

Pack Benches

Optimise your warehouse efficiency and productivity today with our range of customisable pack benches

Find out how our customisable benches could work for your operation.

Providing Customisable Solutions

Our range of customisable pack benches enable you to maximise the efficiency of your space, streamlining workflow and enhancing productivity.

Our eight pack benches have been created to help simplify the process of selecting customised pack benches for your warehouse. Along with the 21 optional extras that are available, our pack benches provide flexible solutions.

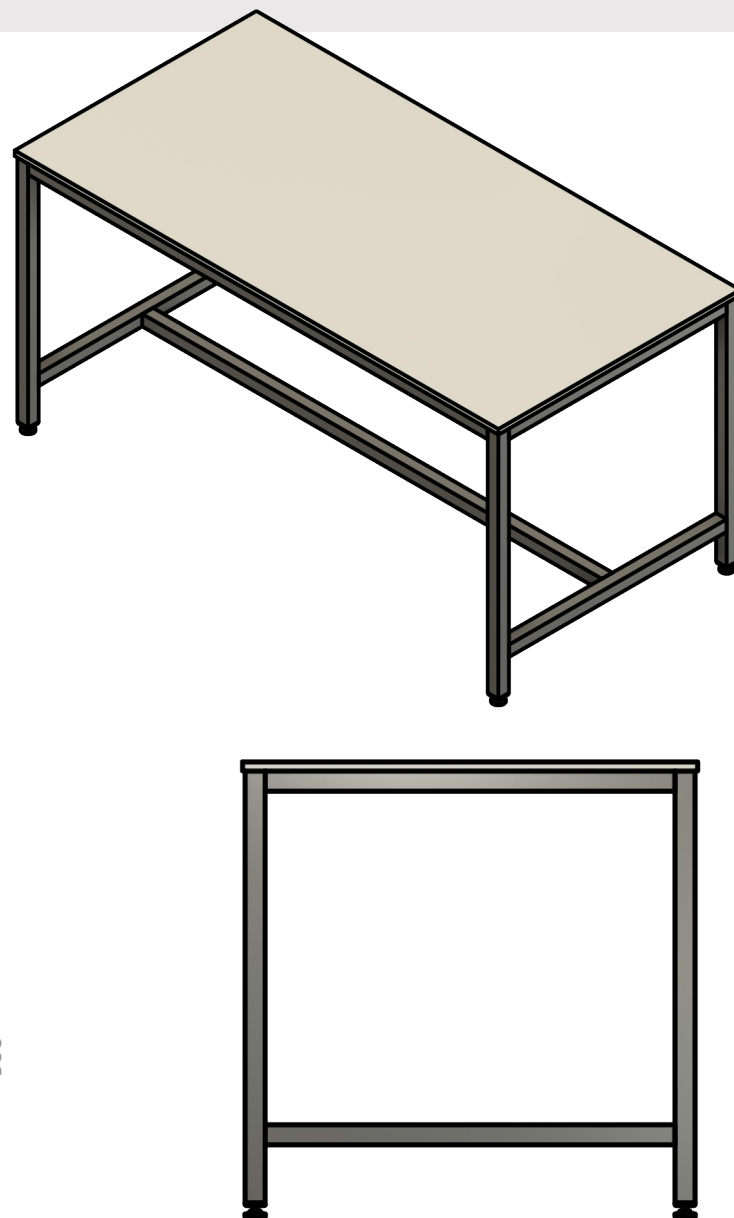

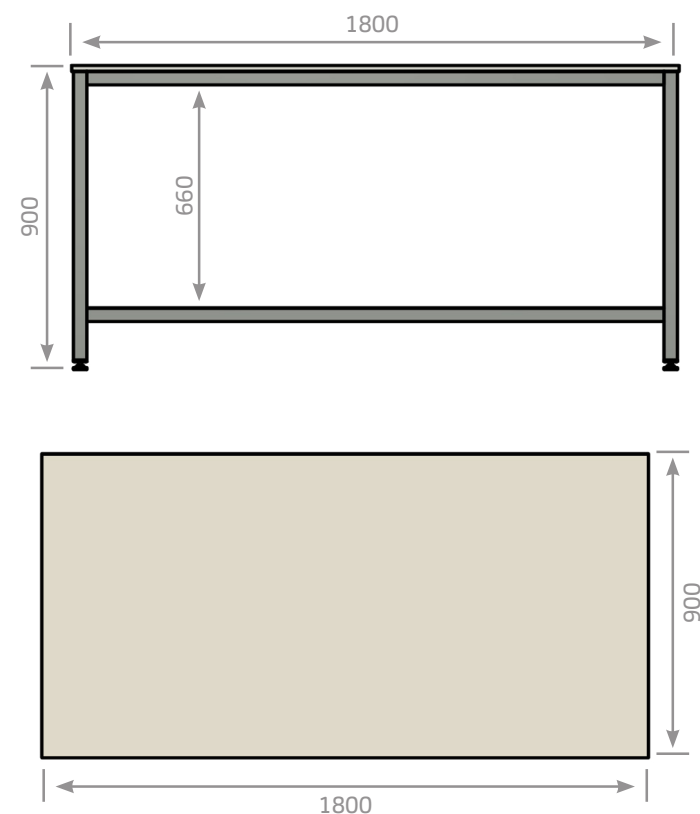

Each bench is built with a 40 x 40mm heavy-duty steel section, fully welded joints and a powder-coated finish to protect against corrosion. They are manufactured to order in Great Britain and have been designed with carefully-selected materials to ensure that they are strong and durable.

Ordering Our Pack Benches

1. Ask your customer to pick their main pack bench and the accessories they would like to add from the brochure
2. On the order form, note the pack bench quantity and place accessory numbers on the grid accordingly
3. Use the Excel calculator to price up the bench along with the accessories
4. Send finished form to Southgate customer support (customer.support@southgateglobal.com)
5. A pack bench drawing with selected accessories will be sent back to you within five working days for your customer to review and sign off before the official purchase order is made

Typically six pack benches are sold to a single customer

With an average selling price of £1,000, selling two pack benches a week would generate **over £100,000 per year** in sales for you

Contact your account manager for access to our simple **pack bench pricing tool** to allow you to instantly quote in front of your customer – enabling you to close a sale on the day.
