The Upright Draught Pole Set is an optional addition and does not come included.

STEP 1

Locate Upright Draught Pole pockets in your awning and place flat end of pole within.

STEP 2

Adjust pole length and secure pole.

STEP 3

Secure pole against the draught pad using the attachment.

Upright pole feature available in all new Vango Caravan Awnings.

5-YEAR EXTENDED WARRANTY

ON AIRBEAM®
S.I PRO TUBES*

Great news! We've extended the warranty on our patented AirBeam® technology.

We're so confident you'll be enjoying the innovation and quality of a Vango AirBeam® Caravan awning for many years to come, we've extended the AirBeam® tube warranty from two years to five years when registering your awning on vango.co.uk/product-registration. *S.I Pro Tubes within our Elements Shield and Elements ProShield collections.

EFFORTLESS SETUP WITH **VANGO AIRBEAM®** **S.I. PRO 2.0**

Single Point Inflation enables you to inflate an entire awning through just one valve.

Inflate your entire awning through just one valve – it's that simple.

Discover the next level of camping convenience with Vango's AirBeam® S.I. Pro 2.0, engineered to make setup simpler and adventures smoother.

Say goodbye to juggling multiple valves. With a single inflation point, AirBeam® S.I. Pro 2.0 pitches your awning in one clean, effortless step. Air flows automatically through every beam via the S.I. Pro inflation beam, forming a solid, dependable structure in seconds.

When its time to head home, packing up is a breeze with multiple deflation valves allowing for quick release of air.

AIRBEAM® RECHARGEABLE TEMPEST PUMP

Highly recommended optional addition! The Vango AirBeam® Tempest Pump is our most powerful pump yet, which features a two stage motor designed to give increased airflow making for quick inflation or deflation of your awning.

Features include an LED screen, USB output port, a variety of adaptors and a built in auto cut off that automatically stops when it reaches its set pressure.

THE BENEFITS OF DYNAMIC WEAVE[®] 100

Learn about our strong & lightweight Dynamic Weave[®] 100 fabric.

Crafted using 75D and 100D cross-hatch fabric for maximum strength, durability and minimum weight.

PULLING STRENGTH

23% stronger than the minimum testing requirements for lightweight (L) caravan awnings*.

TEAR STRENGTH

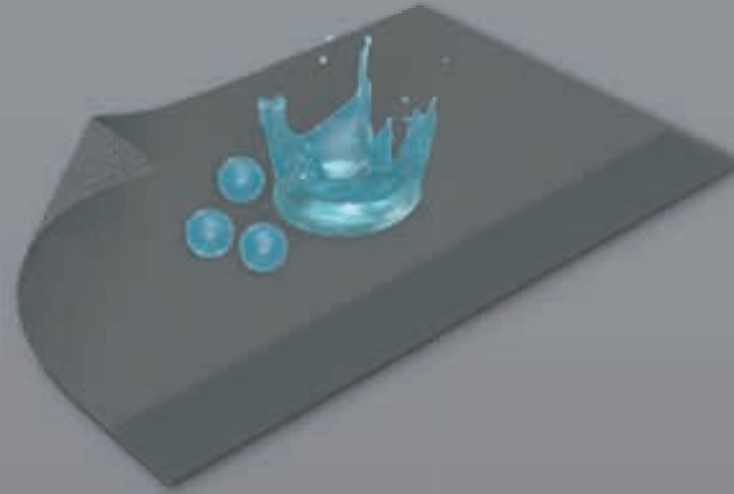

13% tougher than the minimum testing requirements for lightweight (L) caravan awnings*.

UV TESTING

Our fabric lasts 4x longer in UV exposure than the minimum requirement for lightweight (L) caravan awnings*.

*Minimum requirement as standard by the British Standard Institute's (BSI) ISO8936 for lightweight (L) awnings.

DYNAMIC WEAVE® 100

Designed with a focus on pack size, weight and longevity, this innovative fabric is durable, waterproof and lightweight.

Fabric features:

- **4,000mm HH** - Waterproof and easily cleaned.
- **Weight** - 87g/m²
- **Dynamic Weave®** - This blended composition creates a strong and durable fabric, designed to last.
- **Fire Retardant** - Meets ISO6941* standards.
- **COLOURLOCK eco™** - Improved colour retention and UV protection while reducing environmental impact**.

*ISO6941 - This range of Vango awnings fabrics are designed to meet the flame retardancy requirements of this standard.

**Reduced water usage, chemical waste, and carbon emissions compared to standard.

- **Storage Bag** - Adds protection when carrying in your rucksack.

OUTDOOR ADVENTURE MEETS RESTFUL RETREAT

Vango sleeping bags, mats and accessories ensure a fantastic night's sleep for the whole family.

SHANGRI-LA LUX 16 DOUBLE ▼

- **Integrated Rechargeable Pump** – by integrating our rechargeable pump into the design it makes inflation and deflation far more convenient than before. It takes only 1 minute to inflate and 1 minute to deflate fully ready to be rolled and packed away with ease.
- **Dreamlock Construction** – innovative cutting design which allows the mattress to pack smaller and easier than before. With the new design this allows us to reduce the pack size by 20% from its previous model.
- **Cyclone Valve** - Allowing fast and easy inflation and deflation.
- **Elastic Fabric** - Produced using a soft, elastic yarn knitted into a comfortable fabric providing a home-from-home feeling.
- **TPU Lamination Technology** - Modern TPU fabric lamination is lighter and more environmentally friendly than traditional PVC constructions. The result is a smaller pack size that's quicker and easier to inflate, deflate and pack away.
- **Vertical Walls** - A 3-dimensional construction with vertical walls produces a larger sleeping area without adding to the pack size for a more comfortable nights sleep.

Shangri-La Lux 12 & 16 Available

NEW FOR 2026

NEW FOR 2026

ROCK & ROLL LUX 12CM ▲

- **Integrated Rechargeable Pump** - By integrating our rechargeable pump into the design it makes inflation and deflation far more convenient than before.
- **Dreamlock Construction** - innovative cutting design which allows the mattress to pack smaller and easier than before.
- **75D Polyester Peach Brushed Fabric** - This comfortable and warm to touch fabric covers the mat to give you a comfortable, relaxing sleeping experience.
- **Carry Bag** - Featuring a compression strap and handles for easy packing and transportation.
- **Cyclone Valve** - Allowing fast and easy inflation and deflation.

ARCADIA 10 GRANDE ▼

Designed with a stylish, soft-touch flocked finish top and durable non-slip base, the luxurious Vango Arcadia 10cm Grande self-inflating sleeping mat offers unrivalled comfort and convenience. With the Cyclone Flip Valve inflation and deflation are much quicker and easier than traditional valves. Simply flip open the valve and watch the mat expand. Prefer a firmer mattress? Simply top it up with a few extra puffs of air. After a great night's sleep, the Cyclone valve's large opening means the air evacuates quickly making packing away really easy.

Arcadia 7.5 & 10 Available

SELF INFLATING PILLOW ▲

The ultimate in effortless comfort, the Vango Self Inflating Pillow inflates within seconds by simply releasing the valve and allowing air to be drawn into the pillow. The luxuriously soft pillow offers superior comfort allowing you to have the perfect night's sleep. To deflate the pillow, simply open the valve and roll the pillow up effortlessly.

THE FINISHING TOUCHES FOR EVERY ADVENTURE

Complete your set-up with home comforts
& storage options to keep your awning tidy.

▲ SUNBEAM FLEXI LIGHT 2M / 4M USB

- **Flexible LED Lighting Strips** - Attached using the Vango Sky Track® System or hook and loop attachment provided.
- **Works with any standard USB connection.**
- **Remote Control** - Allows you to adjust the brightness easily.
- **Hook and Loop Ties** - Included for additional attachment.
- **IP67 Rated Lights** - Protected from dust and capable of withstanding water immersion from 15cm to 1m for 30 mins.
- **LED Lights** - Sunbeam 2m - 120 LEDs producing 1500 lumen. Sunbeam 4m- 240 LEDs producing 2800 lumen.

BREATHABLE DELUXE FITTED CARPET ▼

- **PVC** - Carpet is manufactured using durable PVC and woven together to provide overall shape and provided breathability to the ground.
- **Easy to Clean** - Can be brushed, vacuumed or cleaned with a damp cloth if required.
- **Pegging Loops** - The rear of the carpet has pegging loops to provide additional security to the ground.
- **Adjustable AirBeam Straps** - Tensioning straps are designed to go around the base of the AirBeam to provide additional security.
- **Carry Bag** - Supplied with a handled carry bag.

◀ VISTA CINEMA SCREEN

- **2-in-1 Design** - Full Size and Half Size Screen - Large 120 x 160cm full size screen and compact 80 x 120cm half size screen.
- **4 Point Adjustable Webbing Anchors** - Excellent tension on screen to iron out wrinkles and give maximum stability.
- **Detachable Webbing Anchors** - Easy to fold-up and move around.
- **Flexible Polyester Screen** - Crease-resistant, even after folding.
- **0.9 Gain** - Absorbs some ambient light whilst still reflecting the light from the projector.

AIRBEAM® TEMPEST PUMP ▶

- **USB Cable Included** - Charge directly from any standard USB port.
- **Rechargeable Lithium Battery 2000mAh/90W** - Never have to buy batteries again.
- **Charge Time** - 5V2A - 3 hours & 9V2A - 2 hours.
- **Runtime** - 30 mins - Ensures you get all of your equipment set up for your camping trip.
- **Adaptors Included** - Supplied with 3 adaptors for compatibility with a variety of inflatable products.
- **Power Bank Function** - Rechargeable via USB-C, with a USB output port. (Charging cable included).
- **LED Display Screen** - Allows you to clearly see how inflated your equipment is.

LIGHTBEAM 250 RECHARGE ►

The LightBeam 250 Recharge is a lightweight and flexible design that provides a variety of lighting options for your camping trip. The run time of the 250 recharge is 4-40 hours, dependent on light mode and has two magnetic attachment points for a quick and easy set up. The light also has two elastic webbing straps which allow the light to be compatible with Vango's unique SkyTrack®.

VANGO E-PINNACLE 40L ▲

- **Cable Compartment** - Built-in cable compartment.
- **Certified by CE/ROHS/LFGB/E-MARK.**
- **CFC Free** - Free of chemicals harmful to ozone layer.
- **Polyurethane Foam Insulation** - This high-quality foam insulation maintains cool temperatures.
- **Reliable Thermoelectric Refrigeration** - Keeps your food and drinks 16°C below ambient temperature.
- **AC/DC Power.**
- **Includes a UK plug and car adapter.**
- **40L Capacity** - Can hold up to 60 cans.
- **It takes 2 hours to reach maximum temperature.**
- **Telescopic Handle and Built-in Wheels** - For easier transportation.
- **Removable Divider** - Helps to keep food and drinks separate and organised.

VANGO GLACIER 23L ▼

- **Superior Rotomolded Construction** - Engineered to withstand the toughest conditions.
- **PU Insulation** - Hi performance insulation, up to 5 days ice retention.
- **Strong Folding Carry Handle with Comfort Grip** - Comfortably lift and carry your Glacier around with ease.
- **2 Padlock Points** - Ensure things are kept safe.
- **Thermal Lid Gasket** - Locking system locks and seals for maximum chill.
- **2 Cup Holders** - Great for multiple people to enjoy a drink and place on their cooler around the campsite.

COMET LIGHT ►

The Vango Comet Light is a rechargeable telescopic light on a sturdy tripod base which gives users the ability to change the height and brightness setting depending on their needs. The Comet Light can act as a torch, a table light or a stand light meaning it can go with you anywhere.

C-PINNACLE 40L ▲

- **40L Capacity** - Can hold up to 50 cans.
- **Temp Range -22°C to +20°C** - Suitable for all occasions.
- **LED Display panel with soft touch buttons** - Easy to read and use display panel with easy control buttons.
- **ECO Mode & MAX Mode option on the panel** - Allows the user to choose what option they want.
- **Insulation PU Polyurethane.**
- **Withstand a short-term inclination of 30°** - Maintains its cooling power when tilted or placed on an incline.
- **Internal Light** - Allows you to see clearly in your cool box in dark conditions.
- **Single Compartment With 2 Storage Baskets** - Chill or freezing, keeps items separated.
- **Strong Carry Handles** - Allows support and ease carrying the cool box where you're going.
- **Drain Plug.**
- **DC 12V/DC 24V, available for car, trucks and buses** - Can charge DC from your vehicle.

VANGO PINNACLE 57L - 80HR ▼

- **High Density Polyethylene** - Superior in strength and highly durable.
- **Polyurethane Foam Insulation** - This high-quality foam insulation maintains cool temperatures.
- **57L Capacity** - Holds 75 cans.
- **Two Way Handle** - Makes for easy lifting.
- **Easy Drainage** - Empty out your cool box with ease through the tap positioned at the bottom.
- **Tough, Impact Resistant Exterior** - A strong and durable exterior to protect your goods.
- **Cup Holders** - 6 handy cup holders in the lid of the cool box to place your cans/cups.
- **Cooling Time** - 80 hours / 3+ days.

CARAVAN AWNINGS FEATURES GLOSSARY

Welcome to our Features Glossary - your go-to guide for getting to know your camping gear inside and out.

Every Vango Caravan Awning is packed with thoughtful design details and clever technology, and this page helps you understand exactly what they all do.

Here, you can explore the features that make your kit durable, comfortable, and adventure-ready - from weatherproof fabrics and lightweight materials to smart storage solutions and comfort-driven designs. Whether you're gearing up for your first weekend under the stars or your next big expedition, our glossary helps you get the most out of every piece of equipment you own.

Because the more you know your gear, the better every adventure gets.

- **2 in 1 Canopy Awning** - Awning is supplied with removable zipped doors allowing it to adapt to a sun canopy or provide shelter from the wind.
- **Adjustable Height** - Awning is able to accommodate various heights of caravan and motorhome awnings between 235cm to 250cm.
- **Adjustable Pegging Points** - Pitch with confidence, the adjustable pegging points are designed to adapt seamlessly to uneven terrain for a perfect setup every time.
- **AirBeam® Pump** - Included with all AirBeam® tents and awnings, our ergonomically designed pump ensures effortless inflation. Features a built-in pressure dial and a convenient carry bag for easy transport.
- **AirBeam® S.I Pro 2.0** - Vango's updated version of it's revolutionary quick and easy single inflation system through the AirSpeed S.I Pro Valve. Our unique system ensures pitch time is minimised while the multiple AirSpeed™ valves help with simple deflation. Patented GB2595865.
- **AirBeam® Structure** - A decade of innovation in AirBeam® technology makes us the leaders in pole-free pitching. Designed for speed and simplicity, AirBeam® ensures your awning is up in minutes—AirBeam® pump included.
- **AirSpeed® Valve System & Easy Access Positioning** - Designed by Vango to inflate your AirBeam®s with even less effort.
- **Bracer Beams Included** - Small AirBeams® reinforce the main AirBeam® structure, enhancing stability for a stronger, more secure setup.
- **Bracer Pole Included** - Adjustable Powerlite alloy poles enhance the awning frame's stability, improving performance in windy conditions.
- **Caravan Draught Pole Compatible** - Enhance your seal with two adjustable upright draught poles, ensuring a snug fit between your awning and caravan.
- **Compact Pitch** - Optimised for compact pitches, our 2.5m awning depth offers the perfect balance of space and practicality.
- **Corner Rock Pegs** - Six durable orange topped rock pegs designed to be used first when pitching which provides greater strength to the ground. These pegs should be pegged into the matching orange webbing points on the awning.
- **Covered Entry** - Stay dry and comfortable. Our sheltered entrance keeps rain out, stopping drips from reaching your living space.
- **Diamond Clear Windows** - Designed to maximise brightness and visibility, creating a spacious, airy feel inside.
- **Draught Seal System 2.0** - Seamless seal, flexible setup. This design keeps draughts out without poles but is now fully removable for those who prefer caravan draught poles. Patented GB2574036.
- **Draught Skirt & Wheel Arch Cover(s) Included** - Stay warm and comfortable with a Draught Skirt and a Wheel Arch Cover, blocking cold air from entering your awning.
- **Dual Ø4mm & Ø6mm Kador Attachment** - Built in dual sized kador allows you to get a sealed connection between your awning and caravan or vehicle. The addition of the Ø4mm kador is suitable for various wind out canopy awnings from various manufacturers.
- **Easy Access Doors** - Seamless entry for all. A flat access door ensures easy access for wheelchairs, prams, and those with reduced mobility.
- **Easy Pack Carry Bag** - Oversized carry bag to make it easier to pack the awning away.
- **Extra Large Living Space** - Generous space designed for ultimate relaxation and comfort.
- **Fire Retardant** - Safety you can trust—designed to meet rigorous European EN6941 standards for peace of mind on every adventure.
- **Front Removable Doors** - Designed for effortless setup—lightweight construction makes pitching onto a caravan quick and easy.
- **Hanging Bedroom Compatible** - Add extra sleeping space with an easy-to-attach hanging bedroom. Perfect for growing families or hosting guests.

- **Heavyweight Zips** - Oversized for superior strength, ensuring long-lasting durability and reliable performance.
- **Mesh Side Doors** - Stay cool and bug-free—two side mesh doors enhance ventilation while keeping insects out for added comfort in warmer weather.
- **Optional Annex Available** - Versatile space when you need it—use for extra storage or clip in the included bedroom for an additional sleeping area.
- **Oversized Bag** - Pack up with ease with a wide opening for simple storage, plus robust compression straps to minimize pack size.
- **PowerDual Poles** - Engineered for strength and stability. PowerPlus steel uprights and PowerFlex fibreglass roof poles combine to create a durable, high-strength structure built to withstand the elements.
- **Pre-Angled Beams** - Designed for more space and stability—its advanced curve maximises internal room while providing superior wind resistance.
- **PVC Mud Strip** - Strategically placed at the awning's base to combat splashback. Any rain spray from hard-standing pitches can be easily wiped clean, keeping your setup fresh and dry.
- **Rain Tested** - Stay dry, whatever the weather. Every tent and awning is put through tough rain tests to meet European EN6941 standards—so you can trust it to keep the water out when it matters most.
- **Reflective Webbing Storm Straps** - Stay secure and visible in strong winds with reflective storm webbing straps. Designed to clip easily onto pre-attached buckles and peg into the ground. The reflective design catches torchlight, making them easy to spot in low light.
- **Removable SkyLiner Included** - Stay comfortable in any weather with the included SkyLiner, reducing condensation and adding a thermal barrier. Easily removable for cleaning when needed.
- **Removable Zip Curtains** - Smooth-glide zips give you flexible opening options and full privacy when you want it.
- **SkyTrack® II** - A flexible hanging system which allows you to easily attach lighting and storage. The SkyTrack system truly allows you to design your tent to suit your needs.
- **Side Removable Doors** - Simplifies pitching by reducing weight when attaching to a caravan. Removable doors allow for a Side Mesh Door Panel MD100 or annex attachment for added versatility.
- **Single Beam Structure** - Quick and easy to assemble with only one beam to inflate, which also ensures a light and compact pack size.
- **Split Access Door** - Flexible access with a 60/40 split side door. Roll back a section for quick entry, while the secondary mesh door enhances ventilation.
- **Steel Pegs Included** - Strong, durable pegs included for a secure pitch, even in tough ground conditions.
- **Steel Rock Pegs** - Built to last, these strong, durable pegs are designed for tough terrain and come with a convenient carry bag for easy storage.
- **SuperBeams™** - Larger diameter beams providing additional structure and stability to the awning.
- **Supplied with Sky Hooks** - allows easy attachment to the tent or awning SkyTrack® II system.
- **TBS®II Tension Band System** - Designed for stability in tough conditions, especially strong, shifting winds. When tensioned, TBS®II braces the beam or pole at three points to prevent sideways movement. Easily adjustable to remove slack and can be stowed away in calm weather. Patented EP1905927.
- **Toggled Privacy Curtains** - Quickly adjust your privacy with easy-to-use toggles. Open up for light or close off for a more private, cosy space.
- **Touring Awning** - Built for adventure, not long-term stays. Designed for touring use, this awning withstands holiday trips with ease. While prolonged UV exposure can accelerate wear, normal use ensures lasting performance for many getaways to come.
- **Two Carry Bags** - Smart storage, effortless transport, this awning comes in two separate bags for easy handling. One holds the main structure, while the other keeps extras like the Draught Skirt, Wheel Arch Covers, Pegs, Pump, Storm Straps, and Bracer Beams (Model Specific) neatly organised.
- **Veranda Compatible** - Use the included Bracer AirBeam to create a veranda-style window setup. It's a quick and easy way to let fresh air flow into your awning.
- **Vista Front Windows** - Bright and open, floods your living space with natural light while offering a stunning panoramic view.
- **Webbing Storm Straps** - Gain extra stability in strong winds with storm webbing straps. Just clip onto the pre-attached buckles, peg into the ground, and secure your awning with ease.
- **Zippered Privacy Curtains** - Effortless privacy control, zip curtains adjust with ease for customizable light and privacy or roll down neatly when not in use.

VANGO AFTERCARE HERE WHEN YOU NEED US

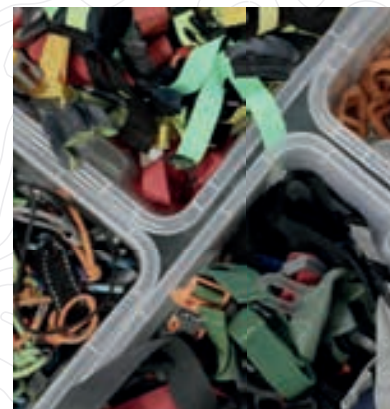

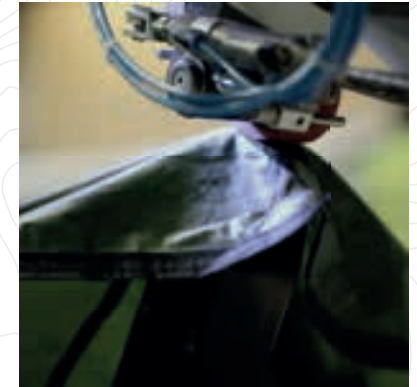

Vango aftercare is here to ensure your kit stays adventure ready, season after season.

We know your tent, awning, sleeping bag, or that well-travelled rucksack is more than just kit. It's a companion, one that's weathered sunrises, downpours, and perhaps the odd culinary experiment gone wrong.

To help you keep it adventure-ready, we work with trusted repair experts who can patch, restitch, or replace worn parts with care and precision. Whether it's a leaky seam, a snapped pole, or a fogged-up window, support is never far away.

Need a replacement part? A dedicated spares department is on hand to supply everything from beams to buckles.

As part of our commitment to reducing our carbon footprint, we partner with Camping Recycled to give second-life products a new home. Ex-display, sample stock and returned items are refurbished and made available for resale, so you can feel good about choosing sustainable solutions with Vango.

WARRANTY

Although Vango Caravan awnings come with a two year warranty as standard extendable to three years when registering, we're so confident you'll be enjoying the innovation and quality of a Vango AirBeam® Caravan awning for many years to come, we've extended the AirBeam® tube warranty from two years to five years when registering your awning on vango.co.uk/product-registration.

*Products must be registered within 6 months from the date of purchase at vango.co.uk/product-registration. Warranty will be extended by one year only and proof of receipt must be obtained.

CARBON BALANCED PAPER

At Vango we care about our planet and printing has a direct impact on it; therefore we work with World Land Trust to reduce the effect on our world. By using a carbon balance material we have offset the equivalent of 1,869kg of carbon dioxide and this support will also enable World Land Trust to protect 357m² of critically threatened forestry. Finally, we would ask that if you no longer need this brochure, please help us continue to reduce waste by recycling it.
