

YEARS OF ADVENTURE

Vehicle Awning Guide

60 YEARS OF ADVENTURE

1966 VANGO

After acquiring James Macdonald & Co., the company re-branded as Vango, settling a new market. Harriett Hamilton and Alister Mouldie launched the Force Ten Classic on a cigarette pack.

Vango

60 YEARS OF ADVENTURE

1967 FORCE TEN CLASSIC

The Force Ten Classic tent, with its integrated flysheet and 16 pole design, became an instant hit for its stability and easy access. Inspired by a London play, Alister coined the slogan 'A Tent for All Seasons, When Season is a Moving Target.'

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1968 - 1969 INNOVATION

This was the stage for ongoing innovation, with new gear like the Scots Guard tent, Canada sleeping bags, Croftall coat hangers and Skibo Tents follow.

...thanks to VIVA SOFT

By 1968, Alister could walk the right hand.

FORCE TEN

A TENT FOR ALL SEASONS

1972 MT EVEREST

Chris Brunning and Doug Scott chose Vango's Force Ten Mark II for their Everest attempt, tested by high winds at 27,000 feet—had returned two years later.

Vango

60 YEARS OF ADVENTURE

1974 - 1975 MOUNT EVEREST

On their second Everest attempt, Doug Scott and Doug Huston submitted via the Southwestern Pacific-British Oil Company Vango's Force Ten tent, while Chris Brunning withdrew due to illness.

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1977 - 1979 EXPEDITIONS

Vango supported past and present expeditions, including British 82 and Ferganapower tents, where Peter Ashworth, Jim Jones and Doug Scott submitted without success, and before, Vango long-time marketing manager Chris Brunning's strong reputation.

There is only one

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1993 TENSION BAND SYSTEM

Vango's Tension Band System (TBS), developed with Aere Tals, standardised tents as strong, simple and versatile as a key feature in Vango's range, from hiking to family models.

Vango

60 YEARS OF ADVENTURE

Rucksacs

rucksacs for carry & comfort

1995 BI-RADIAL

After 20 years, Alister Mouldie Sr. retired, with Richard Collier becoming MD. Vango then launched the Bi-Radial rucksack system, building on previous innovations.

Vango

60 YEARS OF ADVENTURE

Clothing

clothing for comfort & protection

1996 PROTEX®

Vango expanded into the family camping market and introduced Protex, a sustainable waterproof fabric that keeps tents cool in heat and warm in cold, now a core feature across their range.

Vango

60 YEARS OF ADVENTURE

1997 OMEGA®

Vango pushed sleeping bag design further with Omega's construction ergonomically designed for maximum warmth and heat retention.

Vango

60 YEARS OF ADVENTURE

60 YEARS OF ADVENTURE

1998-1999 FORCE TEN EXTREME

The decade closed with Force Ten Extreme tents—lighter, stronger, and built with cutting-edge fabrics, setting a new standard for high-tech, low-impact adventure.

Vango

60 YEARS OF ADVENTURE

2000 FESTIVALS

As festivals boomed in the 2000s, Vango met the demand for easy, reliable gear—driving a surge in popularity and sales.

Vango

60 YEARS OF ADVENTURE

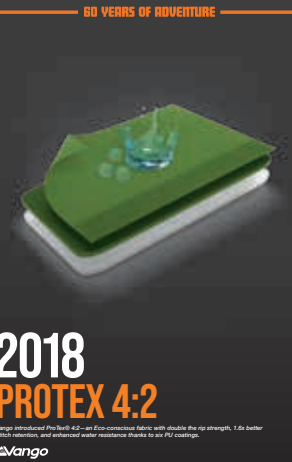

2015 AIRSPEED

Airspeed improved the AirSpeed system with a more user-friendly rain, Vango's growing range now serves everyone—from relaxed family campers to hardcore adventurers—with versatile, technical gear for every journey.

Vango

60 YEARS OF ADVENTURE

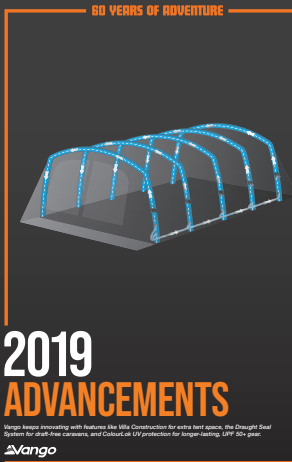

2018 PROTEX 4:2

Vango introduced Protex 4:2—an Eco-conscious fabric with double the rip strength, 1.6x better stitch retention, and enhanced water resistance thanks to six PU coatings.

Vango

60 YEARS OF ADVENTURE

2019 ADVANCEMENTS

Vango keeps innovating with features like Mils Construction for extra tent space, the Drought Seal System for draft-free canopies, and Coloursafe UV protection for longer-lasting UV 50+ gear.

Vango

60 YEARS OF ADVENTURE

2020 PROJECT HYDROGEN

After years of research and development, Vango launched Project Hydrogen—the world's lightest two-skin tent at 700g, ideal for hike-packing and ultralight living. It won the 2020 G&A and GPO awards.

VEHICLE AWNING HEIGHT GUIDE

Choose the perfect
awning for your van.

Measuring for an awning is easier than you think, simply follow our height guide and find the perfect awning for you. You can measure alone, but it may be more accurate with someone to help you.

All you need is a tape measure and something to note your measurements on and you can find the correct awning height for you.

Please measure from ground level to the point of attachment.

Please note this is for guidance only and you should measure prior to selection.

CHOOSE YOUR PERFECT VANGO VEHICLE AWNING

Finding the perfect awning starts with choosing the right fit for your camper van. To make things easy, we've grouped our awnings into three simple height categories: Low, Mid, and Tall. Whether you're driving a compact camper, a standard-height van, or a high-roof model, you'll quickly find the awnings designed to match your vehicle.

Browse the categories below to discover the ideal setup for shade, shelter, and comfort on every adventure.

ATTACHING YOUR VEHICLE AWNING

MADE SIMPLE

Attaching your awning is straightforward with four easy options to suit your vehicle*.

1. KADOR STRIP

If your vehicle has a pre-attached 6mm rail, you're all set! Simply slide the pre-fitted 6mm Kador strip on your awning directly into the rail for a secure and tight seal. For added flexibility and ease, we recommend using a drive-away kit, which ensures a snug fit and makes detaching and reattaching your awning effortless when you head out for the day.

2. POLE & CLAMP KIT

Got a deep gutter on your vehicle? A pole and clamp kit (sold separately) is your go-to option. Slide the pole into the sleeve at the top of your awning, position it in the gutter, and secure it with clamps at each end and in the centre. It's a simple solution that keeps your awning firmly in place. Available for Low vehicles only.

3. HOOK & LOOP TABS

If you have roof bars on your vehicle, you have a really easy way of attachment to your van. You can attach the awning to your vehicle through the hook and loop tabs that are pre-sewn into the top of your awning. The easiest way to do this is to start in the middle and work outwards, this way you will get them in the right place on your van and it will make pitching easier.

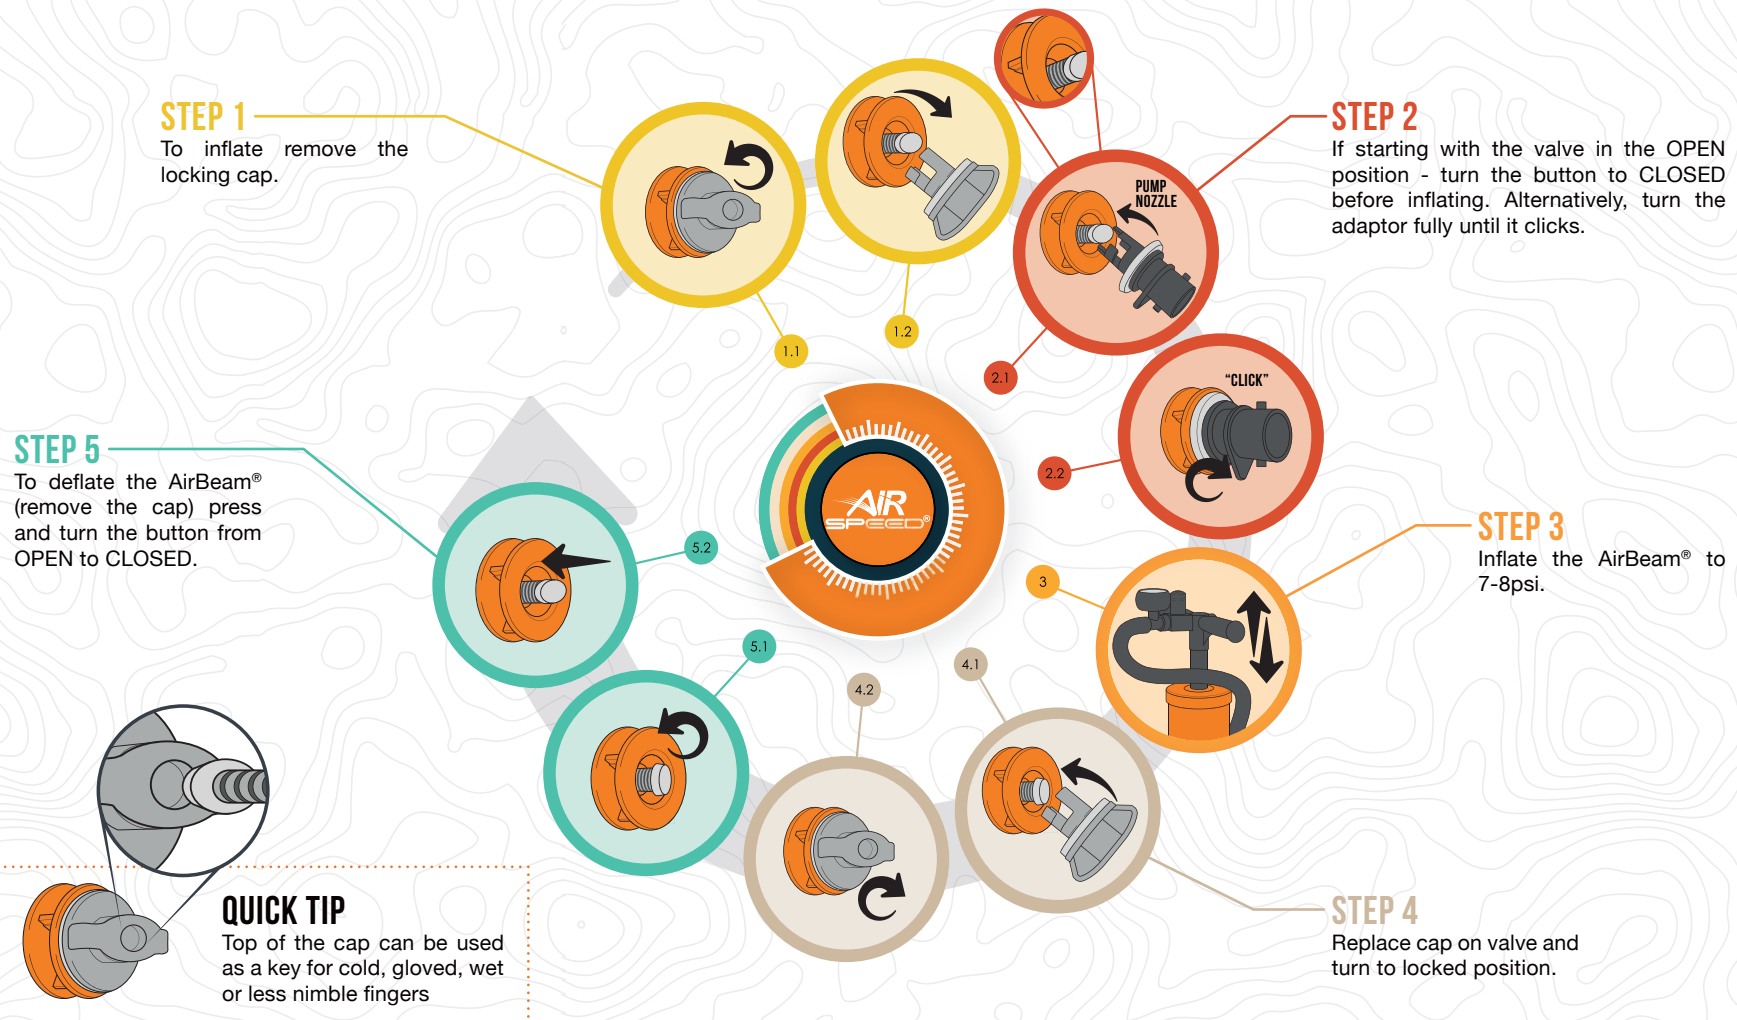

4. 8M WEBBING STRAPS

If you don't have an attachment point on your vehicle, don't panic as webbing straps can be used. The webbing straps are supplied with the awning and can be clipped into the buckles on the rear of the awning and pegged into the ground. It is important to adjust the straps to fully tension the roof.

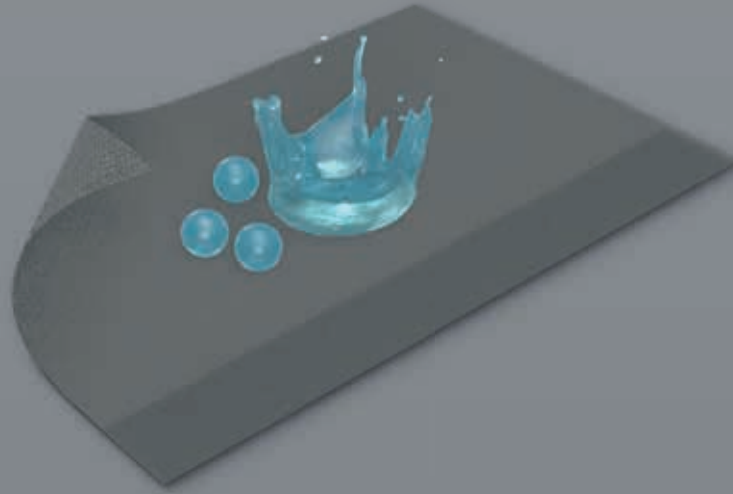

*Included attachment options vary dependent on model attachment height and production date.

SIMPLIFY YOUR SETUP WITH VANGO AIRSPEED®

Setting up your awning has never been easier. The AirSpeed® Valve System streamlines the process, eliminating the hassle of caps to screw or unscrew. Conveniently positioned for effortless inflation and deflation, this innovation ensures you spend less time setting up and more time enjoying your adventures.

SENTINEL ACTIVE 75D

Made from 75D fabric: offers reliable performance and packs down small for easy transport.

Fabric features:

- **3,000mm HH** - Waterproof and easily cleaned.

VEHICLE AWNINGS FEATURES GLOSSARY

Welcome to our Features Glossary - your go-to guide for getting to know your camping gear inside and out.

Every Vango Vehicle Awning is packed with thoughtful design details and clever technology, and this page helps you understand exactly what they all do.

Here, you can explore the features that make your kit durable, comfortable, and adventure-ready - from weatherproof fabrics and lightweight materials to smart storage solutions and comfort-driven designs. Whether you're gearing up for your first weekend under the stars or your next big expedition, our glossary helps you get the most out of every piece of equipment you own.

Because the more you know your gear, the better every adventure gets.

- **2 in 1 Canopy Awning** - Awning is supplied with removable zipped doors allowing it to adapt to a sun canopy or provide shelter from the wind.
- **Additions Available** - This awning has multiple additions available for enhanced functionality. Please check our additions table for more details.
- **AirBeam® Pump** - Included with all AirBeam® tents and awnings, our ergonomically designed pump ensures effortless inflation. Features a built-in pressure dial and a convenient carry bag for easy transport.
- **AirBeam® Structure** - A decade of innovation in AirBeam® technology makes us the leaders in pole-free pitching. Designed for speed and simplicity, AirBeam® ensures your awning is up in minutes—AirBeam® pump included.
- **AirSpeed® Valve System & Easy Access Positioning** - Designed by Vango to inflate your AirBeam®s with even less effort.
- **All In One Inflation** - Quick and easy inflation through one valve.
- **Annex & Tunnel Attachments** - Can be arranged to allow you to choose whether your awning is front or side facing. Versatility also makes this an ideal choice for vehicles with a right hand side rail.
- **Bracer Beams Included** - Small AirBeams® reinforce the main AirBeam® structure, enhancing stability for a stronger, more secure setup.
- **Bracer Pole Included** - PowerFlex Fibreglass poles enhance the awning frame's stability, improving performance in windy conditions.
- **Cable Entry Point** - Neatly feed electrical cables into your awning allowing you to easily keep your camping appliances powered.
- **Clear Visibility Guylines** - Bright coloured guylines for clear visibility to prevent tripping hazards and ensure stability in high winds.
- **Covered Entry** - Stay dry and comfortable. Our sheltered entrance keeps rain out, stopping drips from reaching your living space.
- **Diamond Clear Windows** - Designed to maximise brightness and visibility, creating a spacious, airy feel inside.
- **Drive Away** - Using the addition of a Drive Away Kit, detach the tunnel area of your awning from your vehicle and roll it away leaving your awning free-standing as you explore for the day. Keep a note of your parking position for when you return and re-attach the awning to your vehicle.
- **Easy Access Doors** - Seamless entry for all. A flat access door ensures easy access for wheelchairs, prams, and those with reduced mobility.
- **Easy Pack Carry Bag** - Oversized carry bag to make it easier to pack the awning away.
- **Extra Ventilation Panel** - We have now added one extra ventilation panel to allow for increased ventilation and improve comfort.
- **High Grip Guyline Adjusters** - Securely hold tension in even the harshest conditions and can be easily adjusted with one hand.
- **King Pole Door** - Door can be used as a canopy by adding additional king poles through the door eyelets, providing shelter from sun or rain.
- **Lantern Hanging Points** - Conveniently positioned to attach your light(s) with ease.
- **Linked-In Groundsheet** - This groundsheet can be attached or detached from the living area making it easier to clean.
- **Low Multi Width Vehicle Attachment System** - Innovative system allowing for the awning to attach to a range of low height vehicles with width ranging from 120-190cm using adjustable tension straps.
- **Mesh Front Door** - Fitted with internal mesh fly screen for bug-free ventilation.
- **Multiple Vehicle Attachment Methods** - All our awnings come with pre-attached 6mm kador, 8M over vehicle straps, roof bar attachment tabs and sleeve for pole & clamp kit system. This ensures our awnings are compatible with any vehicle.

- **Over Door Covered Entry** - Provides a sheltered entry to your awning, which prevents rain from dripping in.
- **Optional Bedroom Available** - Create an additional sleeping area with a clip in double bedroom.
- **Optional Groundsheet Protector Available** - Protects built-in groundsheet from rough ground. Prevents awning base getting wet and dirty, allowing easier pitching, packing and storage.
- **Optional SkyLiner Available** - Internal roof liner to help reduce the effects of condensation and provide a thermal barrier in cold weather. Connects to SkyTrack with pre-attached Sky Hooks.
- **Pegging Assistance** - Key pegging points are highlighted orange. Pitch these points first to create the correct shape of your awning. Thereafter erect your tent.
- **Pitch From Either Side** - Awning is multifunctional and can be pitched on the side or rear of your campervan.
- **PowerFlex® Fibreglass Poles** - Creates strong, light and reliable structures.
- **Pre-Angled Beams** - Designed for more space and stability—its advanced curve maximises internal room while providing superior wind resistance.
- **Pre-Attached Front Canopy** - Provides shelter from all weathers and is ideal for socialising.
- **Reflective Webbing** - Picks up torchlight so the pegging points are easily spotted in low light conditions.
- **Roll Away Connecting Tunnel** - Detach your awning when you drive away for the day, simply roll back the tunnel and toggle it to secure.
- **Secondary Mesh Doors** - Fitted with internal mesh fly screen for bug-free ventilation.
- **Sewn-In Groundsheet** - Provides a bug and draught free environment. Groundsheet is attached to the flysheet with an external storm skirt to give all-round protection.
- **Side Attachment** - Awning attaches to your van with a side attachment to ensure you are always facing the view wherever you go.
- **Skylight Windows** - Windows which run along the roof line of the awning to enhance light during the day and for stargazing at night.
- **SkyTrack® II** - A flexible hanging system which allows you to easily attach lighting and storage. The SkyTrack system truly allows you to design your tent to suit your needs.
- **SkyTrack® Blinds** - Adding a bit of extra style to your tent, these blinds give you the ability to slide your curtains to the desired height allowing for optimal light levels at any time of day.
- **Steel Pegs Included** - Strong, durable pegs included for a secure pitch, even in tough ground conditions.
- **Steel Rock Pegs** - Built to last, these strong, durable pegs are designed for tough terrain and come with a convenient carry bag for easy storage.
- **Storm Straps** - Additional stability for your awning in strong winds. Simply clip onto the pre-attached buckles and peg into the ground to secure.
- **SuperBeams™** - Larger diameter beams enhance structure and stability, ensuring a stronger, more resilient awning.
- **Supplied with Sky Hooks** - allows easy attachment to the tent or awning SkyTrack® II system.
- **TBS®II Tension Band System** - Designed for stability in tough conditions, especially strong, shifting winds. When tensioned, TBS®II braces the beam or pole at three points to prevent sideways movement. Easily adjustable to remove slack and can be stowed away in calm weather. Patented EP1905927.
- **Toggled Privacy Curtains** - Quickly adjust your privacy with easy-to-use toggles. Open up for light or close off for a more private, cosy space.
- **Touring Awning** - Built for adventure, not long-term stays. Designed for touring use, this awning withstands holiday trips with ease. While prolonged UV exposure can accelerate wear, normal use ensures lasting performance for many getaways to come.
- **Tunnel Adjustment Strap** - Helps collect any excess material and creates a neater looking tunnel and a tighter fit to the vehicle.
- **Two Doors in Tunnel Attachment to Vehicle** - For convenient access to the front or back of your vehicle.
- **Ventilation Panels** - Create a comfortable flow of air through the awning to reduce condensation.
- **Zip On Front Canopy** - Effortlessly extend your living space with a detachable front canopy. Ideal for enjoying the outdoors in comfort throughout the season, rain or shine.
- **Zippered Privacy Curtains** - Simple and quick to use, zip curtains allow varying levels of opening. Fits to the flysheet with no gaps and simply rolls down into a pocket when not required.

VANGO AFTERCARE HERE WHEN YOU NEED US

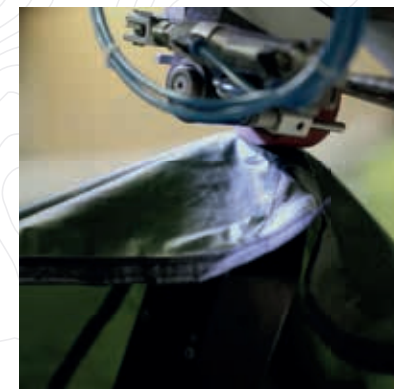

Vango aftercare is here to ensure your kit stays adventure ready, season after season.

We know your tent, awning, sleeping bag, or that well-travelled rucksack is more than just kit. It's a companion, one that's weathered sunrises, downpours, and perhaps the odd culinary experiment gone wrong.

To help you keep it adventure-ready, we work with trusted repair experts who can patch, restitch, or replace worn parts with care and precision. Whether it's a leaky seam, a snapped pole, or a fogged-up window, support is never far away.

Need a replacement part? A dedicated spares department is on hand to supply everything from beams to buckles.

As part of our commitment to reducing our carbon footprint, we partner with Camping Recycled to give second-life products a new home. Ex-display, sample stock and returned items are refurbished and made available for resale, so you can feel good about choosing sustainable solutions with Vango.

VEHICLE AWNING ADDITIONS

WARRANTY

For added peace of mind, all Vango products have a warranty that lasts for not just one, but two years from the date of purchase. You can then also extend the warranty by a further year through registering your product online*. Another great reason to buy Vango.

*Products must be registered within 6 months from the date of purchase at vango.co.uk/product-registration. Warranty will be extended by one year only and proof of receipt must be obtained.

CARBON BALANCED PAPER

At Vango we care about our planet and printing has a direct impact on it, therefore we work with World Land Trust to reduce the effect on our world. By using a carbon balance material we have offset the equivalent of 2,632kg of carbon dioxide and this support will also enable World Land Trust to protect 503m² of critically threatened forestry. Finally, we would ask that if you no longer need this brochure, please help us continue to reduce waste by recycling it.
